

# *Inspection Tench Hut!*

Well, Saturday morning inspection is here, after long work on rooms and self cleanliness. The rooms are spotless, the brass is shined. The hands and faces are washed, and short, neat hair is combed.

Haircuts, uniforms, shoes, rooms, and drill performance are inspected. They are awarded with merits, and punished by reports and demerits. This is one of many times that all cadets work together in order to stand out in military inspections.
