Travis Folk is very careful not to stick Richard Fischer as he pins on a red ribbon for the fight against drugs. Sloane Upchurch keeps an eye on Travis to make sure he is careful.

Lance Wilson is concentrating so hard that he doesn't realize his picture is being taken. What a surprise it will be for him to see himself in the BEST Talon ever!

These kids give a new meaning to the 'hand jive.' A combination of ear tugging, nose pinching, and lap slapping create a fun filled game that the Little Hawks won't soon forget.

“

I'm glad that a Science Club was started because it gives those who like science and making things a chance to do more than a classroom allows.

Dawn Burros

The Spanish Club always mixes fun with learning the Spanish culture. On Spanish holidays Shelby Trippe, Wanda Herndon and other members enjoy picnics in the school yard.

That's my hand, not a yearbook! Tina Patel and Amy Carter are both so anxious to finish writing names in the Talons that they hurry to grab the last book.

The newly founded Science Club is stepping up to the challenge of a cleaner and safer environment. The Science Club has adopted a two mile stretch of Academy Road.

Leading the Way

Leading the Way

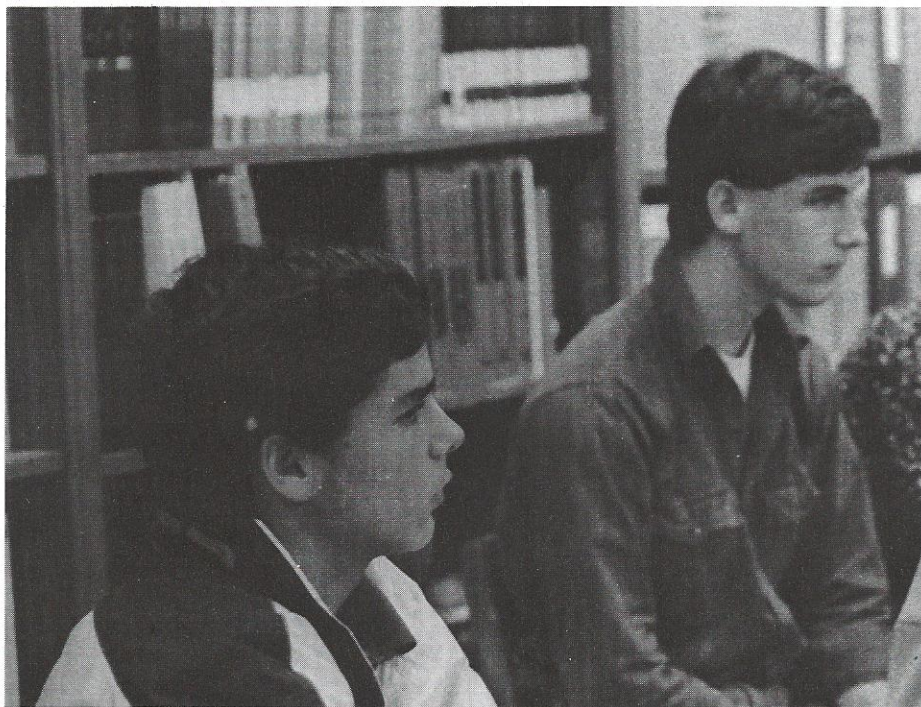

Student Council works together for improvement

Responding to students' ideas, the student government plays an important role at C.P.A. Offices include the president, who is traditionally a senior; vice-president and secretary-treasurer. These officers include Shelley White, President; junior Marnie Amerson, Vice-President; and sophomore Tina Patel, Secretary-Treasurer. Each class president and representative from grades 8-12, serve on the student too. "Being the youngest student council member is fun, but hard work," states Garner Regenovich.

This organization provides a link between students and teachers. The student council is a tool for voicing students' opinions and concerns. Our student government officers attend the annual South Carolina Independent School Student Government Association meeting in Myrtle

Beach for ideas on making our legislative body stronger and more receptive to the student's needs. C.P.A.'s student government participates in such projects as Secret Pal Week, Red Ribbon Week, and "fun fund-raisers" like the giant spirit chain. The spirit chain, a new fundraiser at our school, earned money for the student council and promoted school spirit. The class with the longest chain earned a pizza party.

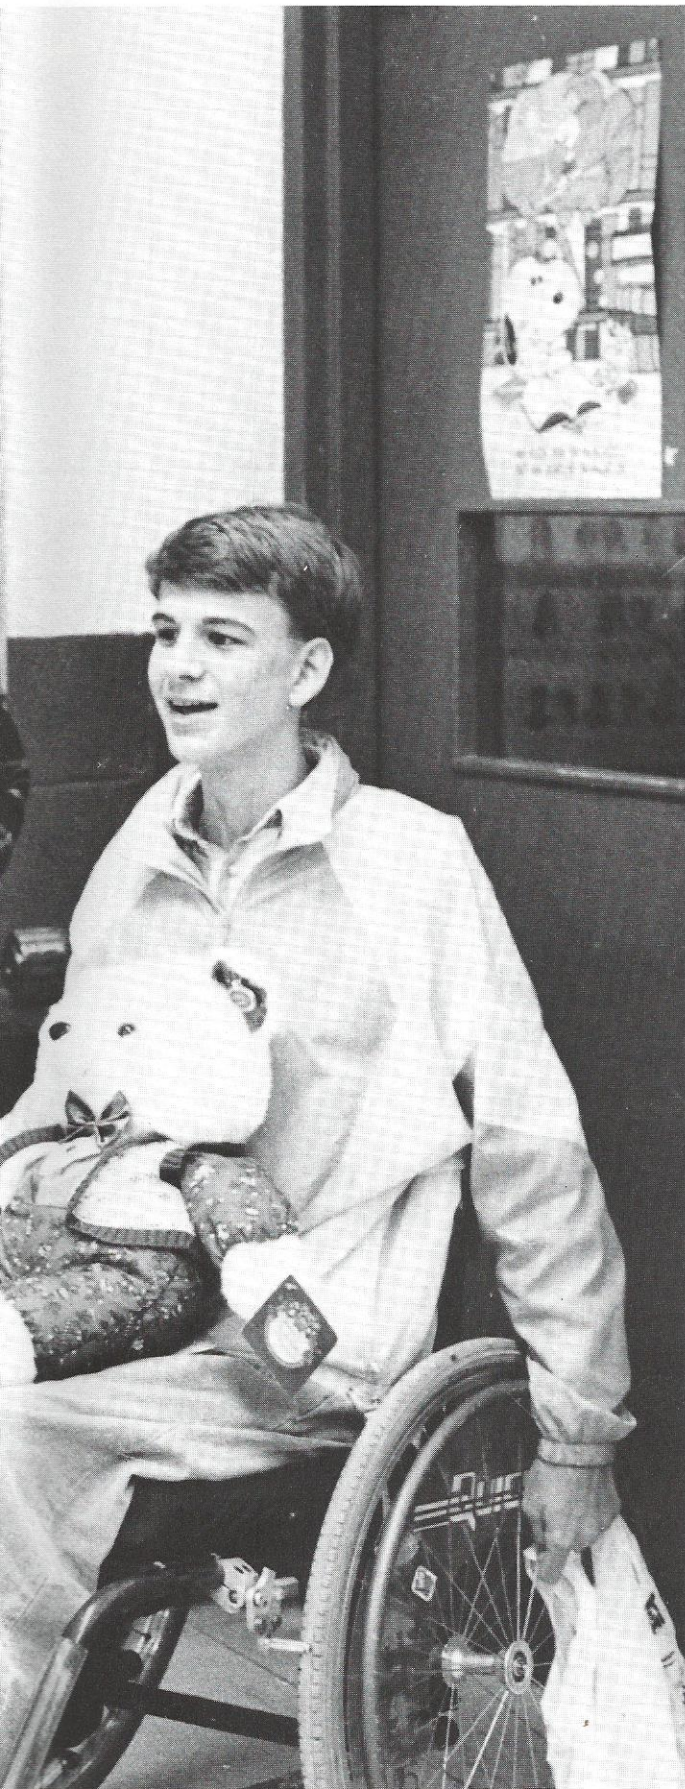

Again this year, C.P.A. participated in the student exchange program with Lowcountry Academy. The ones who visited Lowcountry Academy were Daniel Strikland, Marnie Amerson, Tina Patel, and the student council advisor, Mrs. Brightwell. Student council set up a new project for World Hunger. All students were asked to help by bringing canned food.

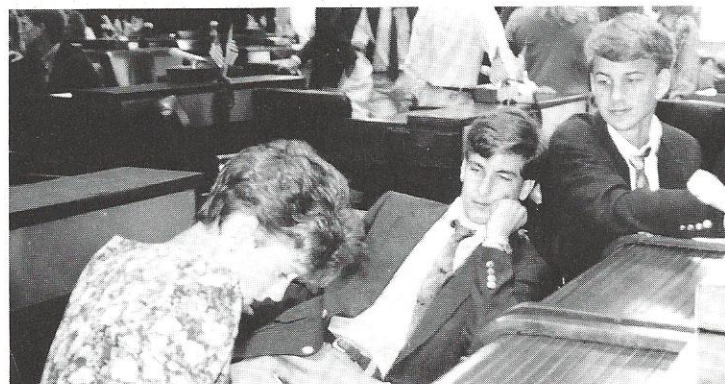

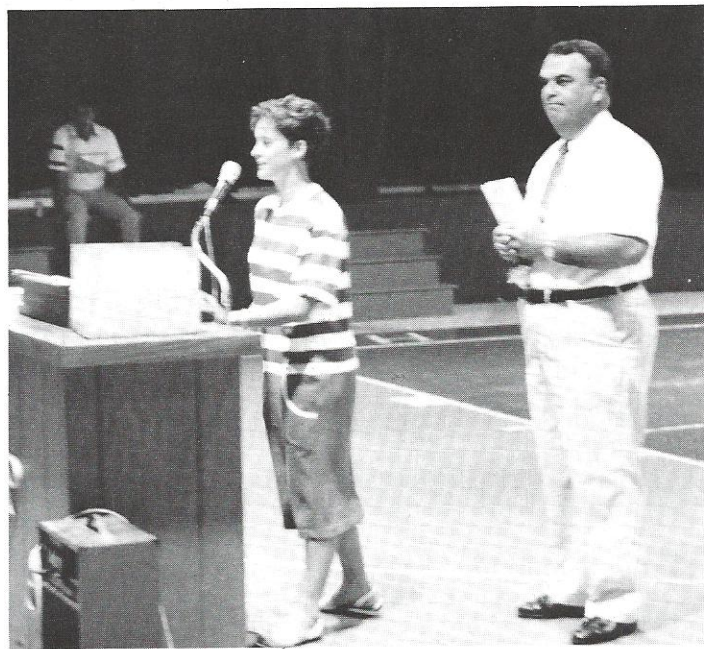

During lunch, student council members Perry Hunt and Travis Folk attend the student council meetings every week. They voice their opinions on money-raising projects and other fun-filled activities.

Sophomores Tina Patel and Walter Fralix entice students to buy raffle tickets for the Christmas bear. Student council members visit each classroom to sell tickets. This is a project the student council sponsors each year.

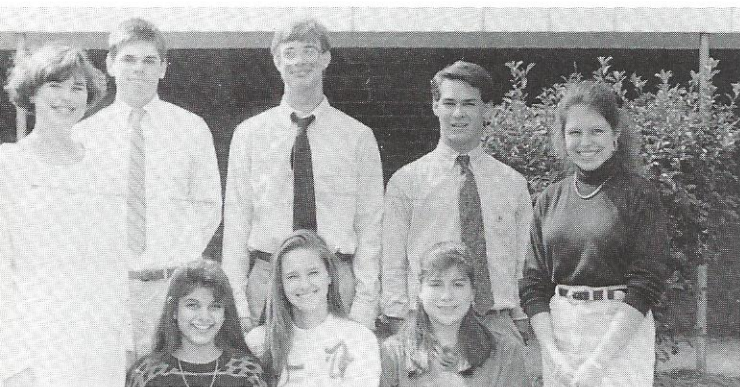

Tina Patel, Secretary-Treasurer; Shelley White, President; and Marnie Amerson, Vice-President are the student council officers for the 1991-1992 school year.

One of the responsibilities of Student Body President is the traditional "Welcome Back to School" speech during orientation.

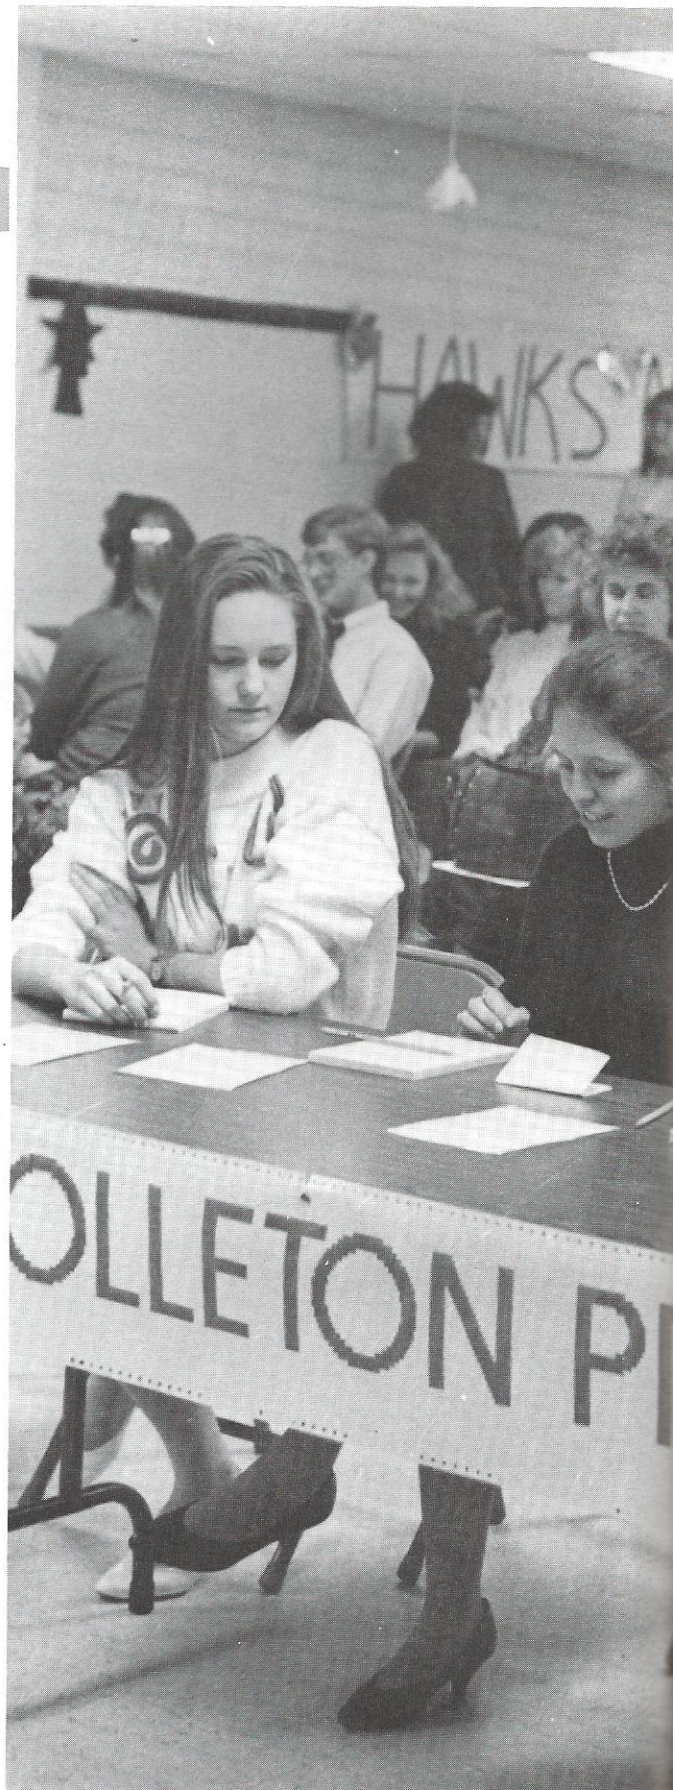

Shelley White jots down a few ideas for student council, with the help of Walter Fraix and Travis Folk. This was part of the Student Government trip to the State House.

After the induction, Headmaster Quarles congratulates the new members of the National Honor Society with a friendly handshake. These students must maintain a B average and provide student assistance whenever it is needed. Next year these students will have to renew their pledge.

After the candlelight ceremony, Holly Davenport, Ian Saunders, Dori Futch, Virginia Greenwell, Robbie Padgett, Mike Padgett, Kristy Godley, Tina Patel, Randee Ritter, and Anne Clamp will compete in the Academic Bowl held at C.P.A.

After the candlelight ceremony, Holly Davenport, Ian Saunders, Dori Futch, Virginia Greenwell, Robbie Padgett, Mike Padgett, Kristy Godley, Tina Patel, Randee Ritter, and Anne Clamp will compete in the Academic Bowl held at C.P.A.

Meeting the Challenge Meeting the Challenge

CPA students strive to sharpen their minds.

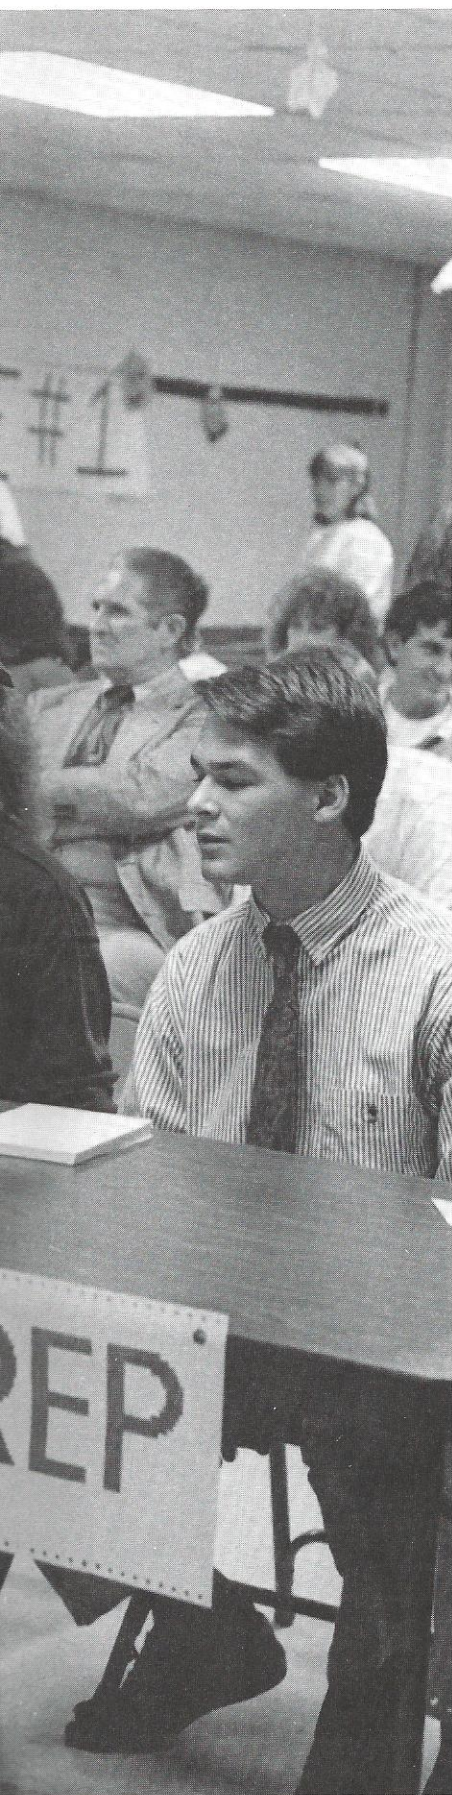

Leadership, character, and scholarship are qualities needed for membership into the National Honor Society.

