

With a look of determination, sophomore Jennifer Goodwin manages to keep up with the ball. "Our team this year has many talented players and we have done very good and even made playoffs," Jennifer said.

Trying to keep up senior Mamie Foreman runs after the ball. "It's really challenging, the strategy and physical aspect of the game is really difficult to master sometimes," Mamie said.

HEADS UP

The girls soccer team tried to stay fit and focused at every practice and game. Many of the players had years of playing time, while others were just beginning the process of learning. "It's possible that you could have never played the game before, but you can quickly learn with Coach Reid's help," sophomore Jessica Wills said.

This year, Coach Reid and the girls hoped to come out with a winning season, make it to the playoffs, and set up a battle for the state title, which the school has never won before. "With three games remaining in the season, we've had the season we've ever had. This is the result of the hardwork and dedication of the team," Coach Reid said. Coach Reid helped out beginners and former players. The season held the ultimate challenge for the girls soccer team. The girls needed dedication and hardwork for a successful season.
