

"It was a good season; we all worked as a team." -Senior Tyler Williams

boys varsity basketball

Don't stop that Cougar Pride! Aye, don't stop that Cougar Pride! The varsity boys basketball team got to work as soon as the season started. With the new head coach, Coach Green, they practiced just as hard as they played. During the season, they had a few good wins against teams like Ashley Ridge, Allendale, and North Augusta, and a few tough loses to teams like Summerville.

The varsity boys never gave up, and they would always play hard until that final buzzer. Senior #4 David Monroe said, "as a team we constantly made adjustments, and through it all we stuck together, even though we didn't win as many games as we expected." The team always worked hard to try to complete their season with the best record possible, and although they were not state champs, the school has pride in their team.

1 Senior Charles Farmer #32 defends a player from Summerville. Charles added, "It was fun while it lasted. We were like a family, and we worked together to get a few wins in."

2 Sophomore Chris Teasdell #21 dribbles his way down the court to try to put some points on the board. Chris reflected on his season by saying, "We played well and had a good season. We'll be better next year!"
