

IN Black and White

From memories into keepsakes

The task of creating a high school newspaper is a daunting task, but each year CCHS has a few dedicated students willing to take on the challenge. "These girls work really hard to make sure that the school's newspaper meets its deadlines in a timely manner," says Mrs. Brown. "I'm very proud of these talented girls. They are like a big family and work together to reach the goals for Colleton County High," shares Mrs. Brown. The articles these ladies write are treasured by many students and can be memory keepsakes as we enter into the future.
