

Art

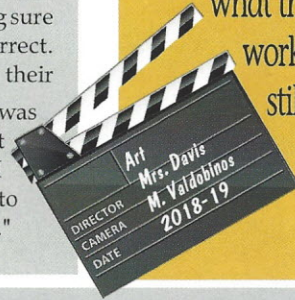

Art is a way to express yourself, be creative and show others your talent. At Colleton County High School there are a variety of classes that students can take to explore the depths of their abilities: the basic first year class, 3D art, and photography. The art department is led by Mrs. Sally Davis, Mrs. Langston, and Ms. Floudgate. They teach students how to show their talent by creating different projects so they can find out what they are good at. As a way to let them show what they can do, they are left alone to work on the projects, but they can still ask questions if they really need it.

CREATING CREATIVITY INTO REALITY

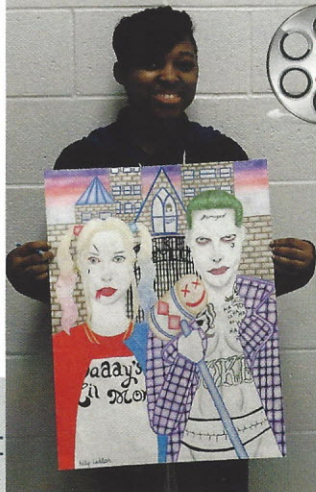

1 CREATING CLAY BUILDINGS

Mrs. Davis' 3D art and photography students working on their projects. The students first made a cardboard model of their building, making sure that all of the details are correct. They then started creating their buildings using clay. "The clay was stressful because I thought it would collapse, but it did not. I learned how to score and slip to make the pieces glue together."
-Addisyn Fee

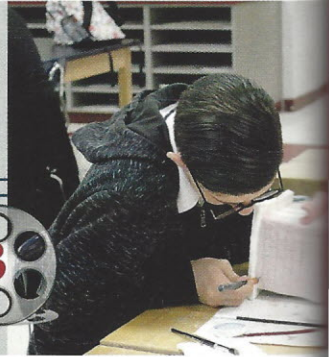

2 AMERICAN GOTHIC PAINTING

Senior Kelly Ladson drew Harley Quinn and Joker using similar styles and characteristics of the original painting by Grant Wood.

BUILDINGS MADE OF CLAY

Senior Joseph Litchfield is carefully scraping and painting his building recreated out of clay.

4 LOWCOUNTRY LANDSCAPES

Senior Jadakiss Brown (with Ms. Davis and Ms. McLaine) donated his masterpiece to be auctioned in support of Friends of Colleton County Animal Shelter.

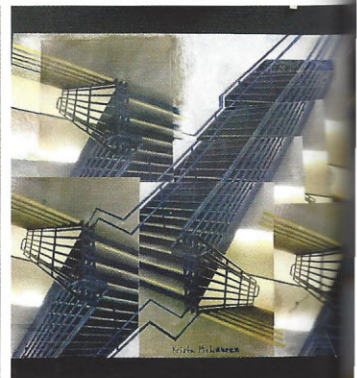

OPTICAL ILLUSION

Right: Senoir Shyann Webster took photos of a chair and then twisted and turned it for an illusion.

Far right: Senior Krista McLauren took photos of the stair well and turned it in different ways to create a never ending illusion.
