## Racing for the Goal

Keeping a level head and their minds focused on the game, the boys varsity soccer team strived to win every game. Their plans for the season were to just get out there, play their best game, and win. They wanted to have an overall good season, some just wanted to have a better season than last year. Every boy contributed something, and had the ability to be something great. The soccer team had practice every day during the week. If they wanted to be good that meant they had to practice. Soccer had its good parts too. "The hardest part about soccer is staying fit because I love to eat," junior Jacob O'Quinn said. The coach played a big role in the team's success. Coach Ron McCannon took charge and led his boys to victory.

Setting up for the attack Junior Miltiadis Stamatopoulos attempts to steal the ball from his opponent. "We had a tough season and we had to work hard to catch up, hopefully we'll have a better season next year," Junior Miltiadis said.

Returning the ball senior John Saunders blocks a goal from the opposing team. "We had a tough season but we never gave up," John said.

Looking for an open teammate, senior Morgan Mabry attempts to pass the ball. "We learned a lot of hard lessons that we hope to improve upon" Morgan said.

Moving to pass the ball, senior Alec Francis kicks the ball to another teammate. "I think we have a good chance to make playoffs this year. We have a lot of new, good talent coming in this season and I'm really excited about it," Senior Alec said.
