

Coach Perry Smalls said the girls had a successful season. Next year he knows they can win the region and head right back to playoffs if the players come back with a better mindset. The players will have more experience, know what to expect, and know that success won't come easily. Our Cougars made the most out of this season and played hard every game. The most important thing our seniors will take from their basketball experience is that no matter what shot they missed or what game they lost, they came together.

### HARDWORK HAS RESULTS

Junior Omari Kirkland (#3) says that basketball is more than just a game, it's her passion in life. "This season has been tough, but we will continue to push through it. Next year I am going to play my hardest. Basketball is a good way to get a scholarship to an awesome school. I want to continue my basketball journey by going to the WNBA."

### END OF A SEASON

Senior Kari' Edwards (#35) will be remembered by her team because of her dedication for the game they all love.

### READY TO PLAY

Junior Jade' Frazier (#23) has worked hard this season and hopes to work even harder her senior year.
