

JAG

JAG is a program offered to juniors and seniors who plan to move on after graduation to a post-secondary education, the military, or the workforce. JAG prepares each student for life after high school by attending college tours, career development conference events, and community service activities. The goal is for students to leave the program having received the necessary tools to become productive citizens through attaining basic skills, personal development, career development, leadership development, civic awareness, and philanthropy by way of effective community service.