Every spring juniors who participated in school activities and maintained a B average are accepted into the National Honor Society. The primary responsibility of this organization is to furnish student assistance whenever it is needed. "It was a privilege to be accepted into the National Honor Society. This accomplishment was something to be proud of," responded Archie Murdaugh. The new 1990-91 N.H.S. members are Dori Futch, Virginia Greenwell, Shelley White, Lee McConnell, Laurie Steele, Kristy Godley, Mike Padgett, Ian Saunders, Archie Murdaugh, Daniel Strickland, Kevin Dantzler, Robby Baggett, and Paige

Fletcher.

The 1990-91 Academic Bowl was hosted by Colleton Prep. this year. The Academic Bowl invited representatives from nearby independent high schools. This year's Colleton Prep. team consisted of Kristy Godley, Mike Padgett, Ian Saunders, Robbie Padgett, Randee Ritter, Anne Clamp, Dawn Burros, Holly Davenport, and Tina Patel.

These dedicated students met twice a week to review questions that may be asked in the Academic Bowl competition. Mr. Quarles prepared students for this event. Ian Saunders commented that, "Probably the most rewarding aspect of being a member of the Academic Bowl team is the competition involved — you also pick up a few interesting facts along the way."

In welcoming new members to the National Honor Society, the inductees are asked to stand during the candlelight ceremony. This honor is given to those students who have excelled in scholarship and leadership abilities.

Only top students are chosen to participate in the Academic Bowl. Randee Ritter, Kristy Godley, and Mike Padgett review their notes as they patiently wait for the competition to begin.

Learning Made Fun

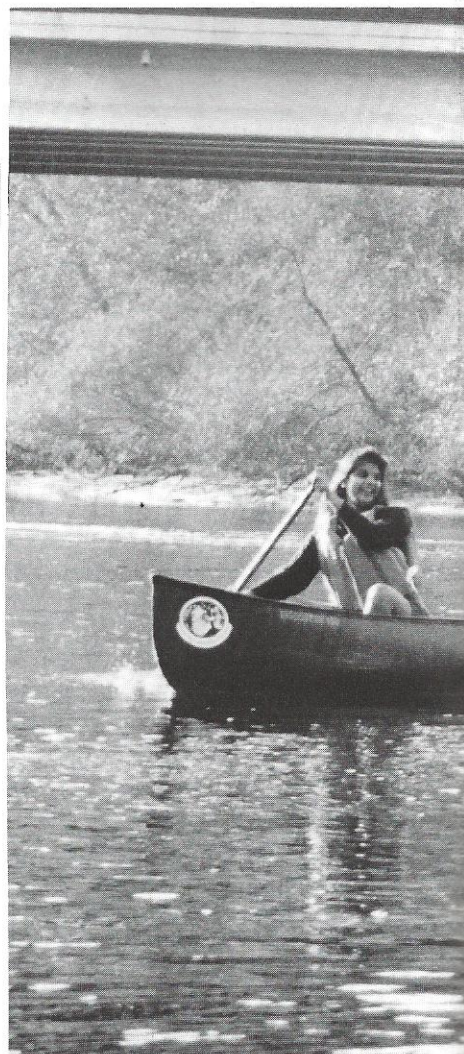

Science Club more than a commitment

The newest club organized at CPA was the Science Club, sponsored by Mrs. Hawes. Anyone in grades 9-12 could be a member and enjoy the many planned activities. This club was formed to generate enthusiasm among the students and to help them enjoy learning.

The club began the year by selecting officers for the 1991-92 school year. Cope Johnston was chosen as president, Tina Patel as vice-president, and Dawn Burros as secretary-treasurer. The club became an official part of the Adopt-a-Highway program and received Academy Road and Calhoun Loop as their clean-up area. On designated days, set by the SC Highway Department, the group met together and picked up the trash littering these roads.

The club went on a canoe trip, guided by Mike Davenport and Charlie Sweat, in October. They spent the weekend canoeing on the Edisto River near Canadys State Park, where they camped. They enjoyed cooking on the open fire, roasting marshmallows, and sleeping under the stars. "It was cool at night, but the weather turned out perfect," stated Cope Johnston.

This new club proved to be a great success. Everyone got together to make suet bird feeders to be sold at the PTO Christmas Bizarre. They also helped with the science fair in January. Everyone enjoyed the various activities that were planned. This was not just a commitment, but an exciting part of school life.

The club participates in the Adopt-a-Highway program by cleaning up the roads near Colleton Prep. These students spent Saturday morning helping with this community project.

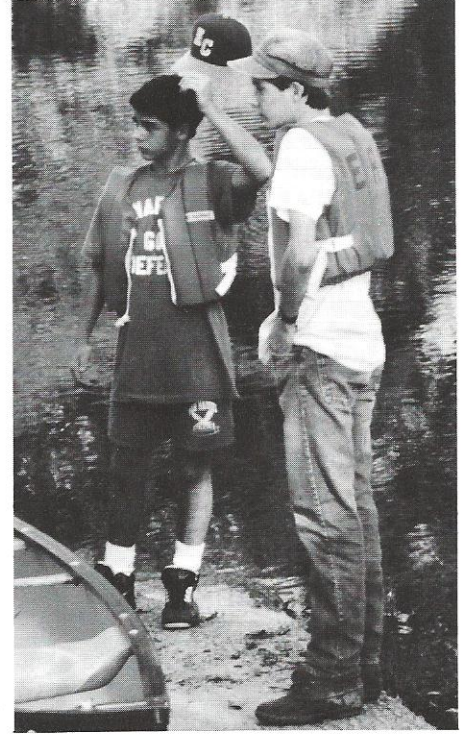

Cope Johnston and Dawn Burros make suet bird feeders to be sold at the PTO Christmas Bizarre. This was only one of the many projects sponsored by the new club.

Tina Patel, Cope Johnston, Paige Headden, and Holly Davenport enjoy the canoe trip on the Edisto River. The students learned a lot about the wildlife and natural resources in Colleton County.

Perry Hunt and Travis Folk get ready to begin a long day on the Edisto River, the world's longest blackwater river. The weather was a little cool in the morning, but otherwise perfect.

The Science Club officers for 1991-1992 are: Dawn Burros, Secretary-Treasurer; Cope Johnston, President; and Tina Patel, Vice-President.

President, Cope Johnston, attends an Adopt-a-Highway meeting at the South Carolina Highway Department. She was in charge of gathering information for the club.

Diverse Activities

Special organizations for special people

Special organizations for special interests include Teen Institute-Youth Advisory Board, and Spanish Club. Teen Institute and the Youth Advisory Board consists of students chosen for high standards of conduct and leadership. T.I. members Travis Folk, Tina Patel, and Amy Carter attended a special workshop at Coker College on teenage drug and alcohol abuse. Membership, to the Y.A.B., is limited by invitation only to students in grades 8-12. These students must maintain high standards of conduct and provide leadership within the student body. New members are seniors Virginia Greenwell, Rebecca Speaks, Dori Futch, Kristy Godley, Archie Murdaugh, and Mike Regenovich; juniors Randee Ritter, and Marnie Amerson; sophomores Tracy Tittle and Walter Fralix; fresh-

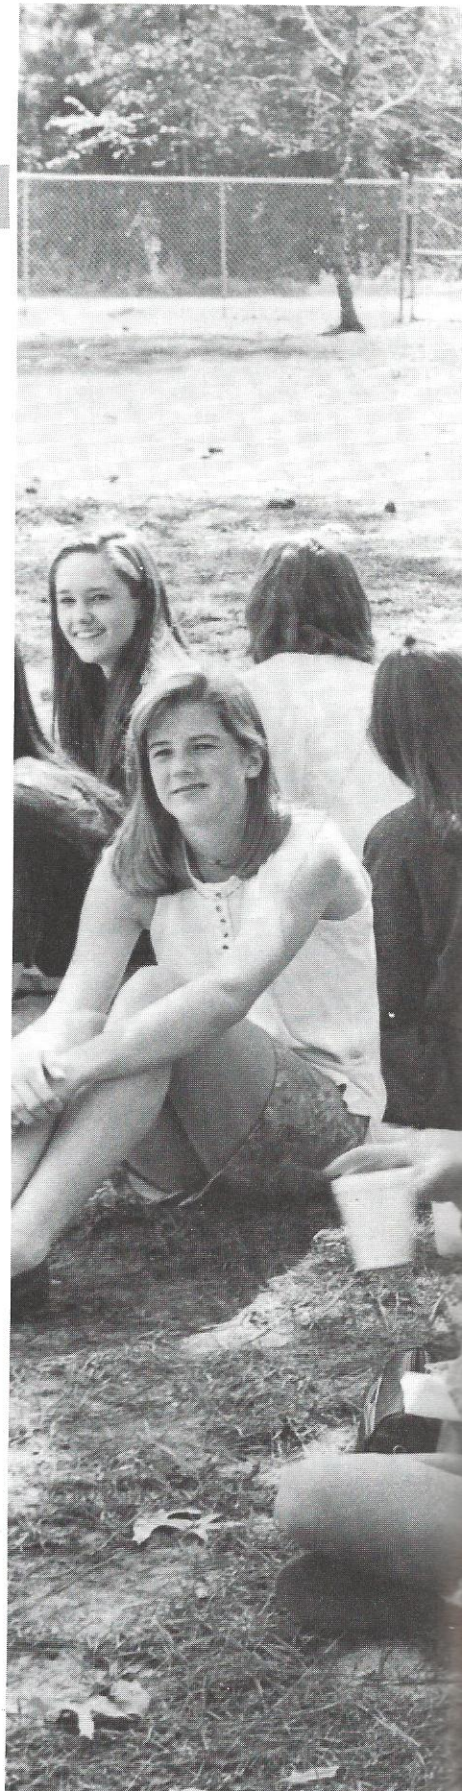

man Laurel Anne Oswald; eight graders Ginger Speaks, Kaci Nelson, Danielle Dantzer, and Lindsay Davenport. Appropriate holiday decorations were hung from the ceilings in every building. Posters about drug and alcohol abuse, posters promoting school spirit and pride enliven the halls.

On the other hand, the Spanish Club is open to any high school student. Like T.I. and Y.A.B., the Spanish Club celebrates holidays too; the only difference is that this club commemorates the Spanish traditions instead of the American traditions. Columbus Day, Day of the Dead, and Day of Three Kings are the most observed. Spanish Club members celebrate these holidays with picnics, parties, and caroling.

On January 13, 1992, the Y.A.B. sponsored a dance for the sixth, seventh, and eighth grades. Making sure everyone has a good time, Dori Futch and Archie Murdaugh encourage the others to dance.

Spanish Club members often ate lunch on the front lawn during their meeting. Carmon Valentine finishes eating while listening to Mrs. Folk make plans for the Day of the Dead celebration.

Spanish Club officers, Laurel Anne Oswald and Rebecca Speaks discuss plans for the Christmas party. Leaving presents in the shoes of classmates follows the Spanish tradition. Students enjoy giving and receiving gifts.

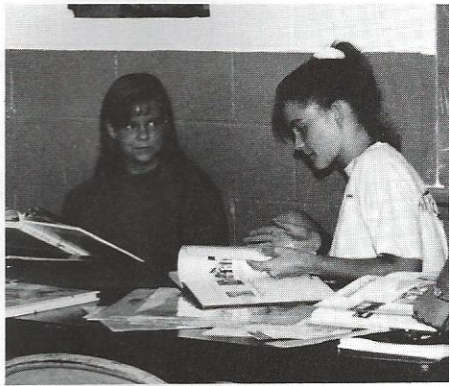

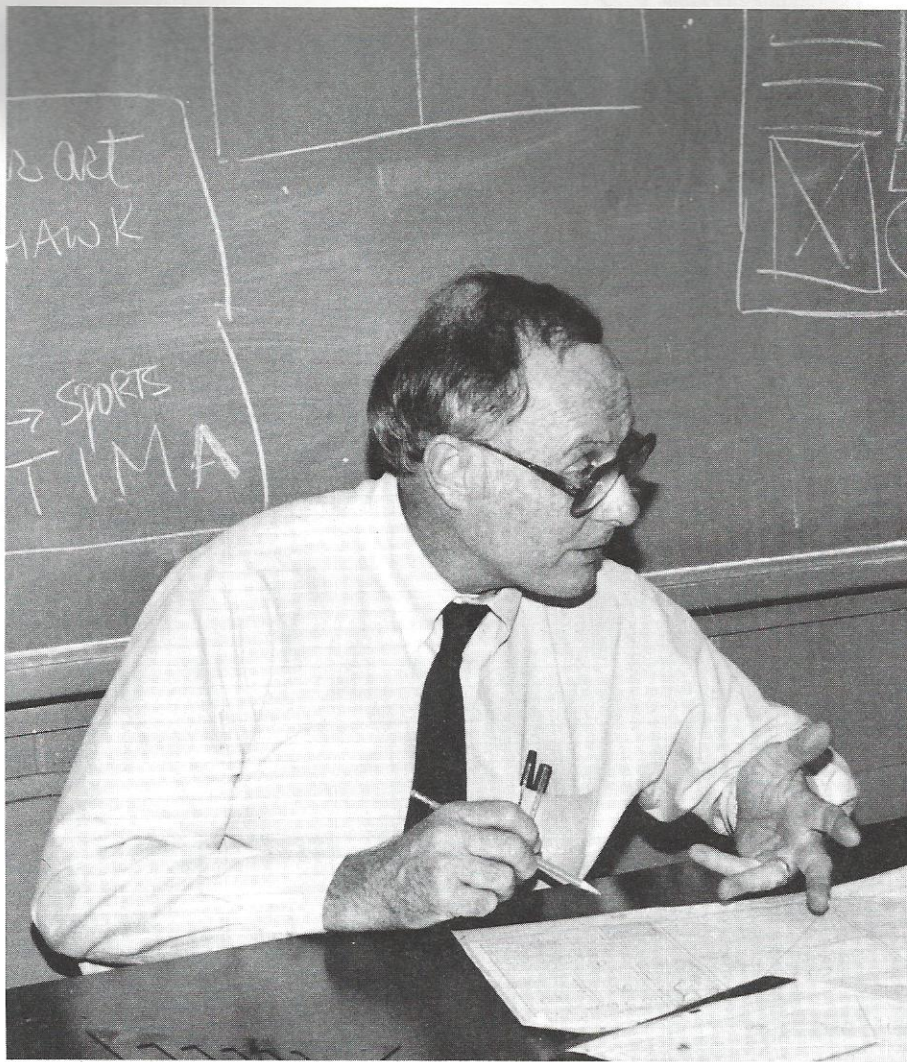

Wanda Herndon, Kemp Marks and Leigh Ann Bennett serenade the lower school students with Spanish carols. Carrying candles and wearing Santa hats adds to the festive mood.

Youth Advisory Board members, Amy Carter, Virginia Greenwell, and Tina Patel, visit the Colleton Regional Hospital to give drug-free t-shirts to all newborns.

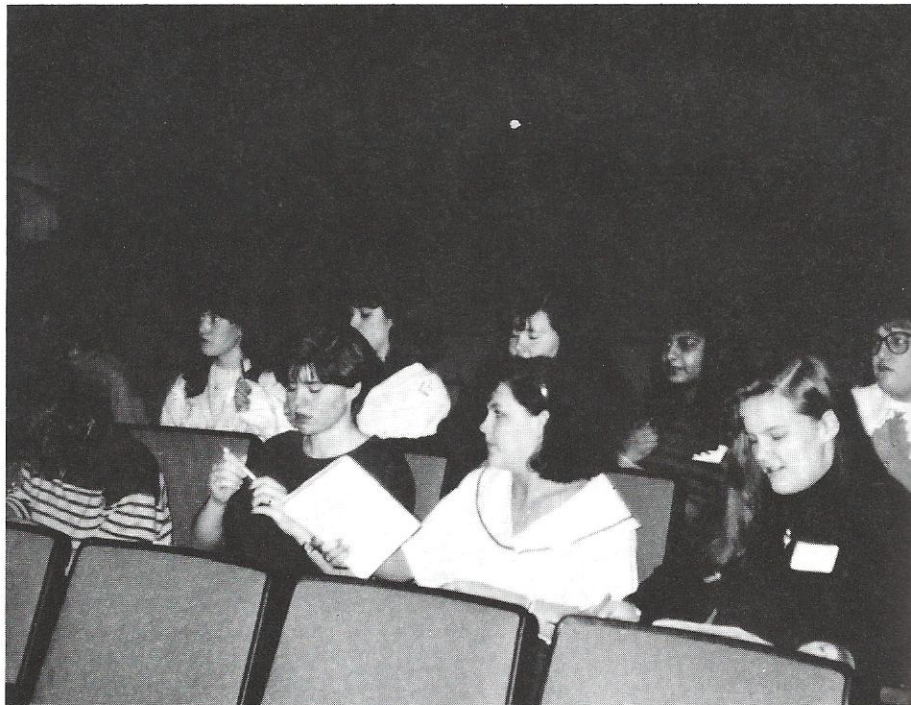

Juniors, Harper Kinsey and Marnie Amerson, finish deciding type styles for their section. Being the new Classes' editors takes a lot of time and adjustment, but these students handle the job well.

Josten's representative, Jack Young, explains his ideas for the section to editor, Paige Headden. Jack's skills, combined with his many years of experience, prove to be a great help to all editors.

New editors, Dawn Burros and Tracy Tittle, look through yearbooks from other high schools to get ideas for layouts, copy, and headlines. Dawn serves as the Sports' co-editor, and Tracy is a Patrons' editor.

These editors listen closely at a workshop, held at the College of Charleston, last spring. John Cutsinger gave editors great ideas on modern design, after being advisor of one of the best yearbooks in the nation.

In Bold Print *In Bold Print*

TALON staff is SIMPLY THE BEST

Unknown by most people, many long hours are put into creating a yearbook. Deadlines have a way of creeping up before you know it. The 1991-92 TALON staff handled their enormous tasks with skill and efficiency, without letting this disrupt their everyday lives.

Most of the TALON staff is involved with other extracurricular activities, not to mention their schoolwork. Juggling time and energy takes organization, which is essential to all editors. The experience of the TALON's sponsor, Mrs. Hawes, serves to be a great help in times of frustration. Additional questions are answered and skills perfected by the Josten's representative, Jack Young.

Long before the new school year begins, staff members are busy sell-

ing ads, getting ideas, and actually planning specific details for their sections. Editors stay busy drawing layouts, writing copy, and cropping pictures. Photographers can be found at school functions and in the dark room, processing and printing pictures.

Last spring, the staff went to the College of Charleston for a planning seminar, held by John Cutsinger. They gained helpful information on technique and modern design. In August, a four day camp was held at CPA for new editors to learn the necessary skills and to help refresh the returning editors' skills.

