## THE TRAINING CADRE

This is the first year that the training cadre has been in use. The training cadre is made up of twenty-one outstanding cadets, who were chosen for their military bearing and leadership ability. Though the training cadre was only an experiment this year, it proved successful, beyond a doubt, and will continue as a practice throughout future years at Carlisle. The cadre this year, under the direction of Cadet Captain Tomlinson, completed the six weeks period with a citation for outstanding leadership.
