

ingenious- [in-jeen-yuhs] -cleverly inventive or resourceful

Junior Sarah Tobin is typing a paper for her AP class during 3rd period. Sarah said, "I am taking an AP class for the challenge, and there is a big challenge with all the work."

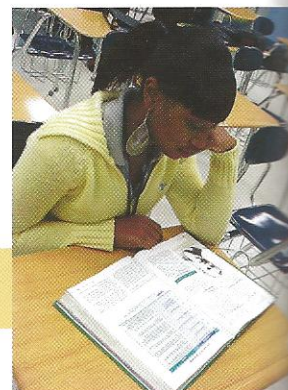

Senior Kelsey Thomas is reading a book for her AP class before her 2nd period. Kelsey said, "I really wanted to take AP classes to go ahead and get the credits, and so I won't have to pay for it in college."

Sophomore Jamie Hiott is studying for a quiz in her AP class at lunch. "I took AP classes because I had to. Even though it's really challenging I know it'll help me."

RIGHT Senior Jakan Richardson is reading on a topic from a lesson during class. Jakan said, "I took an AP class my junior year, and it was really challenging but I got my college credit."

LEFT Senior Diane Cook is working on a problem during her calculus class. Diane said, "Considering the other classes available, Ap seemed like the best choice and the most challenging."

AP Classes

As you began high school, you believed your classes could not be anymore difficult. The majority of juniors and seniors are taking AP, Advanced Placement, classes. AP classes are college level classes. Along with the difficulty of the course, you also get the college credit for the class. Here we have four AP classes to offer: AP European History, AP English, AP Biology, and AP Calculus. Some people said that they took the class so they didn't have to pay for it in college or to get the credit out the way. Do you think your ready to get your college credit?