When the school year ends, and we go our separate ways, remember — this book of memories was created by a staff that was SIMPLY THE BEST!

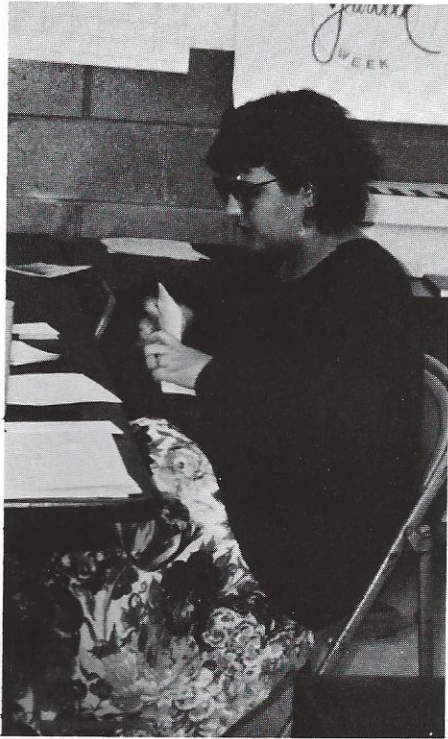

The TALON's editors balance their time between schoolwork and their dedication to our yearbook. This special group of girls puts much time and effort into making this yearbook the best it can be.

Head photographer, Shelley White, shows the new photographer, Kemp Marks, how to process and develop pictures in the dark room. Cope Johnston and Ashleigh Padgett are also photographers.

This group of sophomores, juniors, and seniors, make-up the 1991-1992 *War Hawk* newspaper staff. This group works as a team and get their job done. This year's *War Hawk* staff consists of over 35 members.

Virginia Greenwell, the business manager for the *War Hawk*, keeps her skills in typing and bookkeeping sharp by billing advertisers. She makes sure that members sell their ads.

Shelley White, features editor; Dori Futch, news editor, (front) Lee McConnell, sports assistant editor; Rebecca Speaks, sports editor; and Virginia Greenwell, business manager, (back) use their journalism class to work together.

Make sure the camera is focused! Pausing patiently for the events to begin on the *War Hawk* football field, Ashley Padgett, the newspaper photographer, hopes her photos will be good shots.

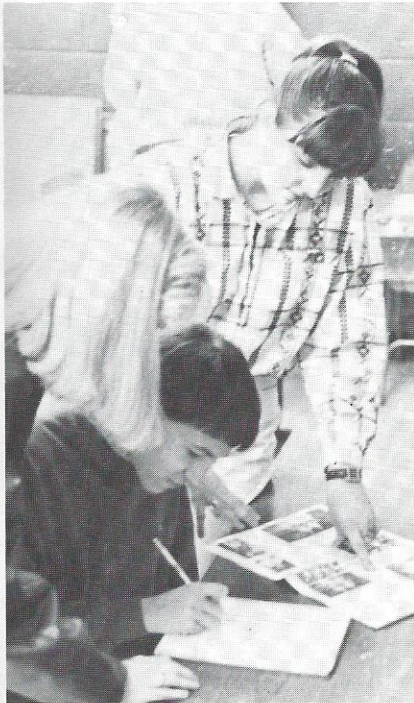

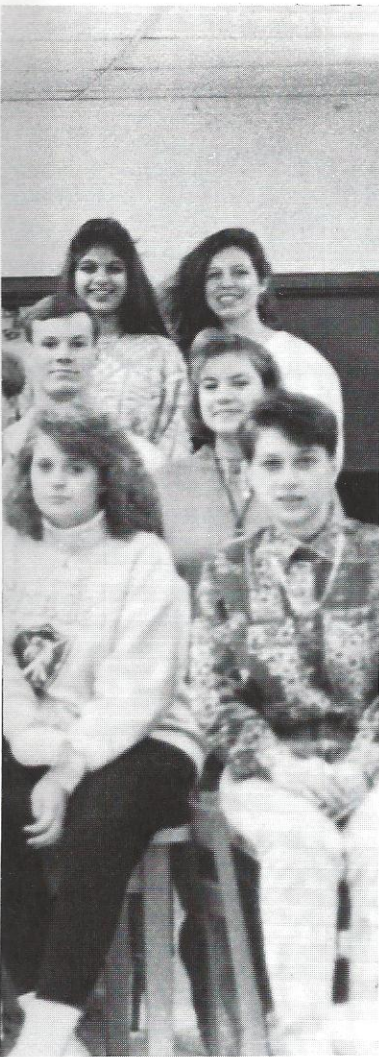

News-worthy News

C.P.A. news is simply the BEST to read

Under the guidance of Mrs. Deirdre Hawes, the 1991-1992 *War Hawk* was published at the end of the year. Composed of seniors, juniors, and sophomores, the staff worked hard selling ads and gathering information for the newspaper. The big issue closed the year with the seniors' last will and testament, a much revered tradition for all who read the newspaper. It's always fun to see what & who seniors leave behind. The *War Hawk* provided not only special memories, but also informed students about class and

club news. Each class, K-12, contributed news as well as clubs and organizations. Students who achieved recognition in school or outside of C.P.A. were featured.

Over 35 students worked on the *War Hawk* staff. Editors included Shelley White, Features, with Paige Headden as assistant; Rebecca Speaks, Sports, with Lee McConnell as assistant; Virginia Greenwell was the *War Hawk* business manager; Kristy Godley served as assistant; Dori Futch, news, with Holly Davenport as assistant.

Juniors Cope Johnston, Dawn Burros, Paige Headden, and Holly Davenport enjoy reading the newspaper during their spare time. The *War Hawk* interest students and lets them know what goes on in certain clubs.

Gathering ideas from previous issues of the *War Hawk*, Rebecca Speaks, Robby Baggett, and Jessica Street scan for useful ideas for the next issue. Working together on articles results in better coverage.

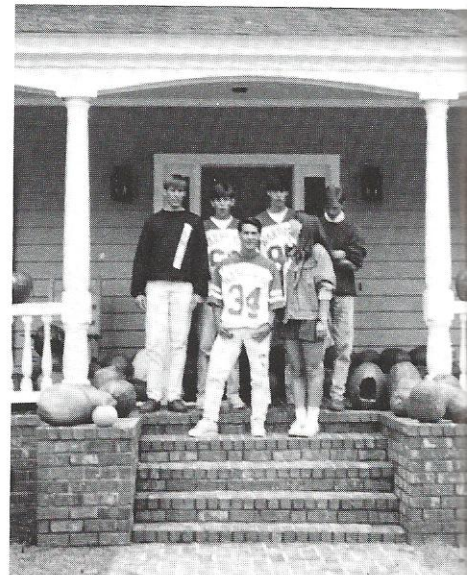

“

This was Mrs. Smoak's last year we had to make it her most memorable Halloween by outdoing every senior class before us. Thanks Forest Hills, Longleaf, Academy Acres, Hyde Park for your "donations." **Josh White**

World Peace! Tie died shirts, flowers, and bellbottoms were some of the clothes these CPA students wore for Hippy Day. This day is a new addition to Spirit Week.

Oh boy, PRESENTS! Owen Brittle can't wait to rip open the paper on his gift. Trae Beeson and Matt Webber eagerly watch while Michael Upchurch dreams of his next birthday.

STUDENT LIFE

Hopefully Mrs. Smoak likes pumpkin pies. A senior tradition on Halloween night is to place "donated" pumpkins on Mrs. Smoak's porch. Ninety pumpkins were found to grace her house.

Wesley "Buckwheat" Jones, Senior, and Buck Howell, Junior, share a quick twirl on the dance floor. Students almost "go crazy" from the excitement of the night.

Three sophomores were chosen by the Junior class to serve as ushers at the Jr.-Sr. prom. These students were Craig White, Jesse Walker, and Lance Dennis.

Junior, Archie Murdaugh, and his date, Susan Drawdy, listen quietly as the photographer tells them exactly how to stand for their prom pictures.

Prom guests dance the night away to the magnificent music provided by Charleston Mobile Music. The decorations added to the effect to make this a truly special night.

Junior, Lee McConnell, and her date, Brian Hefner, enjoy a dance together at the prom. This event gives sweethearts a chance to dress up and share a night different from the usual.

Prom helped everyone leave yesterday behind and look to the future

r.-Sr. 1991

The 1991 Junior-Senior prom "left yesterday behind" and turned everyone's thoughts to the future. The Juniors' hard work made April 19, 1991, a magical night that will never be forgotten.

The gym was filled with silver streamers, balloons, moons, and stars that created an atmosphere never before captured in such a common, familiar place. As the students entered this dream world, they stared in awe at the enormous rocket standing in the center of the dance floor. The Juniors decided to have Charleston Mobile Music serve as the entertainment.

Even through all the labor, the Juniors really en-

joyed the time they spent decorating. Facing the upcoming deadline, they learned to stick together and work as a team through thick and thin. Laurie Steele said, "We had so much fun! I'd love to do it all over again!" It was easy to see the dedication these students had and the benefits were enjoyed by everyone.

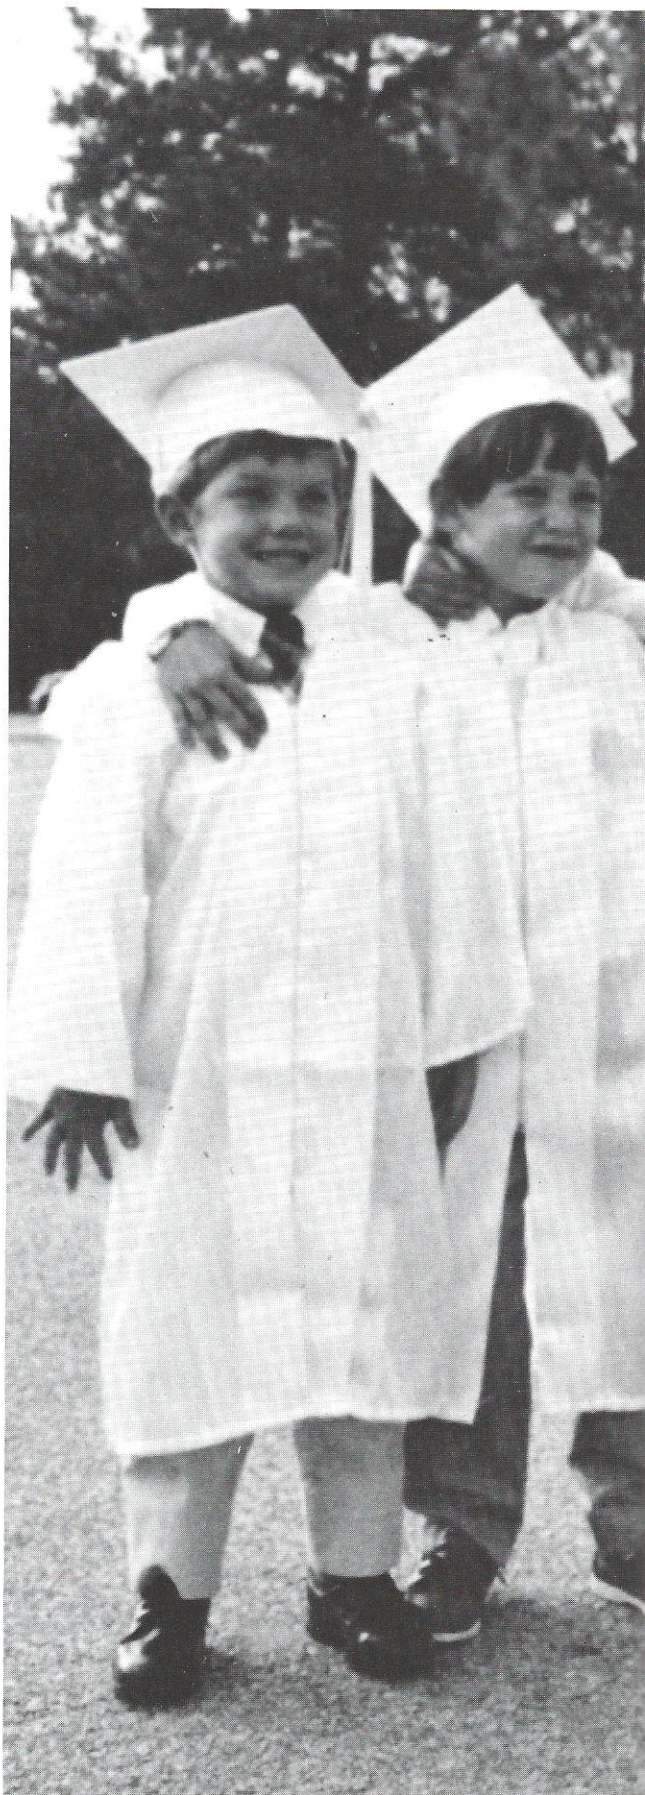

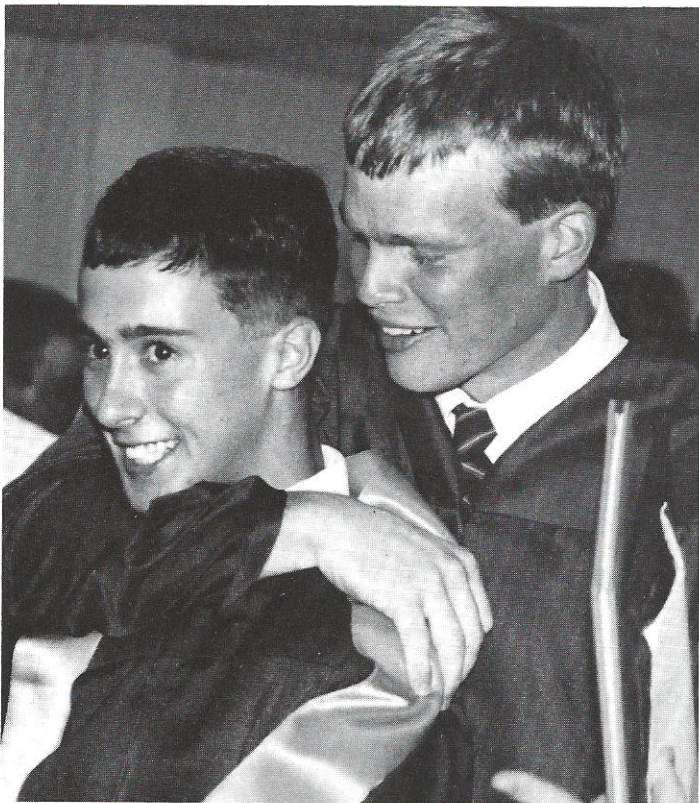

The Juniors attributed this great success to Mrs. Peggy Smoak, Junior Class sponsor. Mrs. Smoak gave freely of her time to help the Juniors with fundraising, decorating, and even dancing! This was Mrs. Smoak's last year to serve as Junior sponsor, and she will be sadly missed.

The Junior class takes a break during the prom to pose for a class picture. These students grew very close during the preparation for this special night. Along with their sponsor, Mrs. Peggy Smoak, they began seeing each other as one big family. They are each a part of wonderful memories that will be treasured forever.

The graduation marshals are: Wes Adams, Randee Ritter, and Holly Davenport, 10th grade; Dori Futch and Laurie Steele, 11th grade; Tina Patel and Amy Carter, 9th grade. These students are chosen to escort the graduates during the commencement exercises. They receive this honor by holding the highest averages in their grade.

Kindergarten graduates, Hal Tate, Wesley Henderson, and Michael Upchurch are all smiles after they receive their diplomas. These students greatly matured through the year and are very proud of their accomplishments. The graduates are excited to be promoted to the first grade and to continue their years at CPA.

Proud graduates, Shane Walker and Asher Howell, share a hug as the two best friends end their high school years together. The Class of 1991 grew very close through the years and they all find it very difficult to leave on another to go their separate ways. All in all, their time spent at CPA was SIMPLY THE BEST!!!

Graduates have mixed emotions as they move on in life

G raduation

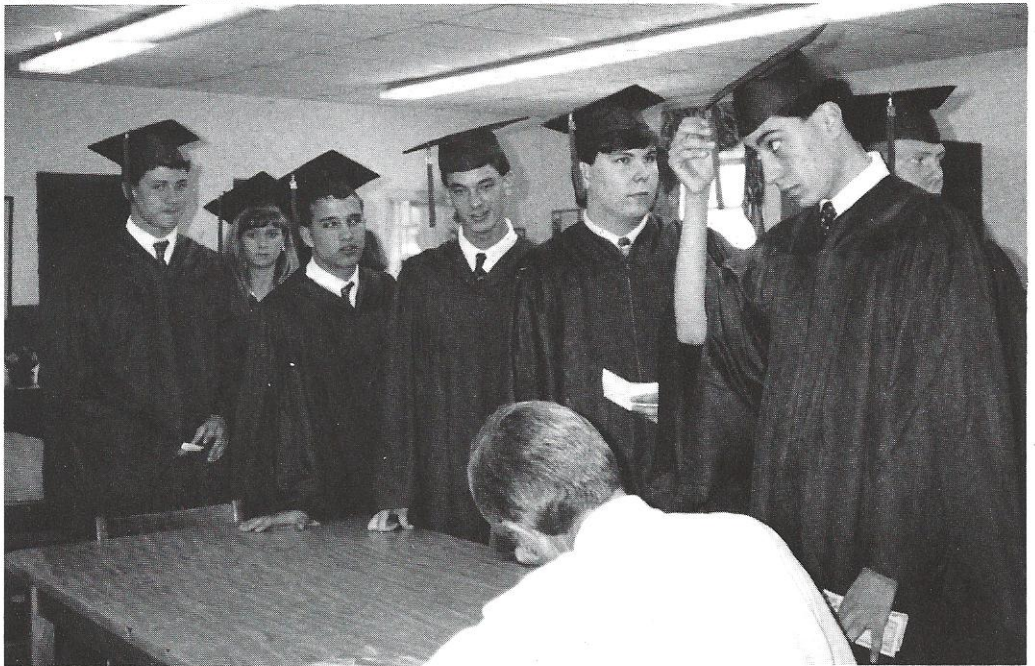

Graduation was a very emotional time in the lives of the CPA students, their friends, and families. Tears and smiles filled the gym as the group proudly marched down the aisle. These groups were even more special because they were the first graduates of Colleton Preparatory Academy.

On May 21, 1991, the 18 kindergarten students anxiously entered the gym with memories of the past year and dreams of their futures. The families of these students beamed with love and support as they watched the children grow a little more mature with this great accomplishment.

The Seniors' big night finally arrived, after much

anticipation, on May 31, 1991. They had been counting down the days until graduation, when the events of the past thirteen years would flash before their eyes and be replaced with the hopes they held for the future.

