Varsity Baseball

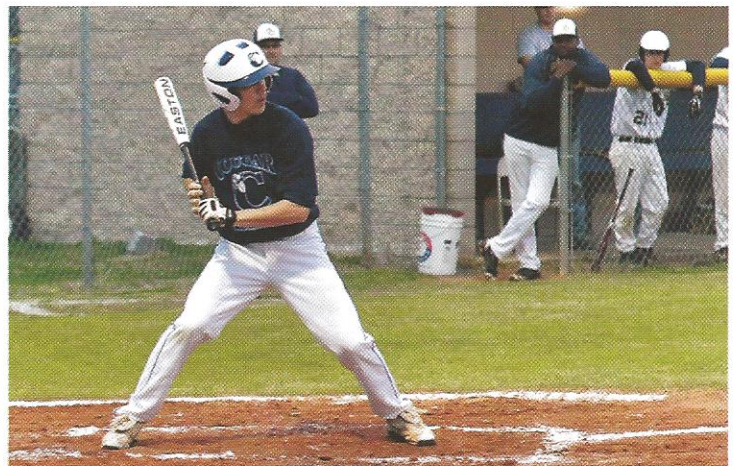

Hey batter, batter! Hey batter, batter, swing! The boys singled, doubled, and tripled their way through a competitive season! The boys began conditioning in January, and they were working hard to get in tip-top shape on the skills they needed work on. "I think we're going to have a lot better season. With six seniors, we have a lot better structure on the team because they have been with us longer. We have a pretty close-knit group. I hope with how close they are that it will translate into playing better together. Maybe it will lead to more wins and, in the long run, bigger and better things." As the boys practiced and played their best, the coaches coached their best to provoke their team to excel on the field.

Sophomore **Dustin Call** is getting ready for the batter to step up to the plate. Dustin said, "I think the team will do better this year than we have before. We're playing more as a team."

Senior **Donovan Campbell** is getting ready to "steal" a base. "My favorite thing about baseball season is actually being on the field and playing," Donovan explained.

Senior **Joshua Brown** is up at bat trying to make a homerun to tie the game. Joshua said, "The position I like to play most is second base, and I think I'm getting pretty good at it. I also think that the team is going to do really well because we have really good chemistry this season."
