Sophomore Matthew Germroth is about to provide an answer for the Knowledge Master. "I think Academic Team is a great opportunity for students to widen their knowledge."

academic team

The students of the academic team came together each Monday and Thursday to sample categories of knowledge. CCHS Academic Team with their fearless leader, Coach Smith. The team hoped to add more trophies to the already illustrious halls of championship bowls. The academic team brought together some of the brightest minds at CCHS to study various types of trivia to broaden their already extensive knowledge. The team members did their best to practice and gather more information whenever they could. Whether it be practicing outside of school, reading, paying extra attention, or watching specials, the team came together as a force to break down a wall only above-average intelligence could penetrate. "The Academic Team is young and inexperienced, but very talented. We see that there are good things ahead in the future," said Coach Smith.