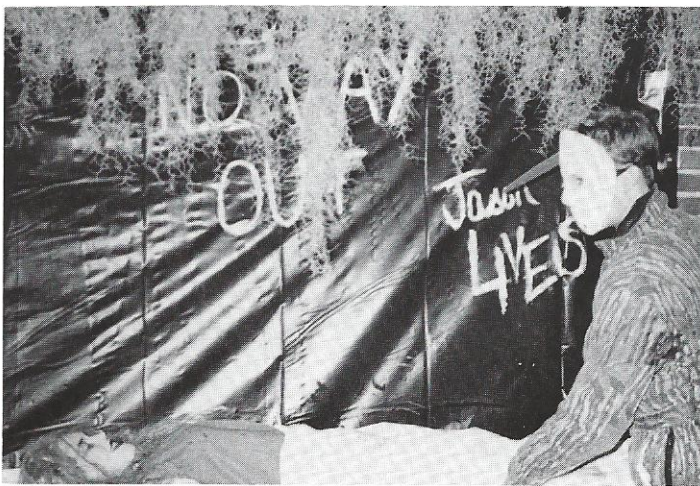

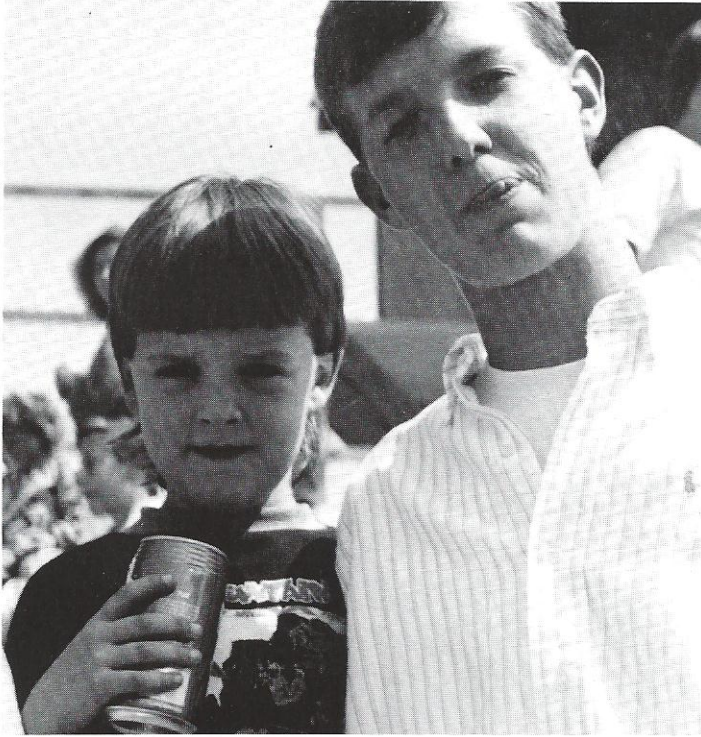

Speakers for the evening included Mr. Van Hipp, Tim Godwin who spoke to the class as Salutatorian, and Allison Goehring gave the Valedictorian address. Shane Walker, Senior Class President, presented the 1991-1992 Student Body President, Shelley White, with the class gift. The relieved graduates finally moved their tassels to the left and slowly walked away from the school for the last time.

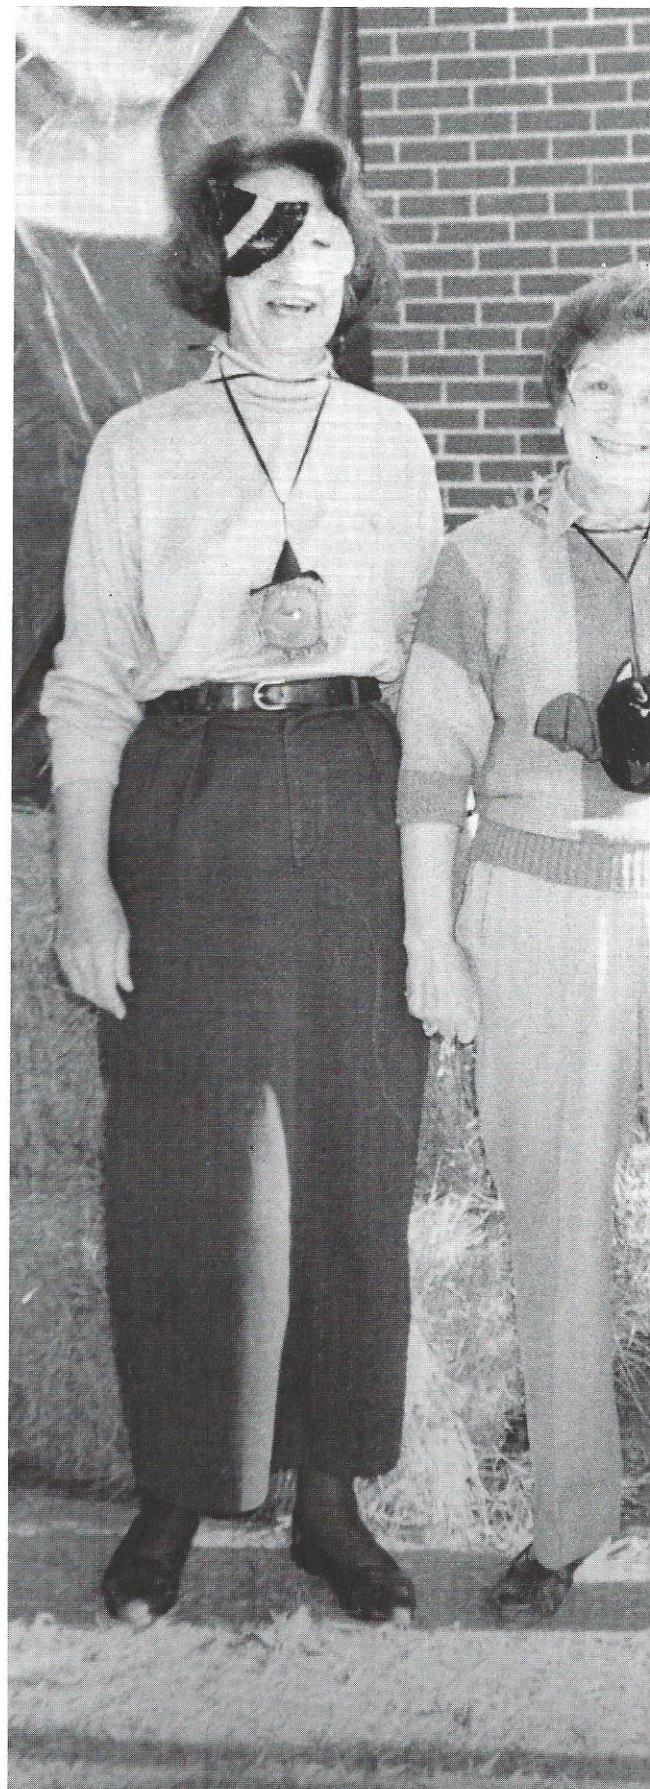

Senior graduates, Stacey Padgett, Michelle Jones, Kenneth Greenwell, Toby Silber, Kevin Smoak, and Chris Brand, anxiously await the big moment when they finally move their tassels. Although they will dearly miss the close friends they have made through the years, they have much to look forward to in the years to come.

Two senior sponsors, Mrs. Smoak and Mrs. Linder, allowed seniors time from class to build the Kiddy Maze, a new attraction at the Halloween Carnival this year. The seniors also took charge of performing as Ninja Turtles, clowns selling balloons, and preparing food at the concession stand.

Peanut butter and jelly sandwiches, along with cheese sandwiches were the hit of the day at the Buddy Day picnic which ended Secret Pal Week. Junior, Jesse Walker, spends time eating lunch with first grader, Michael Upchurch. After lunch, they enjoyed cheering at the Pep Rally, showing their school spirit.

Jason lives! Beware! All ye who enter here, abandon hope. Juniors used these threats in decorating the Haunted House for the Halloween Carnival. This year the Haunted House was located near the lower school building walkway. Juniors earned money from selling tickets to the Haunted House to partly fund the Junior-Senior Prom.

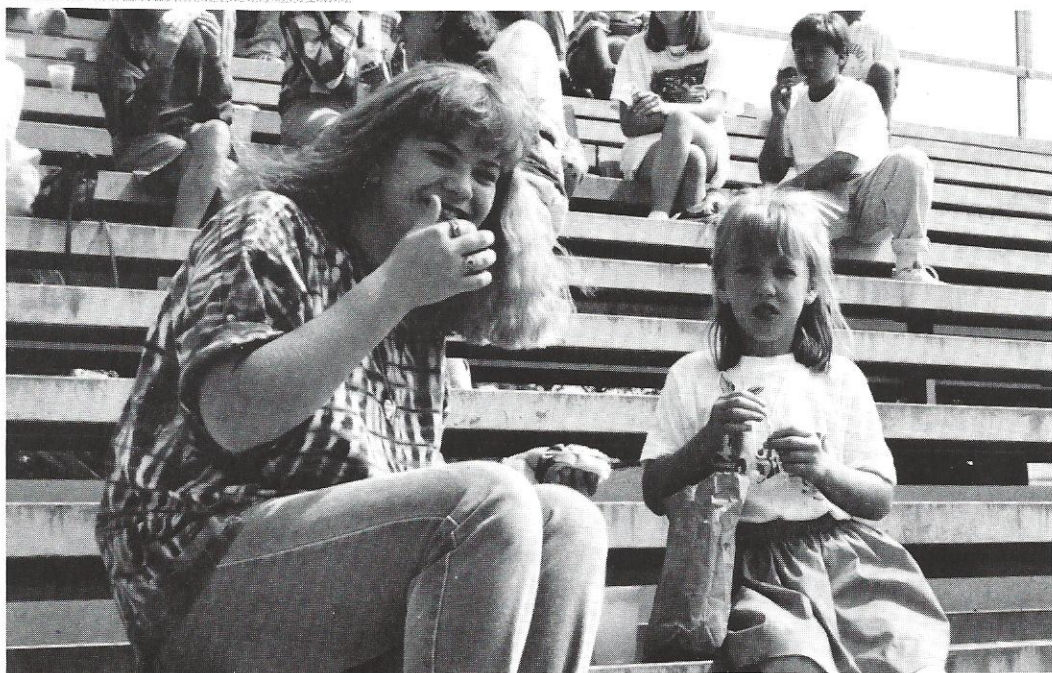

Secret Pal Day and Halloween are two exciting events that students enjoy.

Fun Filled Days

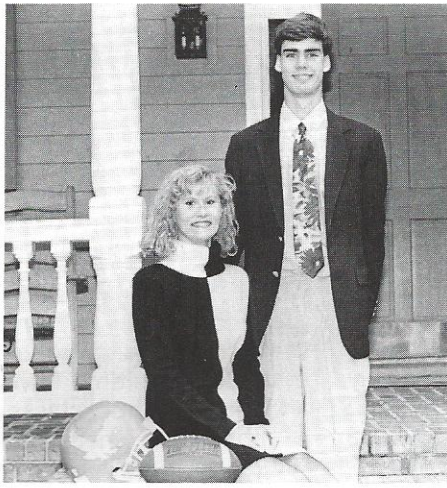

Secret Pal Day proves to be exciting for lower school students who are eager to meet their older "BIG" pal! Secret Pal day is the culmination of week-long activities to make the younger students feel more a part of our school. During the week the older students bring a piece of candy or a small surprise to their lower school pal. On Friday the two share a picnic lunch at Hawk Stadium and become officially introduced. Every student at C.P.A. participates in the Secret Pal activities which are sponsored by the Student Council.

On October 31st another special day is celebrat-

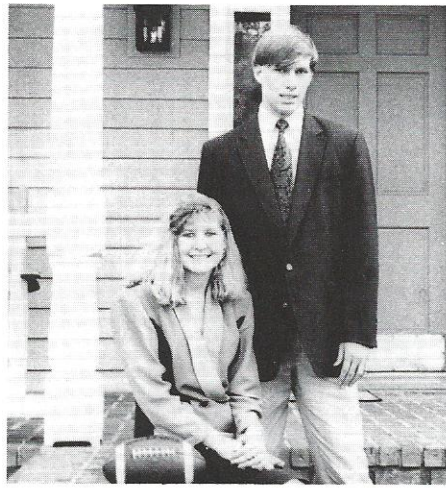

ed at C.P.A. — HALLOWEEN! Seniors dress for the occasion by wearing their costumes to school that day. Visiting lower and middle school classes to show off their costumes, seniors are met with rowdy yells and enthusiastic greetings. Halloween is an eventful day for the Juniors, too, as they create the "scariest Haunted House" ever for the Halloween Carnival. The Carnival is a fundraiser sponsored by the Parent-Teacher Organization. Activities such as these make many "fun-filled days" to remember.

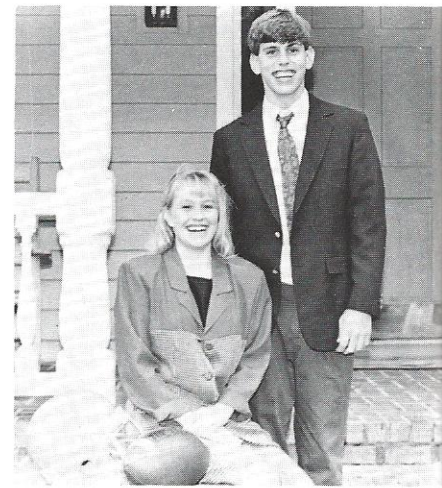

Sitting on the War Hawk Stadium, sophomore Tiffanie Lee shares lunch with her secret pal Mary Beth Bolt who is a second grader. "I really liked being with her and she gave me a heart necklace that is pretty. Secret Pal Day is a lot of fun," stated Mary Beth. Both girls enjoy becoming better acquainted.

Sponsors, voting for queen, and the dance make Homecoming special

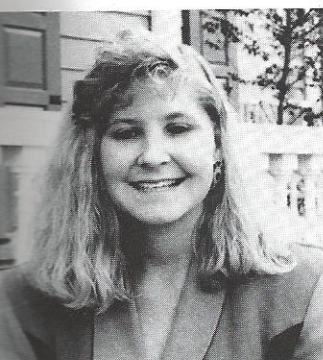

Homecoming

Lee McConnell was chosen by her class as a candidate for Homecoming Queen. Her parents are Tuck and Earle McConnell.

Kristie Smith, was crowned the 1991 Queen.

Laurie Steele, daughter of John and Barbara Steele, was chosen by her classmates as a Homecoming Queen candidate.

Homecoming 1992 was a special time in the lives of all CPA students, families, and graduates. Homecoming serves as an opportunity for everyone to focus on the school that was once theirs. Memories of their alma mater will stay with them forever.

Before the big game, the nine senior football players and managers were escorted onto the field by their sponsors. During the half-time festivities, the three Homecoming Queen candidates were driven across the field, where 10 former Homecoming Queens joined them. Candidates,

Laurie Steele, Lee McConnell, and Kristie Smith, anxiously awaited the announcement of the one voted Queen by her peers. Reigning Queen, Michelle Jones, crowned Kristie and presented her with roses as the crowd cheered.

After the victorious game against Country Day, congratulations were given to the players and coaches, the students in grades 8-12 headed to the gym for the big dance.

The Junior class put on the dance, where everyone danced and had a great time.

Along with being candidates for the Homecoming Queen, these three girls play an important part in each other's lives. Lee, Kristie, and Laurie are all Varsity Cheerleaders. Their friendship has grown through the years, and this will definitely be added to the long list of memories.

During Spirit and Red Ribbon Week, students "earn by doing."

Special Weeks

The C.P.A. halls seem to be decorated all the time, thanks to the Youth Advisory Board members and the cheerleaders. During the week of Homecoming, halls were adorned with blue and white graffiti. Posters informing the students about the weeks' events were hung. Two weeks later, C.P.A. adopted a new color — RED! Red posters, streamers, and ribbons filled the blue and white halls with a splash of color. The color "red" signified free from drugs. Several organizations worked on projects for

Red Ribbon Week. These encouraged students to say "No to drugs and yes to life." The Student Council gave out red ribbons to wear, dressed the fences with red streamers, and tied red ribbons on every antennae in the students' parking lot. The Youth Advisory Board decked the halls with red streamers, tied red ribbons around doorknobs in each building and displayed red posters with mottos coordinated with each teacher's subject. Students were encouraged to dress in red showing school spirit and unity.

During Spirit Week these juniors Paige Headden, Holly Davenport, Cope Johnston, Mandy Jones, Dawn Burros, Harper Kinsey, Randee Ritter, Anne Clamp, and Craig White dressed in 1960's fashions to observe "Hippie Day." Flowers, peace signs, tie-dyed clothes, and bandanas were common sights. "Peace."

Students weren't the only people to take part in Spirit Week. On "Country Redneck Day," Headmaster Ray Quarles with kindergarten teachers Belle Moorehead and Gail Howell flaunted their countrified attire during the day. Mrs. Moorehead's pet cow, Mrs. Howell's camouflage, and Mr. Quarles's tacky tie brought laughter.

During Red Ribbon Week, Tina Patel and other members of the Youth Advisory Board (YAB), presented a package of newborn-size T-shirts to Kay Summerford, RN, at the nursery at Colleton Regional Hospital. The T-shirts are printed with red ribbons and a motto "Have a drug-free life." Before the YAB left the hospital, the nurses allowed them to see some of the newborns.

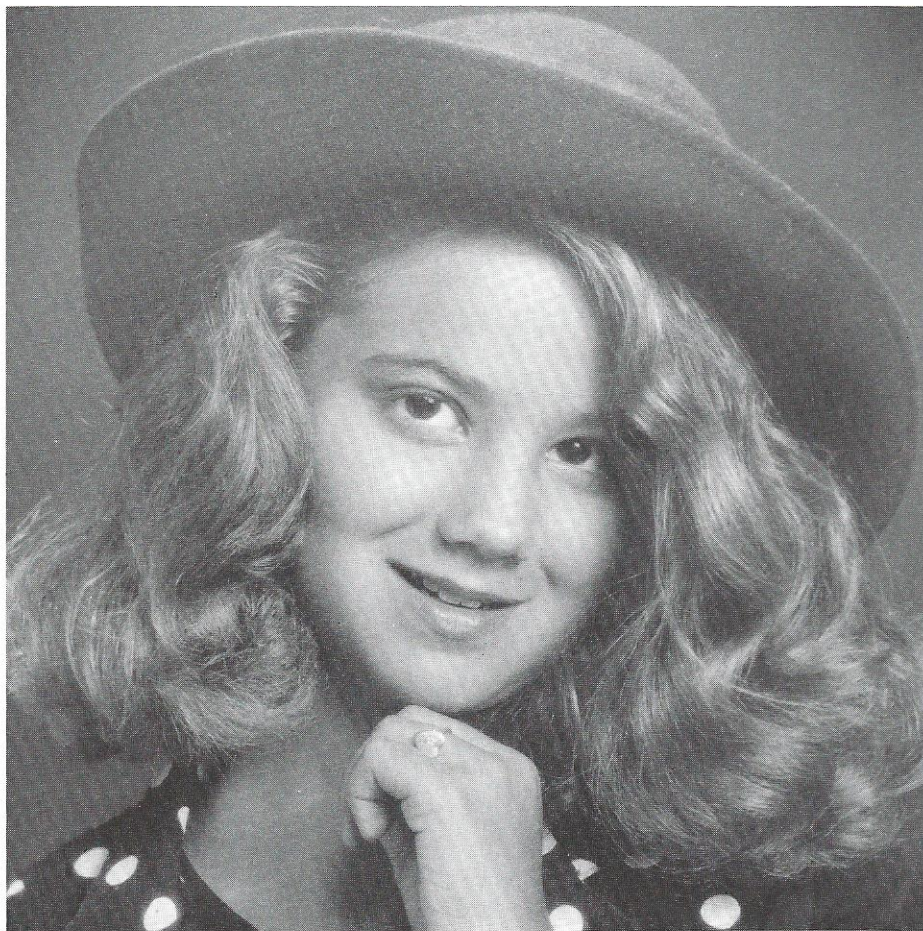

Fifth graders sign their names in the handprints to promote drug and alcohol free youths. This poster, suggested by the Youth Advisory Board, was one of several advertisements at C.P.A. in observance of Red Ribbon Week. The "Hands Off of Drugs and Alcohol" poster makes a strong statement to young students who eagerly sign up!

