SIGMA EPSILON

This year saw a great many momentous changes and events here at Carlisle, and one of the very best events to take place was, we think, the establishment of a literary fraternity on our campus. The Sigma Epsilon Society is composed of a group of boys who display special ability in English or in journalistic activities at Carlisle. The aim of the society is to raise the academic standards of the boys within the group, as well as to give its members an opportunity to use their talent more often.

We of the society this year realize that the group is a fledgling organization, and we hope that the society, now that it has been established, will continue to function successfully in the future, because we think it meets a definite need.
