GUS MARTSCHINK
1st Lieutenant

The Training Cadre is a select group of men under the supervision of Major Waddy Thompson, whose job it is to indoctrinate the new cadets into their new way of life. In previous years this body of men have proven themselves qualified to fully relate and teach the recruits the basics of military in a period of six weeks.

These men are the real backbone of Carlisle's success and we wish them good luck in their future years of service to this institution.