One in a Million One in a Million

Special people show excellence through leadership

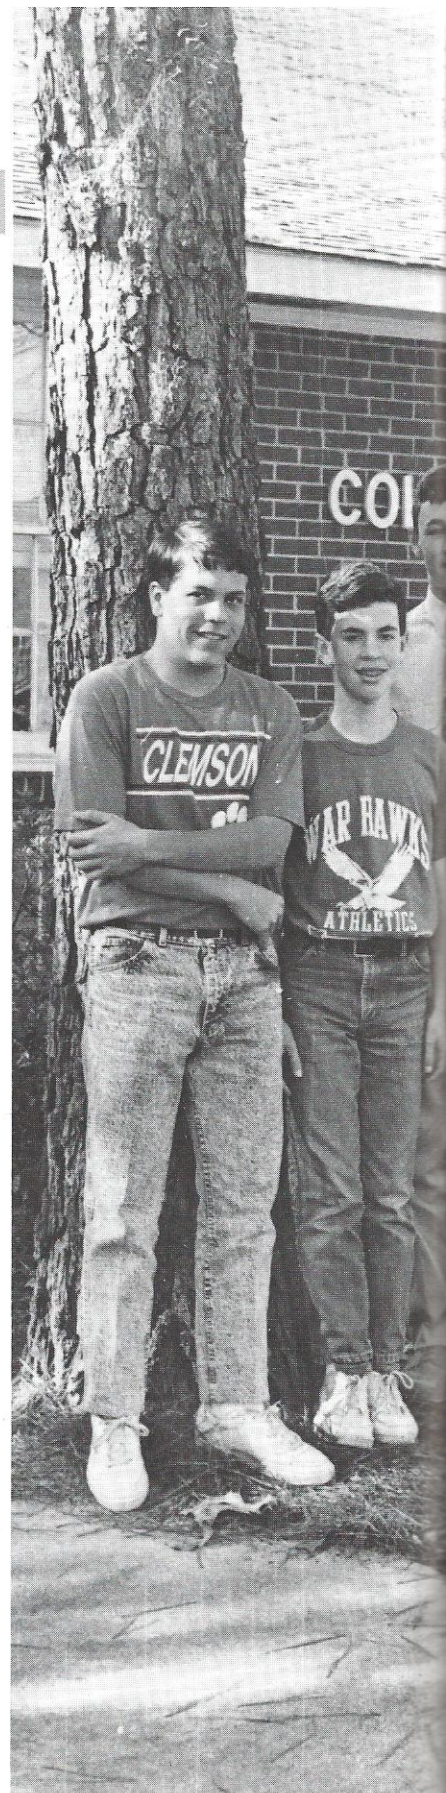

There are so many talented students at C.P.A. that the motto "One in a Million" does not come close! C.P.A.'s special people are not only leaders at school, but in the community as well. Since they do volunteer work as candy strippers in the hospital and in their churches. Qualities which make these well-rounded students special include academic excellence, involvement in extra curricular activities, and leadership. Because of these qualities, students are invited to attend Wofford Col-

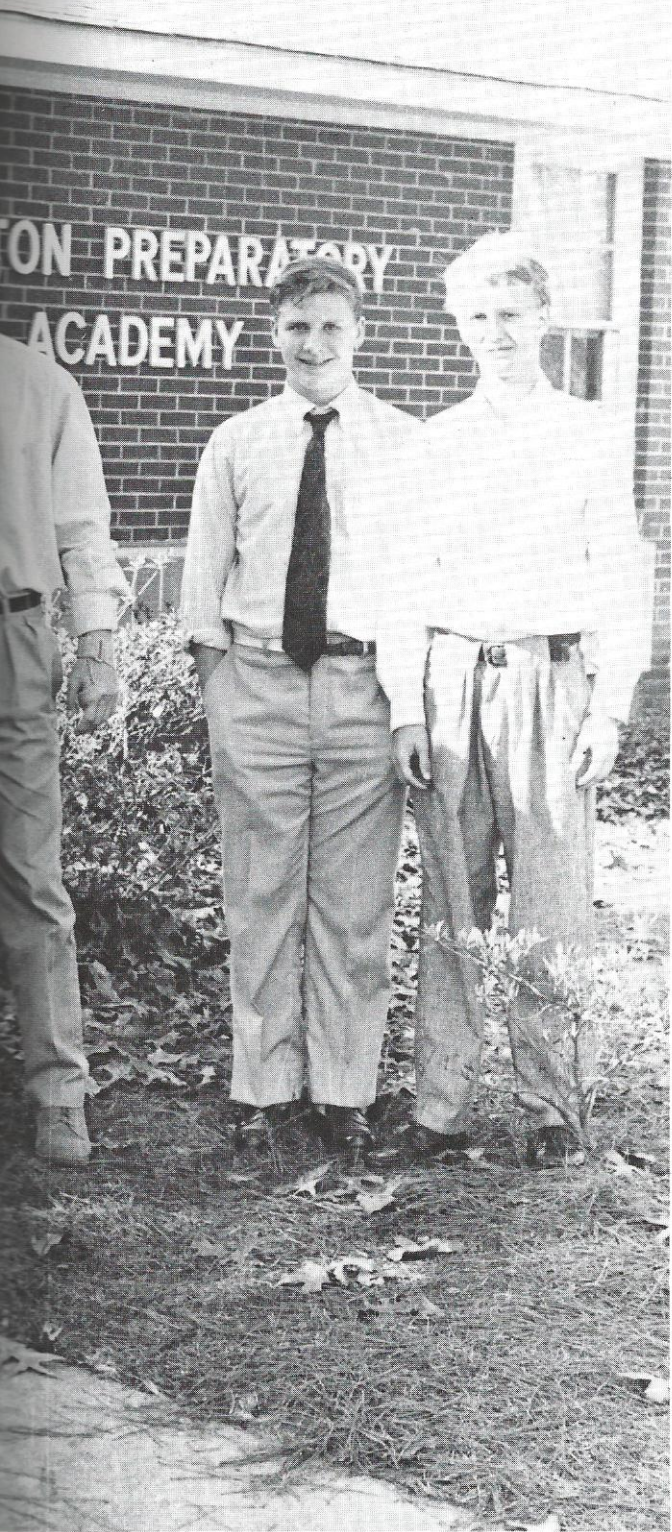

lege's Talented and Gifted Summer Camp, Presbyterian College's SCN, and are the recipients of such awards as the Hugh O'Brien Youth Leadership Award and Miss Daughter of the American Revolution (Miss DAR). C.P.A.'s talented people combine beauty and brains by earning beauty pageant titles as Miss Young Woman of the Year and Little Miss Walterboro. All will agree that these Colleton Prep students make a difference, and that they are very special.

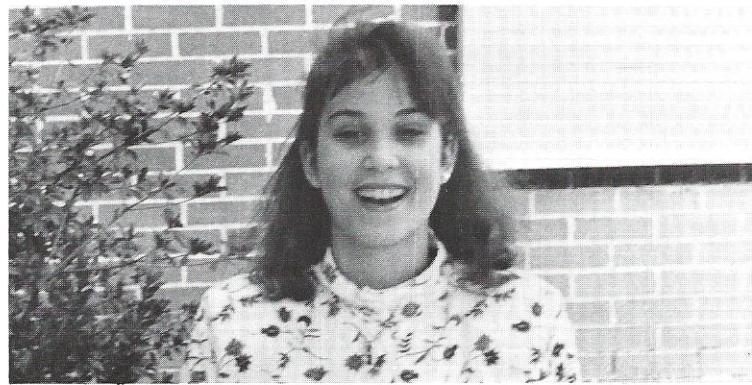

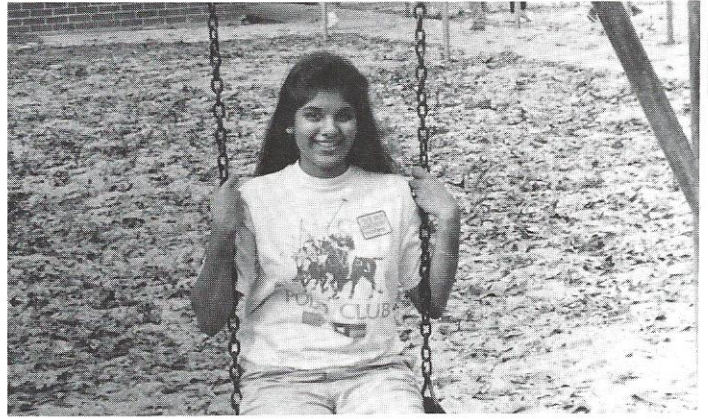

Amanda Morrissey, who is a fourth grader, holds the title Beautiful Young Miss South Carolina at the state pageant in Columbia. She will be representing Walterboro and S.C. in the National Miss Beautiful U.S.A. Pageant.

Jon Baggett, Michael Stone, Wes Pye, Ashley Woodard, and Patrick Ritter attended this years Wofford Summer Program for the Gifted and Talented. Students must meet strict criteria to participate in Wofford's program.

Chosen for her leadership ability, sophomore Tina Patel represented Colleton Prep. at Charleston Southern University as a participant in the Hugh O'Brien Youth Leadership Conference. Tina demonstrates her leadership by serving as Sec.-Treas. of student council.

Patriotism and community service are traits of a candidate for Miss DAR. Shelley White displays these qualities in her service to the community and school.

Dori Futch was chosen to write the weekly column for the Press and Standard. This duty requires responsibility and a flair for writing.

“

My class is special because we are the only class who had to carry our books to every class the first two days of school.

Laura Kinard

7th grade is different because we aren't the smallest anymore.

Christy Fargnoli

At pep rallies, before football games, all the different classes bond together to show SPIRIT. Each CPA class helps to build Simply the BEST student body.

Easter egg hunting is always a highlight in the spring for the kindergartners. Although Mrs. Howell has not said "go" yet, some just can't wait to go hunt for goodies.

MEMORIES: Governor's School '91, 211B ANWATGOOL, Rocky & Rick, "Bolships", MRSRST & TBERSLJHM, Jr-Sr '91, Haunted House, Jodie W. Ivey T, the Dixie Crew, CRAPASKET, "Blue moon", 6-21-91, 6-11-91

"A picture is worth a thousand words." Virginia Greenwell, Detra Stanfill and Dori Futch create their own memory for posterity. Through this picture, they will always remember the good times.

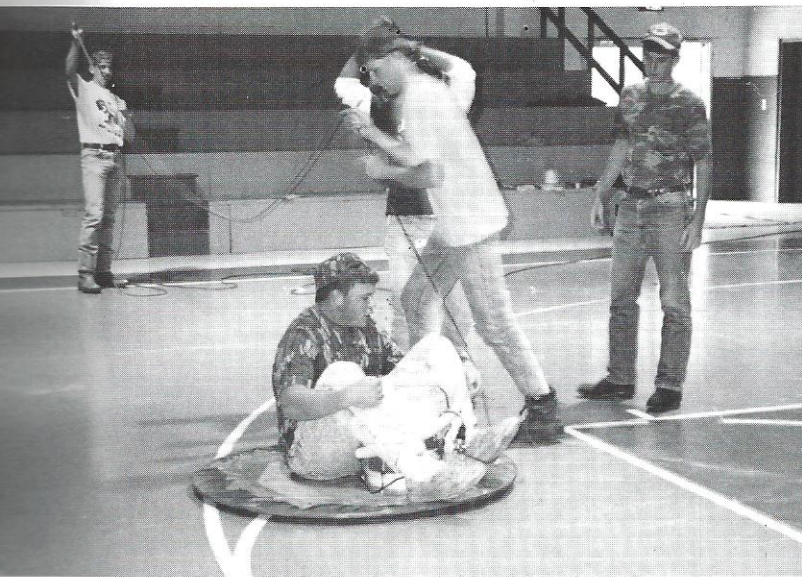

"Mmm, wonder what's in that book he's reading?" Josh White tries to sneak a peek at Mike Regenovich's reading material. However, Mike seems oblivious to Josh's apparent interest.

Although his years as a CPA student are almost over, his secret pal, Kindergartner Patrick Hamilton, has just begun. During a special picnic Garry Hunt keeps Patrick on top of things.

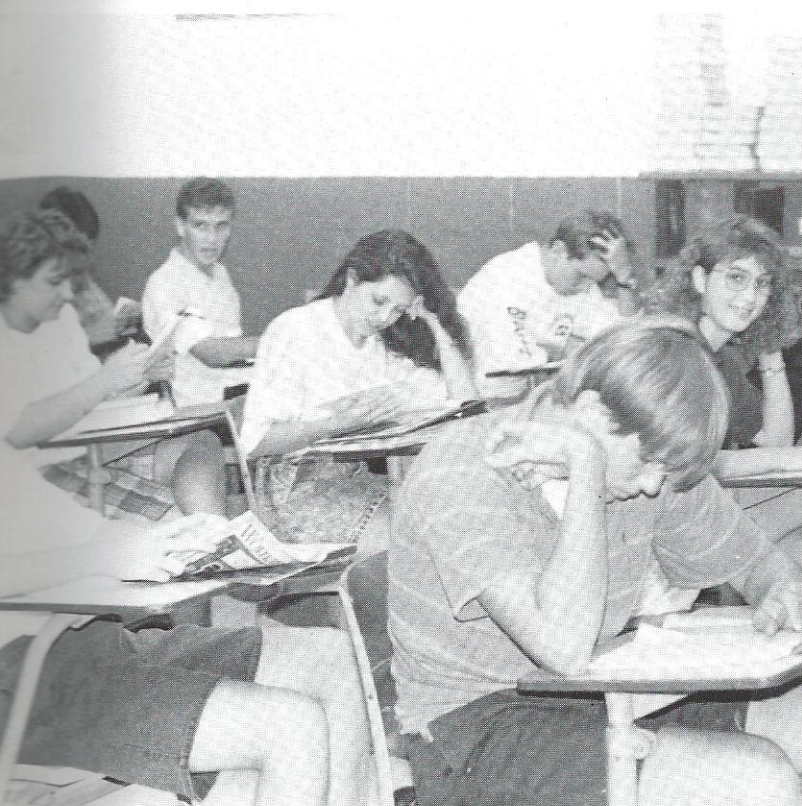

What It Means To Be

At long last the dreams of the class of 1992 became a reality, and they began to indulge in the joys of Senior life.

Senior privileges were the best part of Senior life. Some of these privileges included leaving for lunch early, and also leaving school five minutes before the final bell. Both of these privileges allowed them to escape the mad rush in the cafeteria and in the parking lot. The seniors were also given permission to order lunch off campus once a week. A very special privilege given to the Seniors was a day off to visit Frankie's Fun Park.

College decisions and AP exams also influenced senior life, and as decisions for their futures were made, they knew the final countdown had begun.

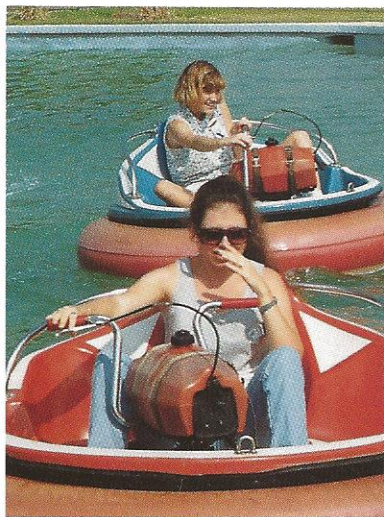

A Senior's work is never done!

They often feel as though all the compositions, homework, and tests will never be finished. Frustration, hard work and determination will all pay off when the Seniors hold their diplomas.

"Round and round we go!" Buck Howell spins Archie Murdaugh through the force of inertia. Better hold on Archie, it could be a bumpy ride. The physics class, consisting of seniors, does many exciting experiments.

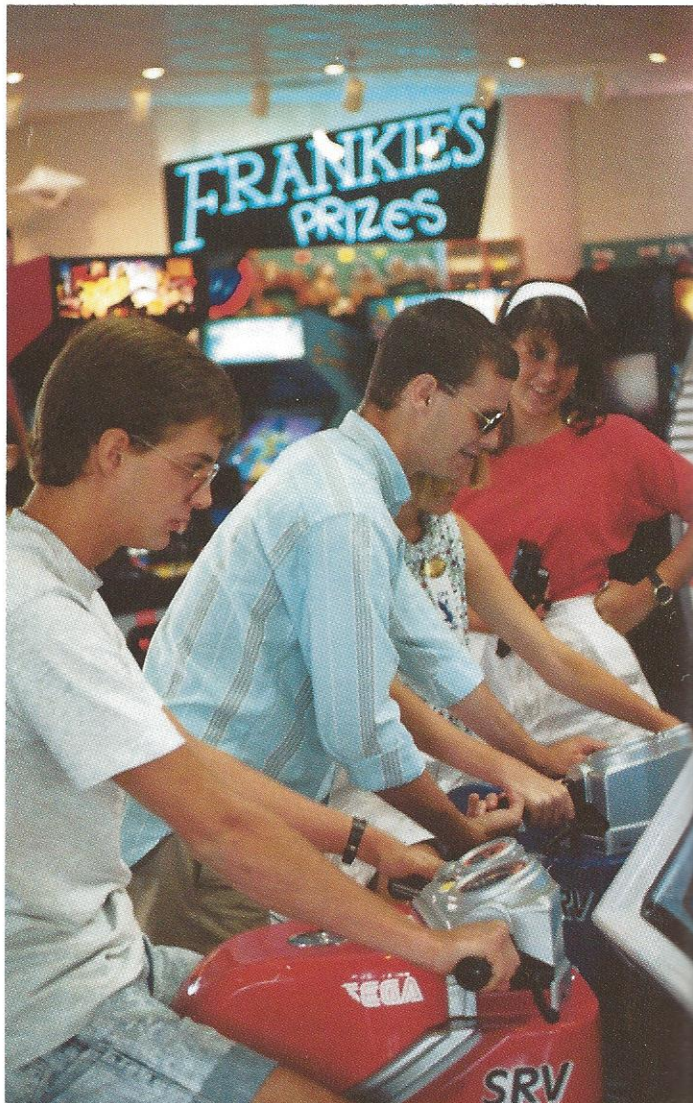

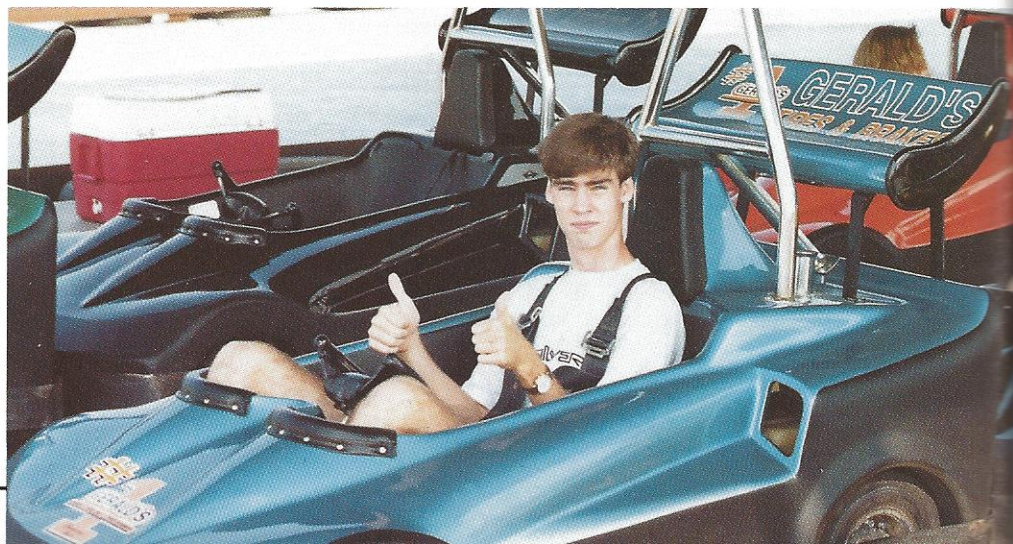

Fun And Games In The Summer Sun

Kristy Godley's unmanageable bumper boat barely makes it back to the dock while Landis Williams seems to be fighting her own battles.

