WHAMM!

"car crashes"

Driving down the road listening to your favorite tune, a quick glance towards the radio then WHAMM!! A sudden car wreck. Car wrecks are one of three major causes of death in the US. Most are accidents. Others are mainly due to the lack of paying attention, drunk driving, or just plain ignorance. There have been many deaths due to car wrecks in the last year. We asked our students at CCHS some questions concerning car wrecks, there were many different views and

opinions. Some leave you badly injured, some leave you traumatized, others result in cases of death. One fact remains the same - Car wrecks aren't any way to die!! When it's said and done some way everyone gets hurt.
