

Homecoming

Homecoming can be defined as an annual event at colleges, universities, or high school for alumni to return to campus to celebrate their school. During these times, alumni come back to their alma mater and revisit their glory days. It is also a time for current students to truly embrace their school identity. Everything about homecoming screams nostalgia; from the homecoming queen and her court, to the announcement of winning class of the spirit stick and most importantly the football game! This year, the Cougars took on South Aiken. For the first time since 2007, the Cougars had a victorious Homecoming game with a score of 38-7.