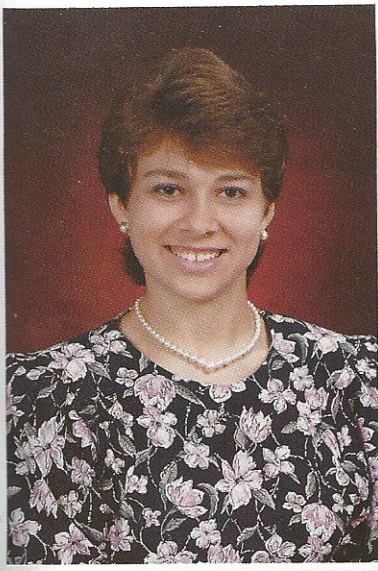

Griffin Warren experiences the thrill of "ORBITRON" and soon discovers that seeing the world upside down can be a strenuous workout. But always the determined one, Griffin finishes the job and afterwards said "Thank Goodness that's over with!"

Hot rod! Strapped in and ready to go, Josh White gives our photographer the thumbs up signal. Confident that his "number one" car will win, Josh has no doubts of seeing that checkered flag first!

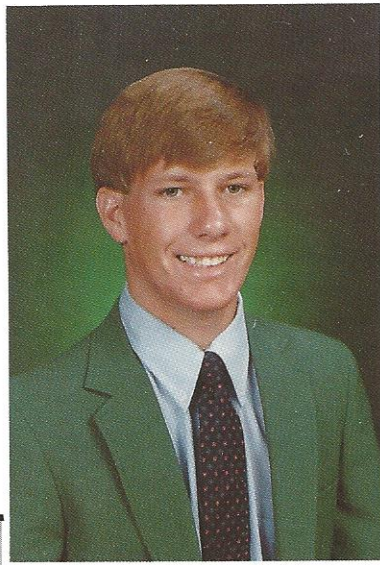

Lee McConnell looks on as Andy Blevins and Robbie Padgett demonstrate the proper and safe way to handle a motorcycle. They make look so easy!!

MELISSA HINTON

QUOTES: Yeah, right!, Who cares?, Really I don't know, So?, Big deal!, Who knows?

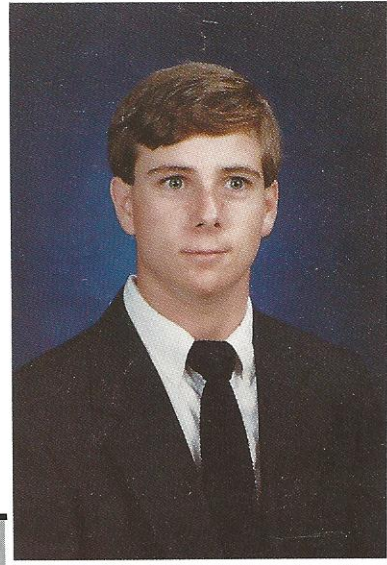

MEMORIES: Jr-Sr, trips to Atlanta and New Orleans, summer '86, Christmas '89, Homecoming '90, Charleston.

BUCK HOWELL

QUOTES: Huh?, What?, Say it ain't so, I heard a rumor, SMDB

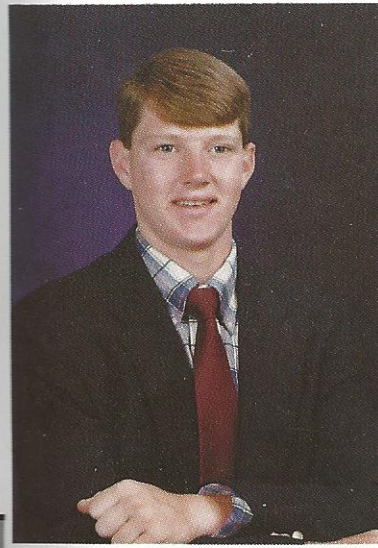

MEMORIES: Goodbye Harold, Bulldog Ave, Spring Break, Closing down Jefferies, The beach house, a special thanks to Bodison's Gerry Clower, Drivin'n' Crying concert.

SENIORS

Friends Are Friends Forever.

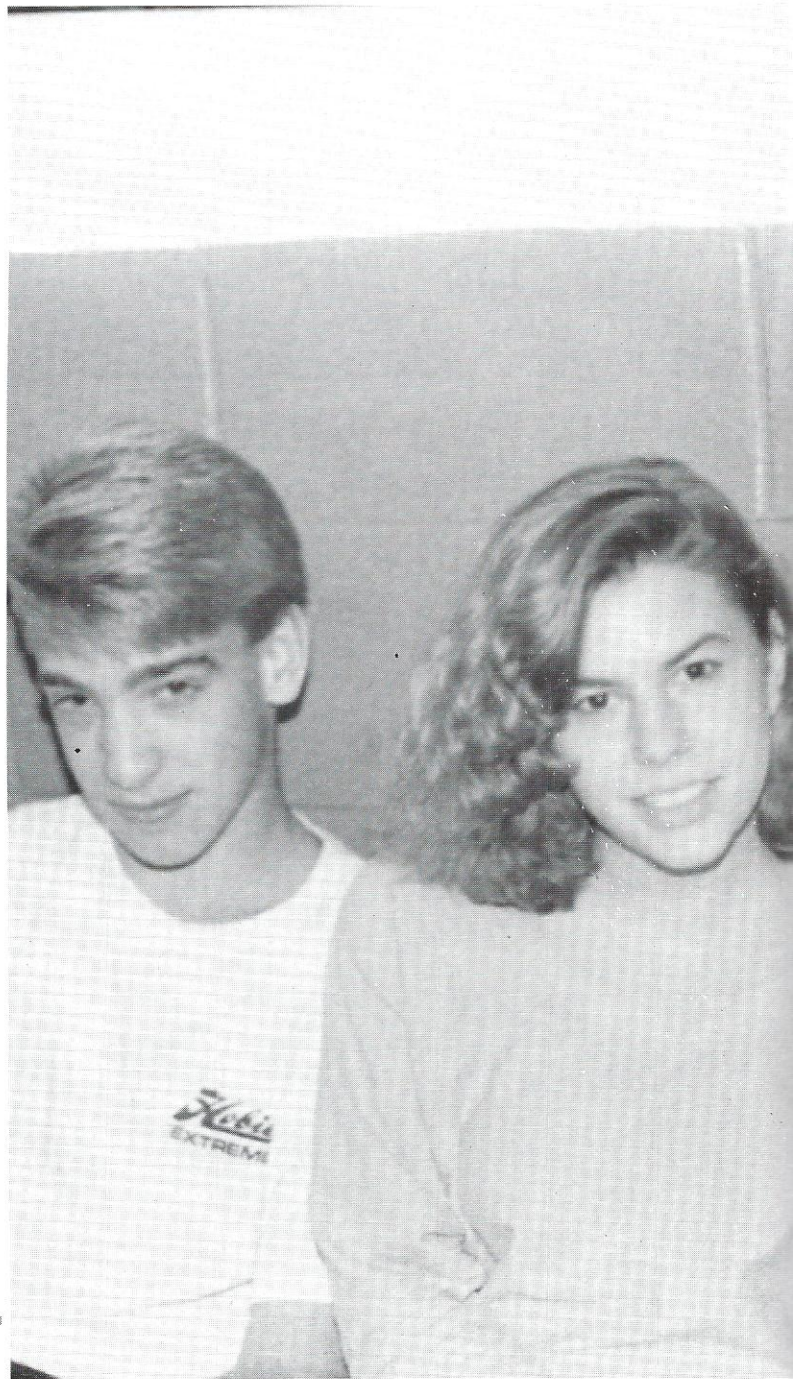

On August 26, 1991, thirty seniors entered the CPA hall-ways to begin their last year of high school. Although academics were on the minds of all seniors, they were also thinking of the other aspects of senior life. The football players had high expectations for their last year as CPA War Hawks; and all the seniors daydreamed about senior picnic day, privileges, and above all else, graduation.

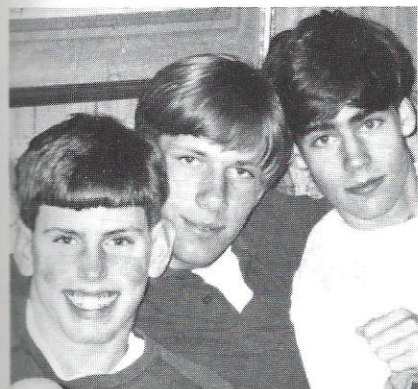

However as the year progressed, they realized that academics were going to be a very real and strong part of their last year. It was with this realization that the seniors forgot all the differences of years gone by and pulled together.

Together they survived Canterbury Tales and term papers for Mrs. Linder; they helped each other prepare for the dreaded SAT and AP exams.

As freshmen they had entered their first year of high school as thirty individuals; but as Seniors, they had finished high school as one team. And as the end approached, each senior took time to remember the past four years of his life. These were friendships never to be forgotten. For after all, true friends are friends forever.

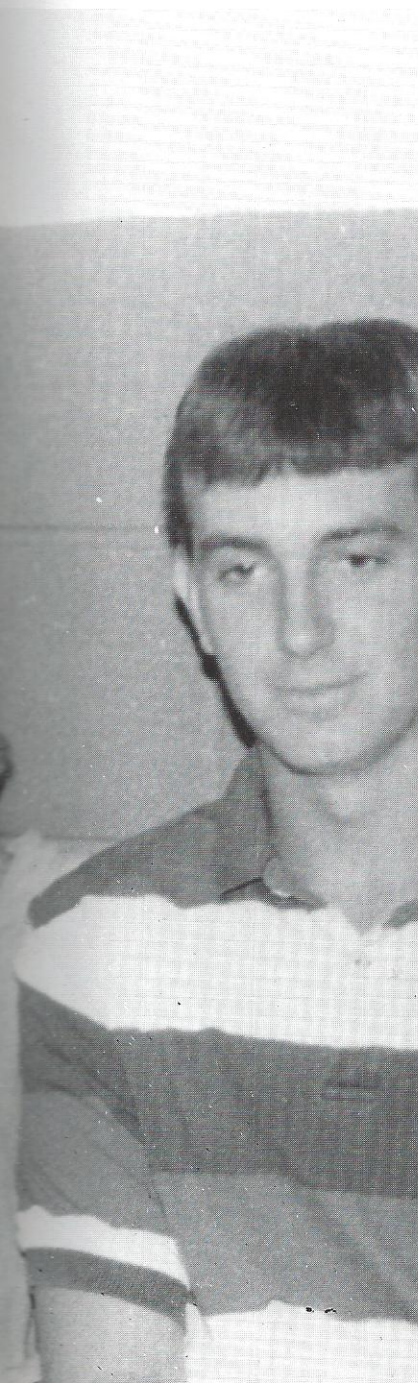

Kevin Dantzler, Donna Stringfield and Tommy Carroll catch up on the latest happenings with each other during a rare free moment.

Ah, this is the life. Sharing good times together is what friendship is all about. Griffin Warren, Buck Howell, and Josh White spend a lot of time together at Edisto Beach.

Shelley White and Kristie Smith, friends since kindergarten, have spent thirteen years together, including cheer-leading since the 8th grade. A hug in the hall reaffirms their friendship.

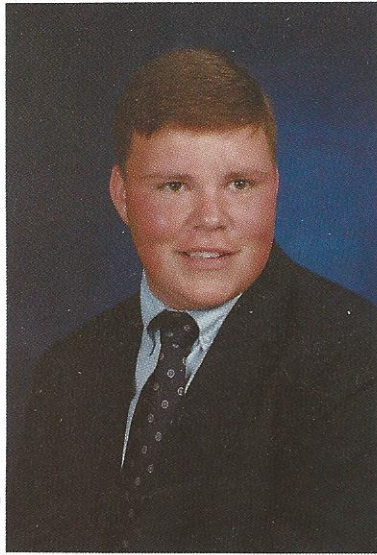

Mike Padgett gives his friend, Dori Futch, a birthday hug during her 15th birthday celebration. The closeness of the seniors carries to activities and special events outside of school.

Class Of 1992 Is Simply The Best!

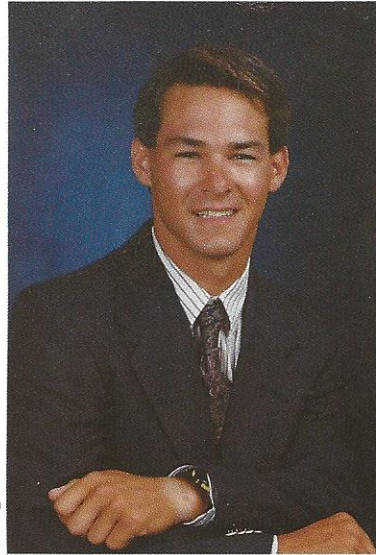

The race is on! The race track at Frankie's gives the Seniors a place to test their driving skills. As they come around the final curve of the track Buck Howell seems to have taken the lead with Mike Padgett following close behind. Griffin Warren, Landis Williams and Donna Stringfield fight it out for third place, but Lee McConnell and Mike Regenovich don't stand a chance. Remember it's all in good fun!

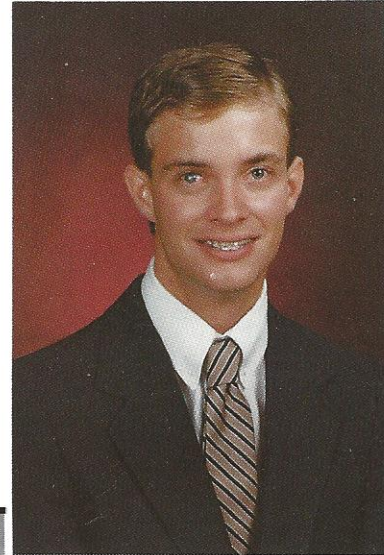

ARCHIE MURDAUGH

QUOTES: Is it Friday yet?, Seniors rule NOT, cool, *@?! happens, Oh well, right
MEMORIES: Jr-Sr weekends, Proms, 2-26-87, summer of 1990 and 1991, Junior year, HRS, Hardees

MEMORIES: BH, Graduation '90, Jr-Sr '91 (Harold lives!!) "The Click" RNA, Awesome L's, Taco Bell, Triangle (A. M. K), HH '90, SECRETS, Rendezvous, FH Park, P.O.T., The River

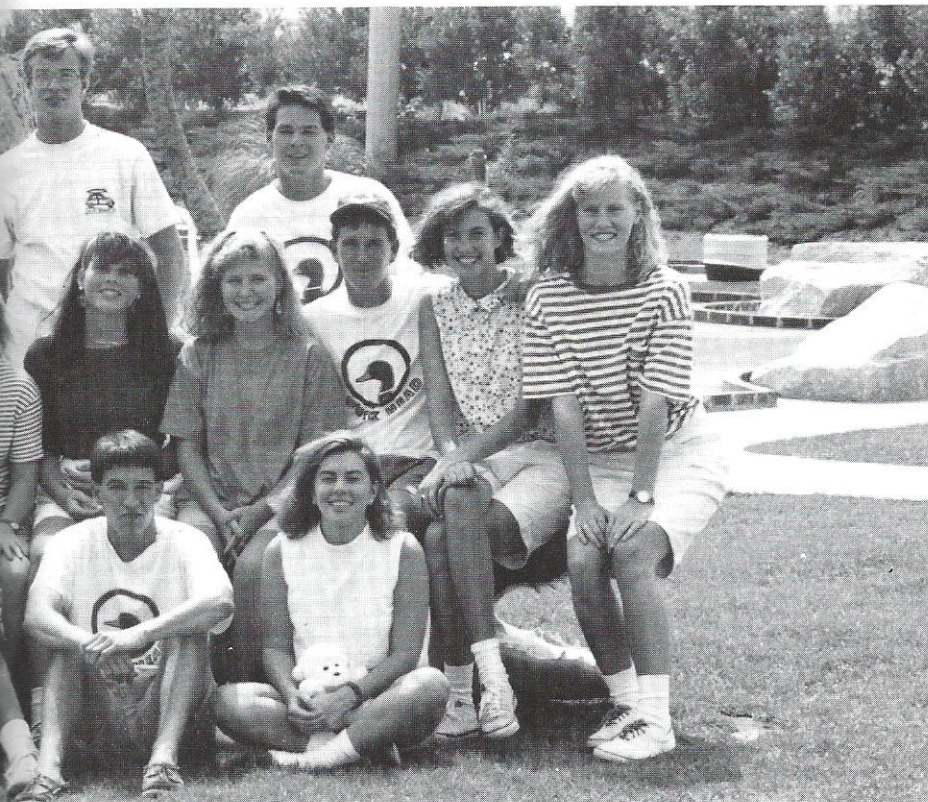

Through The Years

When does life in school really begin? For the Seniors of 1992, the beginning came in the 5th grade. Not only were they the "top notches" of the lower school, but they also had an unforgettable experience. They flew to Charlotte, NC for the day to visit The Discovery Place, a local Science museum. As young 5th graders this was a milestone in their school career, not to mention a huge responsibility. This responsibility did not end with this "field trip". It continued to grow as they entered the 6th grade. The 6th grade was a year of many unexpected changes. In no time at all they soon discovered that three minutes was hardly enough time to dash by the restroom, get a drink of water, and be in the next class on time. As 7th graders they entered the middle school again. However this year things were different, they were no longer shy, nervous or naive, instead they were confident, outgoing and even a bit cocky. These terms could be used to describe the class of 1992 through all of high school. No matter what the situation, good or bad, they always put on their best smiles and made every day of the year simply the BEST!

Uh Oh! I think we've been caught!" Garry Hunt and his "associates" stand in shock as they realize their "mofia days" are numbered. Jason Jones doesn't seem to be arguing either!

The hall outside the office has become a special gathering place for the Seniors before and during lunch. Usually the girls are on the phone, however Andy Blevins makes a call that has all the guys curious.

