

agile- [aj-uhl]

-quick; well coordinated in movement

## Boys Soccer

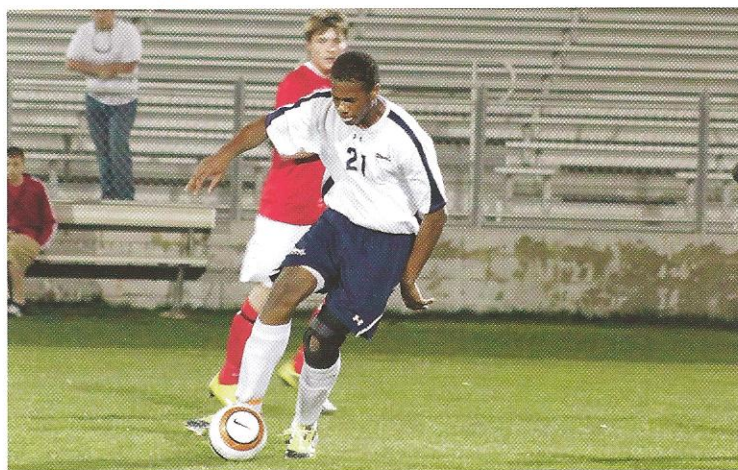

GOAL! The boys' soccer team practiced five days a week to get in shape and to be the best team that they could be. "We have ten seniors on the team this year; it's going to be really competitive," remarked senior Andrew Floresca. The boys' team spent many months preparing for their upcoming competition. They worked on skills helping with their speed, agility, and alertness. While the field players were working on their techniques, the goalies were training just as hard to be the best that they could be. As the boys' season progressed, so did their skills, as well as their ability to work together as a team!

Senior Lennoye "Ryan" Clegg is on the side lines supporting his team. "I think the guys are going to do better than last season. I'm hoping we'll make it to the playoffs my senior year!" Ryan exclaimed.

Junior Johnathan "Michael" Grooms is waiting for the ball to be played to him. Michael said "My favorite professional soccer player is David Beckham. He's really good, and I hope I can play like him one day!"

Above Junior Shaquille Walters is dribbling the ball up the field to go score a goal! "My favorite thing about soccer season is just playing the game and having fun. With the way we're playing this year, I really hope that we make it to the playoffs." Shaquille replied.
