

# Painting *IN* Memories

There is no such thing as, "I can't."

When putting pen, pencil, charcoal, paint or pastel to paper, an artist creates something magical. The ability to create a work of art takes concentration and attention to detail as it is a form of suspense. CCHS offers opportunities many students to express themselves. As students learn about the history of art, they learn about famous artists and their most famous work. Mrs. Davis, Mrs. Langston, and Mrs. Waddell, the three art teachers at CCHS, do an excellent job teaching these students the art skills they need to become successful.

Megan Ballew

Anthony Singleton

Deandre Linder

Kimberly Broach, and Benjamin Hambleton take a close look at Buford McDowell's work. Peer review is a great way to get feedback.

Joshua Velazquez works hard to draw detailed knees and feet.