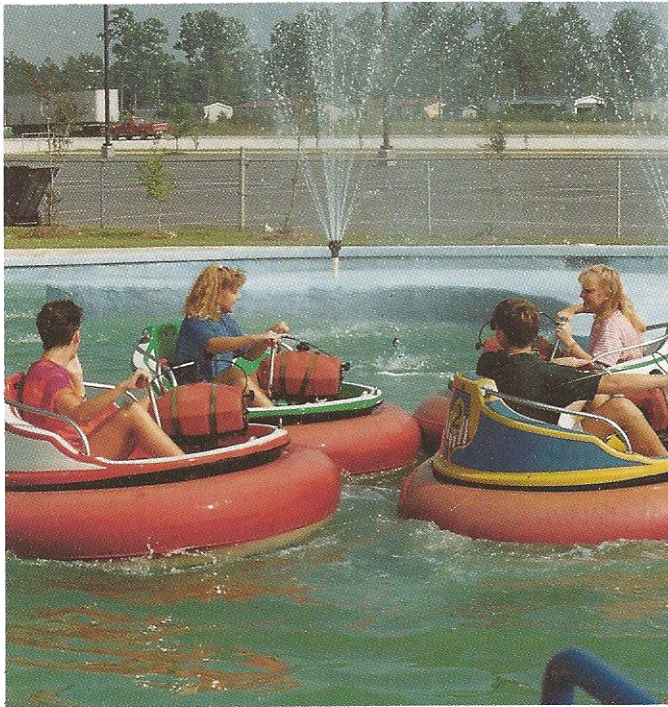

History repeats itself. Even as 7th graders in Mrs. Speaks' room, the personalities of the seniors shine through, the only thing that has changed is their height.

Melissa Hinton, Ian Saunders, Paige Fletcher, Virginia Greenwell, Angella Butler, Kristie Smith, Robbie Padgett, Lee McConnell, Laurie Steele, Mike Padgett, Tommy Carroll, Landis Williams, Rebecca Speaks, Kevin Dantzler, Griffin Warren, Robby Baggett, Donna Stringfield have been a part of the JCCA-CPA family for 13 years. As "Vintage War Hawks" they have been a part of every event in JCCA-CPA history since 1979.

Be A Part Of The Seen

"This is the smallest car I've ever been in!" Rebecca Speaks laughingly makes this observation just before she pulls out of the pit stop to hit the track. Remember Rebecca, the smaller the car, the faster!

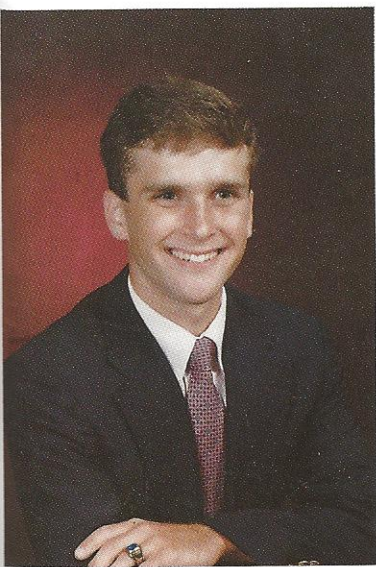

"Watch out for the fountains!" As Shelley White and Garry Hunt try to maneuver away from the water fountains they try their best to warn Laurie Steele and Kristie Smith to do the same. However, it seems there is nothing Laurie and Kristie can do to avoid them. Don't worry girls it's only water!!

Look at him go! Buck Howell and Virginia Greenwell stand back to admire Tommy Carroll as he masters one of the video game rides at Frankie's Fun Park. With his hand on the throttle, Tommy Carroll is ready to burst into space leaving his friends behind.

"Look y'all I can fly a helicopter!!" Detra Stanfill seems to have found her calling as a pilot. Could there be a career as a naval aviator in Detra's future?

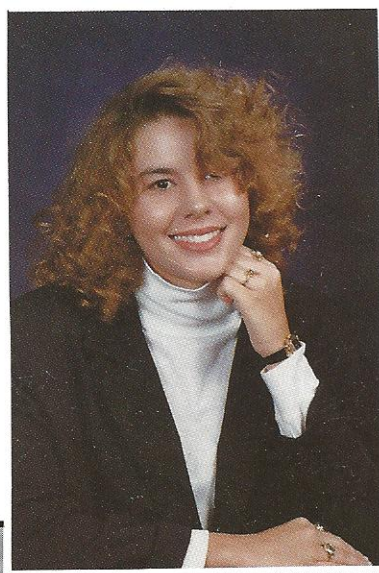

DANIEL STRICKLAND

QUOTES: Don't worry about it, it's only a test, Who cares?, Oh, that's cool, Nice ... !, What a liar! This is the worst

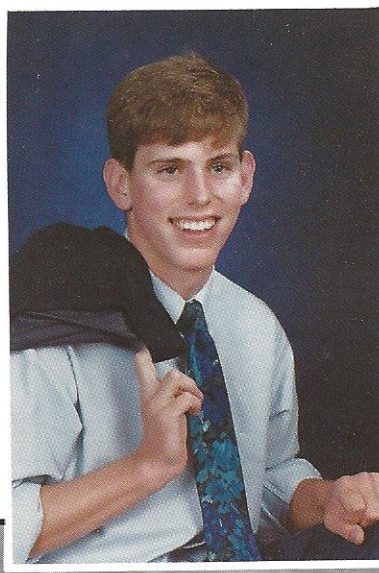

MEMORIES: JW at JT's, Jr-Sr weekends, H. House party, CB, MS at HH, Football '90, Prom, PS as awesome Jr Sponsor, Chia thrusts, Summer '91

DONNA STRINGFIELD

QUOTES: I'm so embarrassed!, LD, Just kiddin', I don't care, Dork, Can I hold your homework!?!

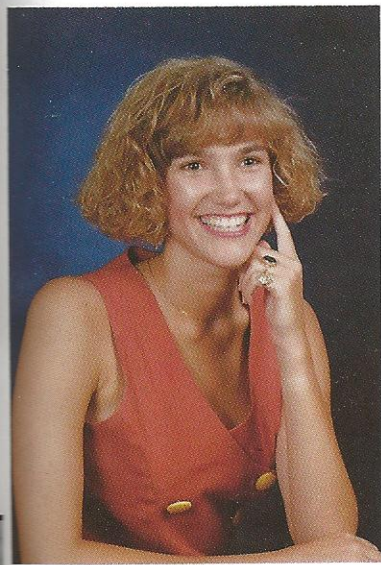

MEMORIES: The Mazda, JGW, Friday night target practice, Jr-Sr weekend, Frankie's CD game, Dropped the Bomb, Summer '90, '91, Myrtle Beach, Marie, CJR house

GRIFFIN WARREN

QUOTES: I don't know, What's your point? Shut up!, Squeal like a pig, "Weeehh", What's up?, Big daddy

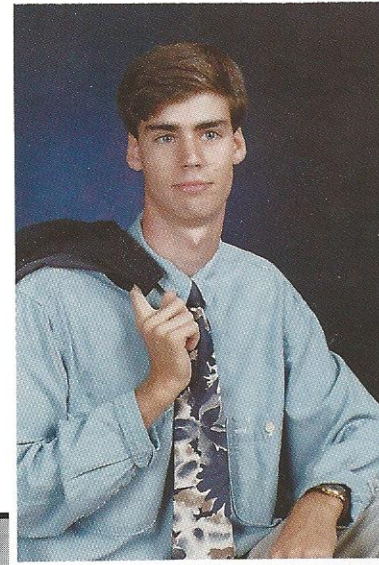

MEMORIES: Going to the doctor, Taco Bell in Orangeburg, 228, The "TRACK", HH '90, "HAROLD", Jr-Sr '91, H-mode necklace, "militia man"

LANDIS WILLIAMS

QUOTES: Grow up, LD, Come on, I'm going to get in trouble, Help me please!

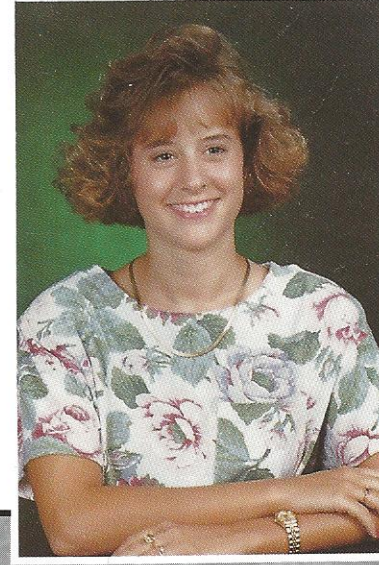

MEMORIES! One (Belks), Jr-Sr '91, (Harold) Triangle, Awesome L's, HH '90, Blue Bomb, Wally World, Hair spray, No money, Go Lee, Rendezvous, Word, Taco Bell

JOSH WHITE

QUOTES: Hello, Man, please, What a crock! Yo-Yo what's up, Hey-hey, Mama, Just kidding, You're cool, Hold on a sec

MEMORIES: RLS and all the memories, The night, Harold lives, JT's House, Jr-Sr 1991, WHS, H-mode necklace, The dogwood tree, Summer '91, "Milk man" Cowpasture

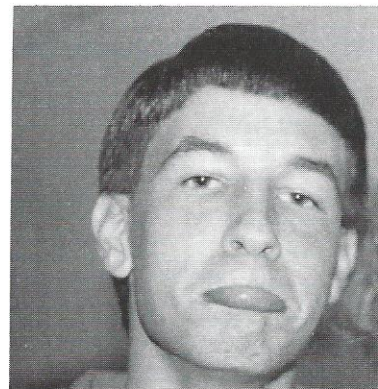

SHELLEY WHITE

QUOTES: IWY! Smile!, Well ... Oh let me tell you! Whatever!

MEMORIES: JAT, 1-19-91, The Beach, JT's house, 7-25, ES, The F&BP, 9-28, River, TORNADO, Bathrooms and flowers, Chas. trips, Jr-Sr '91, Hairspray, D(KS)

Why does Robby Baggett look so sad? It may be because he knows his time at CPA has almost come to an end.

Although Rebecca Speaks' mind should be on her teacher's lecture, it appears that life after graduation has become the top priority.

"I told them no pickles on my sandwich!" Angella Butler meticulously extracts the pickles and other unwanted toppings from her Subway sandwich.

Farewell, But Not Goodbye

You and I have shared a bond for all these many years.

As friends we've walked, sharing laughter, joy and tears.

Though time may pass and things may change, one thing I know is true. I have a very special friend as long as I have you.

No other words can clearly express my feelings for you, my classmates.

I love you all!

Dori Futch,
Senior Class Editor 1992

The "Awesome L's", Landis, Lee and Laurie, know how to dress to impress. Cotillion always presents an opportunity for friends to play Cinderella.

"Becoming a Junior this year meant having a lot more responsibilities. Most of them have been fun and some have been hard. Preparing for the Haunted House was the most fun and the hardest. We had to set the entire thing underneath the walkway. Fortunately, the rest of the class was there to lend a hand."

Anne Clamp

Pat Padgett and Lance Dennis escort Jesse "Jessie Mae" Walker in the Mock Homecoming Queen contest. Jesse didn't win but the Juniors put their hearts into voting for him. The Junior class realized that they were a big part of high school life.

Juniors

SO MUCH TO DO AND SO LITTLE TIME TO DO IT.

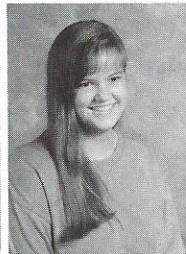

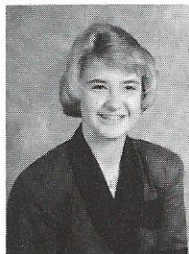

A lot of the classes have been busy this year, but it can be safely said that the Junior class was the busiest. This year was, according to Cassie Silber, "an interesting learning experience." These Juniors put together a great bonfire and organized the Homecoming Dance for grades eight through twelve. The Junior's biggest fund raiser was the magazine sale that went well. Each Junior set a goal of two hundred and fifty dollars of magazine sales. Each did a good job of selling. Everyone worked hard putting the Haunted

House together, and enjoyed every minute of it. The doughnut sale was also a great success. All of these events were done to raise money for the biggest of the year, the prom. The Juniors were also involved in things other than Junior class projects. They were members of clubs and played varsity sports.

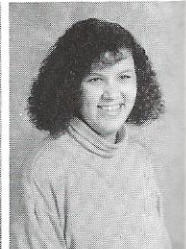

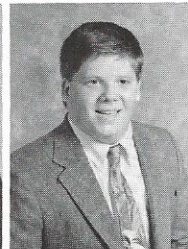

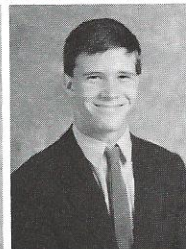

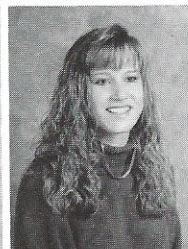

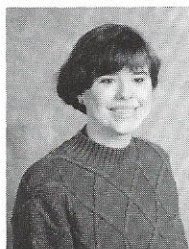

The best part of being a Junior is ordering class rings. Marie DeLoach and Leah Jones pick out their rings. Don't worry, a Jostens representative is here to answer any questions.

"My Sophomore year has been special to me because I finally got my driver's license. Now I can't wait until next year when I can drive alone at night. I have waited this long, time should fly by very quickly this year. I can't wait for my birthday to finally get here."

Tiffanie Lee

Susan Drawdy, Tracy Tittle and Holly Griffith have been cheering together since 7th grade. This trio not only leads the teams to victory with their spirit, but all three also play basketball. Now that's involved!

Sophomores

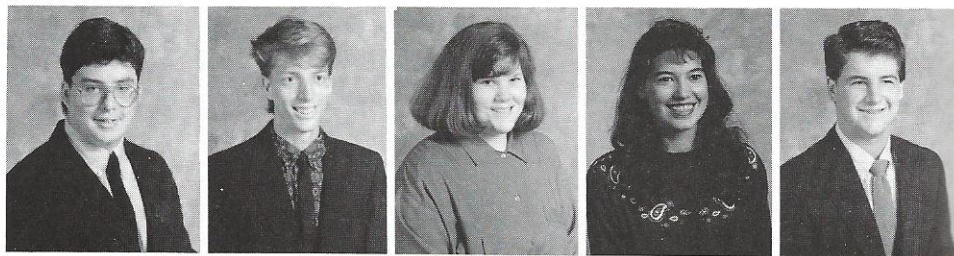

GROWING UP FAST

The students in the Sophomore class had to grow up fast this year. They found out that life isn't always handed to you on a silver platter, you have to work for it. Even so, these students had a great time, it wasn't always easy, but it paid off. They all seemed to take an interest in the biology lab. This was the first time some of these had the opportunity to dissect, and it was a big success. They learned all of the safety rules needed to work in the lab and the boys "loved" to wear the aprons. Many students were involved in the Science Club, Spanish Club, YAB, the Talon staff and the War Hawk staff. Everyone was involved in sports. Some participated in football, volleyball, basketball, golf, softball, and baseball, while others were active on Student Council. These Sophomores took the PSAT for the second time this year trying to prepare for the SAT their Junior year. The Sophomores had a great year even though they had many new challenges throughout the entire school year.

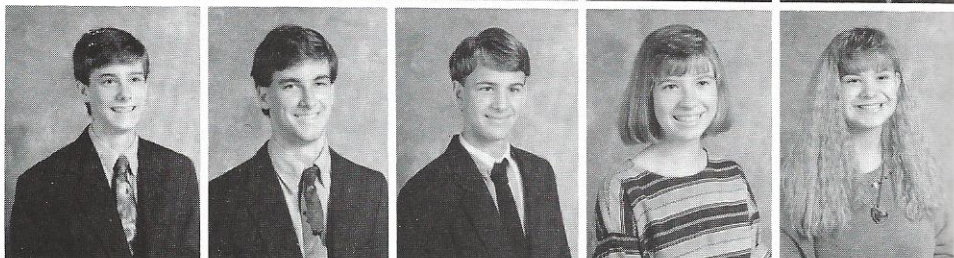

Amy Carter gets ready to follow the first rule of the labs, wearing protective eyewear at all times during experiments. The Sophomores enjoyed the opportunity to gain experience in the lab before going to college in a few years.

"I couldn't wait to go to school and be a freshman. It was hard to walk through the doors and watch my summer come to an end."

Stephanie Padgett

Stephanie Padgett, Lolly Oswald, and Amy Godley anxiously await the opening of the doors of orientation so they will officially become freshmen.

Freshmen

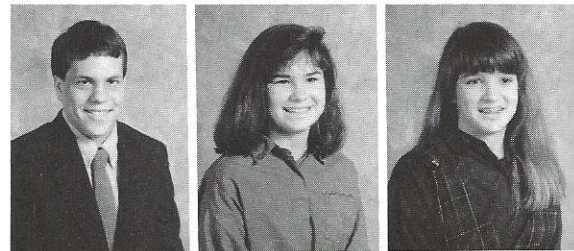

CHANGE FOR THE BETTER

Being a freshman at CPA was a great experience for all. Some described the year as fabulous and awesome, but different. It was a hard change for some students. However, it wasn't too hard for the freshman girls. Amy Godley stated "The most exciting thing about being a freshman was associating with high school guys." The freshman boys didn't have a hard time adjusting either. Some were able to participate in

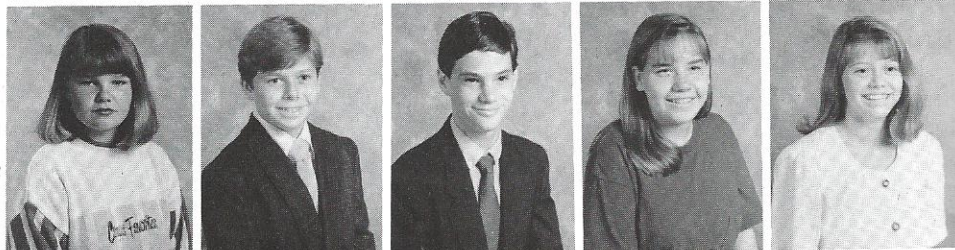

varsity football. These students also took part in Spanish Club, Science Club, YAB, basketball, volleyball, tennis, baseball, and softball. They also had a unique experience with history class this year. These students built Roman chariots, and raced them. It was to be the most exciting learning experience they did all year. They also enjoyed spending time in the lab doing physical science experiments.

"I couldn't wait to go to school so I could play basketball and golf again. I wanted to see all of my friends that I hadn't seen."

Ginger Speaks

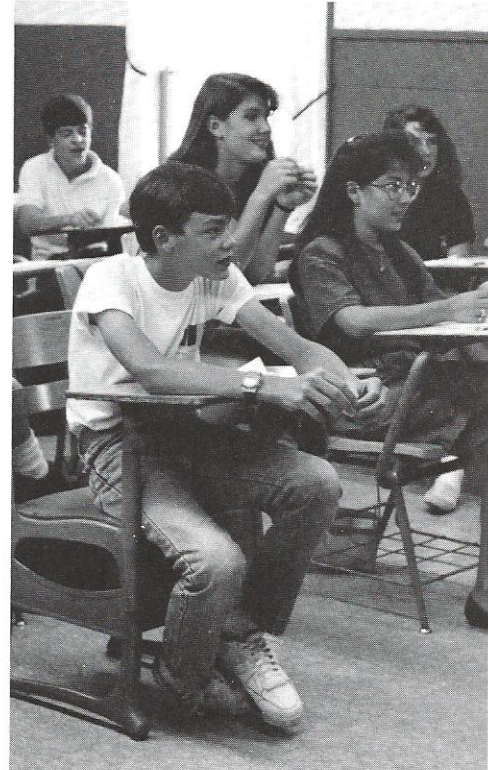

Ginger Speaks, Garnett Johnston, and Lindsay Davenport report to the first day of school. They couldn't wait to be involved in activities.

