

Carlisle's attractive, modern library is the pride of faculty and students alike. Recently remodeled and carpeted throughout, the library combines all the elements essential for learning, physical and intellectual comfort, constant supervision and advisotorical contact, and a wide range of up-to-date reading material and audio-visual aid facilities.

The library is open seven days a week, morning, noon and night; and cadets are encouraged to avail themselves of the facilities available. From "simply-browsing" hours in the afternoon, to "strictly-business" hours at night, a member of the library staff is always on duty, ready to assist in any way possible.

It is no wonder, that much of the cadets' free time is spent in the library — reading, writing, or just plain "rapping."
