

TEACHER CADET

Through the instruction of Mrs. Lydia Culler, this class provides students with the opportunity to explore the various schools in our district and experience life inside the classroom at all grade levels. The cadets get to interact with students from the ages of 4-18 to help them see the key differences in education as children learn and grow. This is important for all people, whether they are considering becoming an educator or not, because everyone has a vested interest in our children and their education as they are our future. This class provides the cadets with first-hand classroom experience. Even if some of the students are not planning a career in education, this class benefits anyone who is interested in working with children in any fashion... pediatrics, social work, coaching/sports, etc.

"A GOOD TEACHER CAN INSPIRE HOPE, IGNITE THE IMAGINATION AND INSTILL A LOVE OF LEARNING."
