Lets go girls!!!!

All the girls were allowed to play Powder Puff football. Many used that opportunity to get down and dirty. There was hair pulling, tackles, elbows in chins, and many other crazy things. By the way it was Flag football! Even though no one was playing that way by the end. That shows that girls can play football to. I understand why they started getting rough though. It is the only time in High School you could through a girl on the ground, pull her hair, or chop her in the throat with out getting in any trouble. Even with all that almost every girl who played will say it was alot of fun and they would enjoy doing it again. So the fact that they had fun is what counts.
