

Go Big Blue!

What is the best thing about band?

The Band of Blue started the year off great by winning first place in their first competition at Bamburg. Their theme was called the Celestial Suite: the Sun, the Star, the Moon.

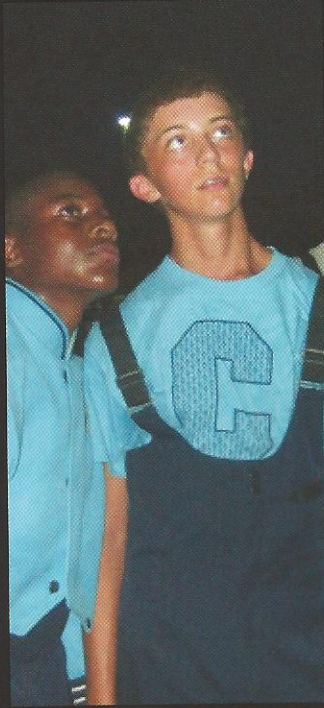

The band worked really hard over the summer from early in the morning to midafternoon practicing while their friends were out having fun. Their hard work really paid off when

it was time to play. Their great work made football games and competitions worth spending your time watching!

-Megan Long

Freshman Amber Richards stood and chatted with her friends while waiting for the football game to start. "It's hard work in the beginning but worth it when you have medals on your neck at State," Amber said.

Junior John Maoney stood and socialized with his friends after he preformed at the Homecoming Game friday. "I like to be in band because I love to play the drums," John said.

Sophomore Katelin Ritter walked happily as she held her flag at the Homecoming Game. "My favorite theme so far is Sun, Moon and Stars," Katie said.

Tanesha performed excitedly at the first home football game. "I think Band Camp helps because it really pays off in the end," junior Tanesha Rice said.
