

# Would you get a tattoo or piercing?

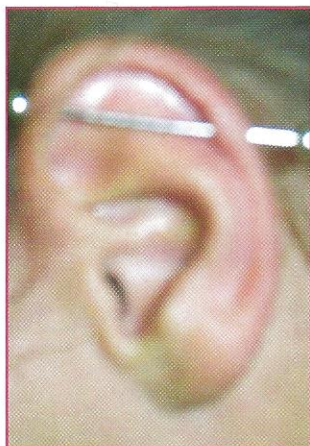

## Tat It Up! Pierce It Up!

### Tattoo/Piercing

#### Piercing & Tattoos

The ears used to be the most common place to get pierced, but in today's society many new places are being pierced such as the nose, lips, tongue, belly button, and eye brows. Some people consider piercings trashy while others think they are classy.

Whether they got them for sentimental reasons or strictly because they were cute, many people around the school have tattoos. Some people think that tattoos are not a good way to express yourself. Most people today just have them because everyone else has one.

1. Senior Morgan Houtz had his last name tattooed on his side. "I have always wanted it," Morgan said.

2. Senior Amanda Jenkins had her first tattoo put on her arm of her middle name. "Just to see how it feels," Amanda said.

3. Junior Terry Winn said she had her ear pierced "because she thought they looked cool," Terry said.

4. Sophomore Autumn Stokes had hers done because her parents passed away. "I wanted to know that they will always be right here with me," Autumn said.

5. Junior Jordan Shearous said she had her nose pierced "because not many people have one, and I want to be different," Jordan said.

6. Junior Drenna Stiefer said she had her lip done because, "I thought it is cool," Drenna said.
