

# Wrapped up *IN* Language

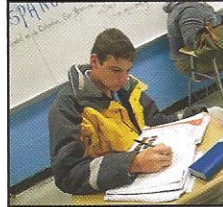

Coming in saying hello and going out saying adiós!

The 2010-2011 Spanish classes kicked off this year with a great start. All Spanish classes had many different activities going on throughout the year. One great activity included is a Spanish food day where students were able to sample things such as ants. The students that participated in eating the ants said that the ants tasted like chicken and were very crunchy. By the end of the semester, students taking this class will be able to have conversations with one another in Spanish. These students came in with the desire to speak Spanish, and the teachers are going all out to teach them how.