Eighth

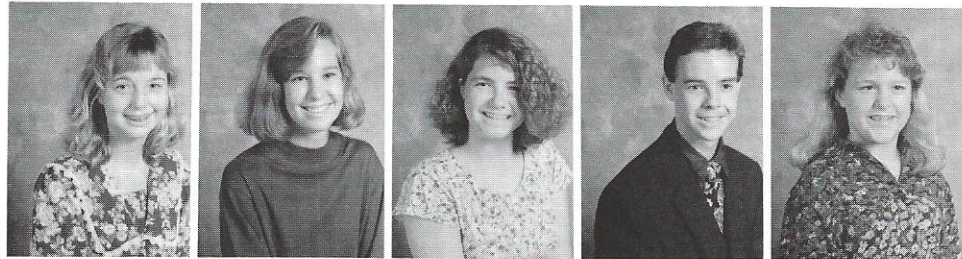

LARGE IN SIZE — BIG ON ENTHUSIASM

The eighth grade got a taste of what high school life would be like next year. They were finally awarded the privilege of having a locker in the high school building. They were also able to elect class officers to represent them on Student Council. This class became involved in many different types of athletic programs. They had several girls who participated in tennis, cheerleading, and softball. The boys took interest in football and baseball. Both boys and girls enjoyed playing basketball and golf. The class was able to take a trip to the State Museum during the fall. They were able to see the simple technique used to make a laser. They were also able to see many exhibits that they missed last year.

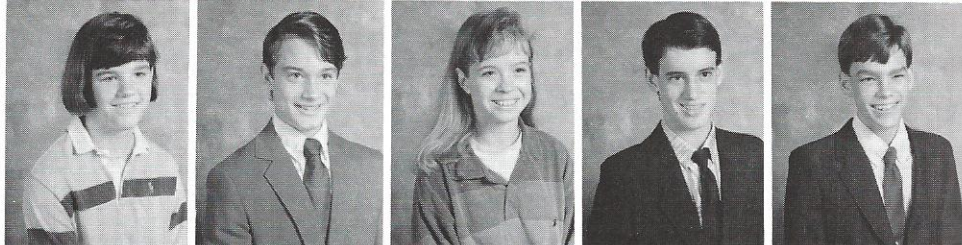

Gary Herndon, Tamara Stanfill, and Ashleigh Padgett listen carefully to the explanation of the problem. The class had the opportunity of taking Algebra I early. This taught the students that responsibility isn't easy.

"I find that studying for the tests hardest. But once you get the test you realize that the panicking done the night before was for nothing. I then began to slow down and take my time. Now everything seems to be working out fine, and I am making good grades."

Cara Valentine

Stephanie Bailey and Jonathan Spell anxiously await their orientation. These kids had a great summer, but were ready to get back into the swing of things. They both knew that once they walked through the doors their summer had ended and their schoolwork had begun.

Seventh

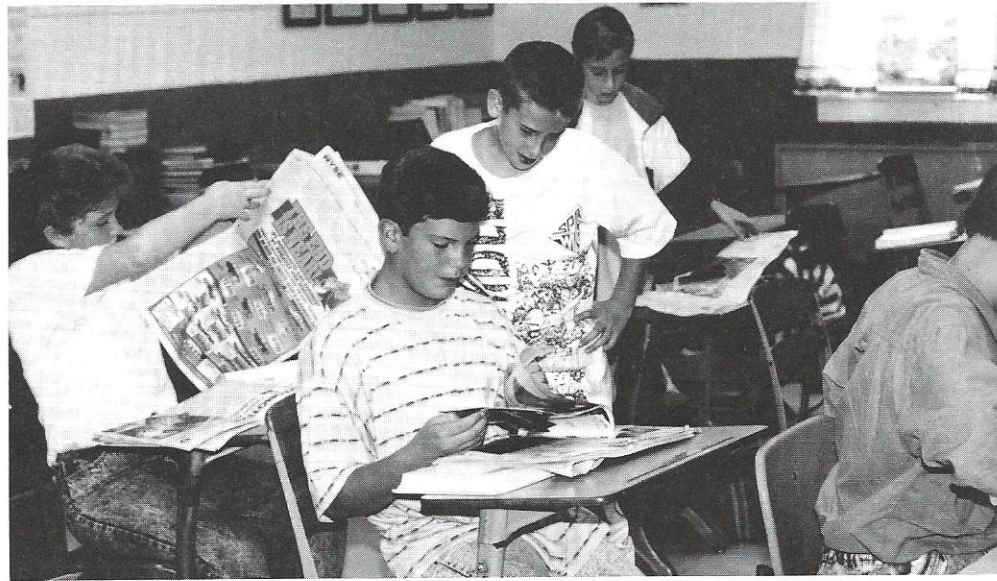

ALL WORK — NO PLAY DOESN'T PERTAIN TO THESE KIDS

The seventh grade kept busy this year, both inside and outside of the classroom. Some students stated, "We don't have more work this year, it's just harder." However, don't be fooled, these seventh graders adapted well.

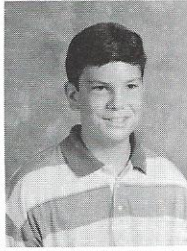

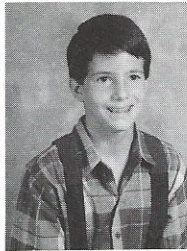

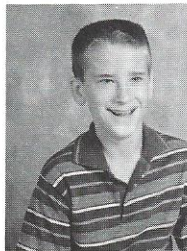

Not only did they keep up with their school work, but they also found time to play. They showed their school spirit by participating in the Homecoming celebrations. They took part in the Halloween poster contest. They also became involved in J.V. football, B-team

basketball, and J.V. cheerleading. Marc Amerson stated, "The thing I liked most about seventh grade was playing J.V. football." Visiting the State Museum proved to be both a learning experience and a lot of fun, but made for a long day.

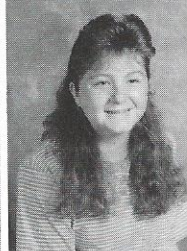

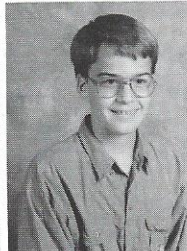

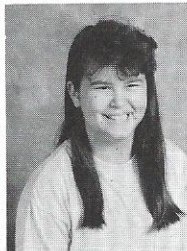

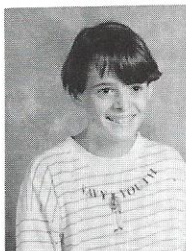

Marc Amerson and Michael Crosby work on a science project for Mrs. Hawes. The visits to the lab taught these students the need to follow all safety rules, but most of all they had fun.

"Sixth grade was a big change from fifth grade. You had to carry your books to all of your classes. I liked having six classes in six different rooms with six teachers. It was a big change, but I have waited for it for a long time. Remembering where to go everyday was tough at first but it has gotten a lot easier since the first day."

Kelly Smith

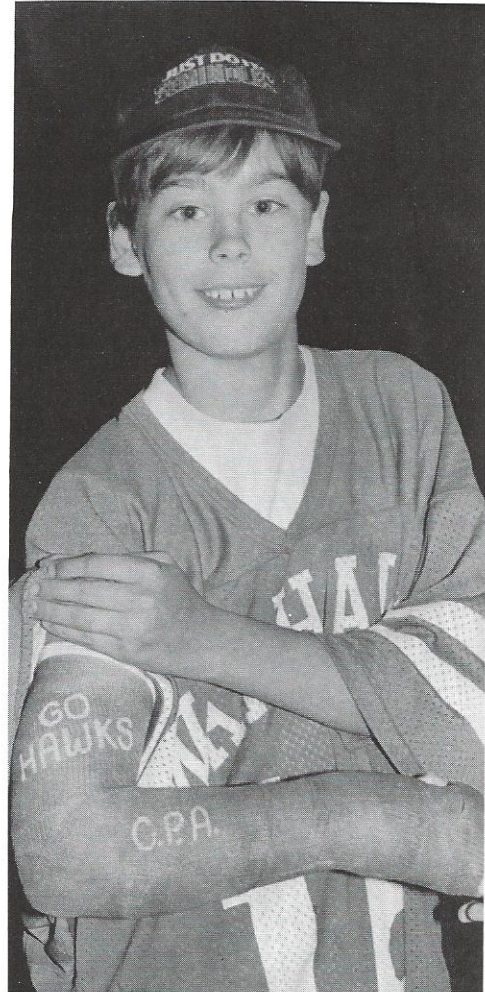

Kimberly Gilmore sneaks a peek when the picture is taken while the rest of the class pays attention. The sixth grade has enjoyed the changing of classes and of teachers this year. It was a major shock at first but these students caught on very quickly.

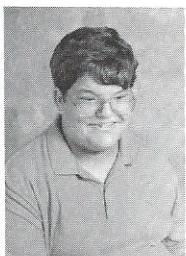

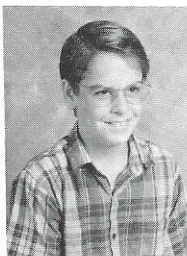

Sixth FACING NEW CHALLENGES

Advancing to the sixth grade was an adventure. These students were exposed to many new and exciting things. They were finally a part of the middle school life. It wasn't easy adjusting to changing classes every period. In years past they were in one classroom all day with one teacher. Times change when you get older. They also had the wonderful "privilege" of taking midterm and end of the year exams. In the end taking exams wasn't as bad as it seemed. However, they did learn responsibility and hard work pays off in the end. They studied a little over the entire year for exams. These students learned all about book reports this year too. They did one book report each week. If you could have changed anything, what would it have been? Hunter White replied, "Not getting your test papers signed by your parents." The year wasn't all work for the sixth grade. They played too!

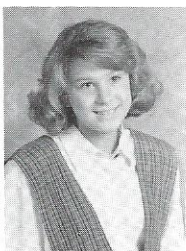

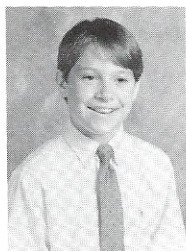

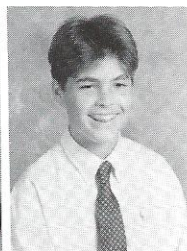

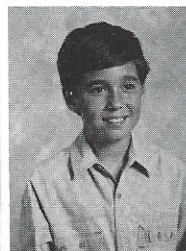

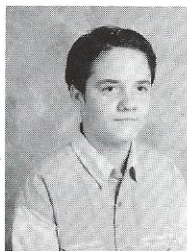

Hunter White shows his War Hawk cast off to the photographer. Hunter's arm was broken during a J.V. Football game against the Dorchester Academy Raiders. Hunter hopes to be able to participate in the J.V. Basketball season.

"I like being a fifth grader at CPA because everyone in my class is nice to me. I also like being in the fifth grade because next year I will be called a middle school student instead of a lower school student. I can't wait to be able to change classes and have six teachers. Fifth grade is fun but I can't wait."

Jess Clamp

Laura Peters gets help from Mrs. Street, the new art teacher, with her drawing during art class. Along with having P.E. during the week, the fifth grade has enjoyed having an art class this year also. Mrs. Street has taught them many of the fundamentals.

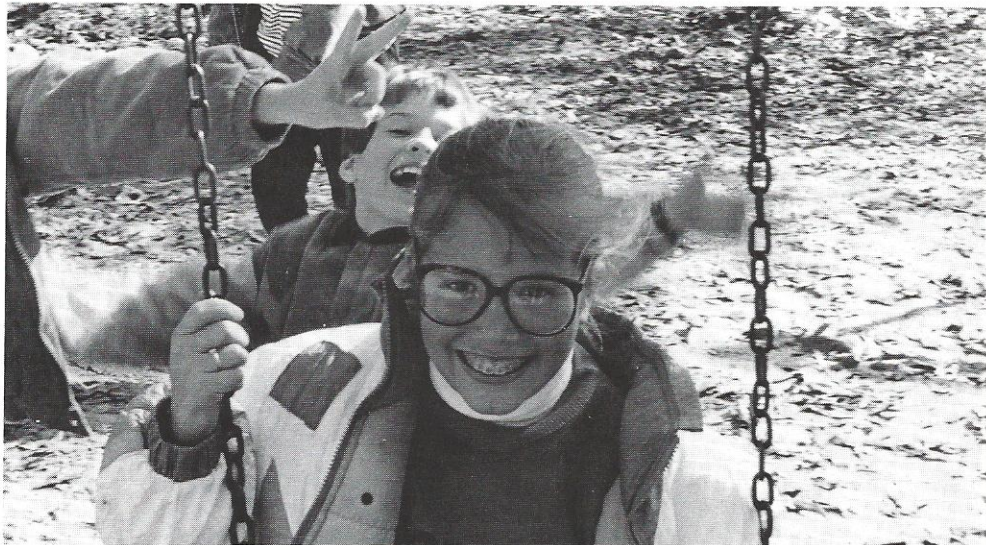

Fifth

FUN WHILE LEARNING

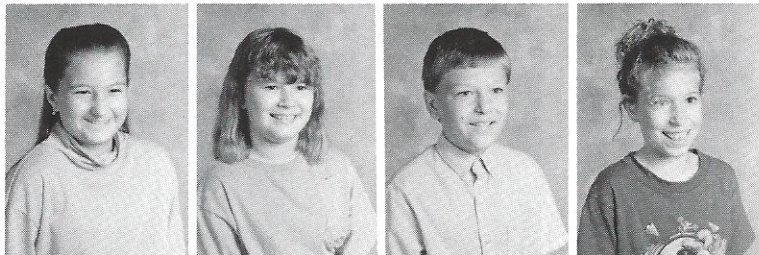

These fifth grade students have had fun learning this year. They were active in many different activities, for example, they made dolls to be sold at the Christmas Bazaar. This class had fun participating in science also. For every chapter covered, they would create their own experiment to show what they had learned from the chapter. It was stated by a reliable source that these kids love to read, and they do! At least one-third of the class read over one hundred books in the reading contest. They enjoyed this school very

much, but all are looking forward to next year. They all know that next year they will officially be part of the middle school. Some are nervous, others are very anxious. They no longer will have one classroom, but six teachers and six classrooms. These kids had a great time this year, most of all they had fun by learning.

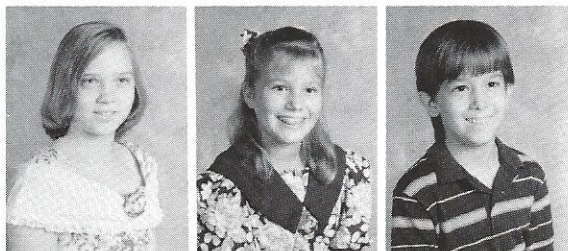

Hannah Huffines unexpectedly gets rabbit ears from her classmates while having her picture taken. The fifth grade loves to have fun both inside of the classroom and outside of the classroom.

"I liked being in the fourth grade because we were able to be Wee Hawk Cheerleaders. The girls in my class practiced cheers outside during recess. I hope I make the cheerleading squad when I try out at the end of the sixth grade. For now, I like to sit on the sidelines and cheer with the cheerleaders basketball."

Carrie Tyler

These fourth grade girls, Pam Godley, Mary Stone, and Amber Carter, cheer with the varsity cheerleaders on Buddy Day. The fourth grade enjoyed having an older buddy for the week. It was a memorable week for both the Secret Pal and the lower school student.

Fourth

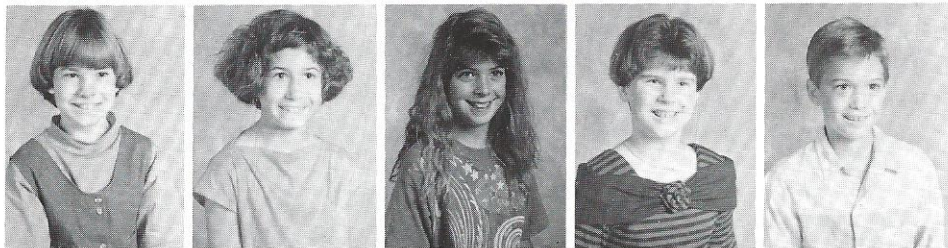

FULL SPEED AHEAD

The fourth grade was enthusiastic about school and energetic to learn. Well, maybe more like enthusiastic about lunch and energetic about P.E. These kids kept themselves busy this year. They participated in several activities, such as Wee Hawks for the girls. They had a great time making posters, doing skits, dressing up for the holidays, and having parties, including their festive luaus. They enjoyed a lot of things this year, but book diaramas were said to be the most fun. These students made their own miniature activity scenes to go along with their book reports. This made reading books and writing about them more interesting. These students also planned an exciting field trip to Charleston Southern University, where they visited the Earthquake Education Center in May. This proved to be a wonderful learning experience, and a fun filled day away from school. Although they have done many exciting projects and went on a great field trip, they can't wait until next year to be the oldest students in the lower school.

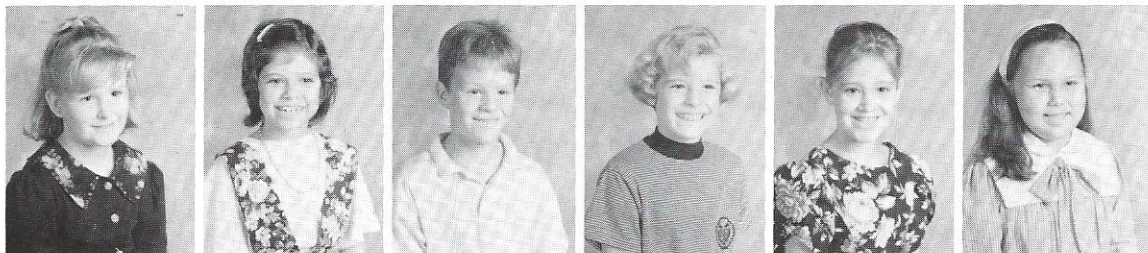

Pam Godley concentrates on her times tables that Mrs. Fischer assigned before going out to recess. Recess is a good energy release for these students who are in one classroom during the day.

"I liked going on the class field trips. Our class had fun together everytime we went somewhere. I liked going to the State House. It was so pretty, but there were too many steps. Our trip to Charleston was more fun because we live close to a lot of South Carolina history."

Stacey Rogers

Stacey Rogers concentrates on her writing assignment that Mrs. Davenport has given to the third grade. These students worked hard to complete the tasks given to them. They learned that if they could do these tasks, they could do anything.

Third

ACTIVITIES PROVIDE "OUTSIDE" LEARNING

The third grade had an exciting year learning division, doing fun science experiments, solving "Whoppers", and enjoying South Carolina History. Tyler White stated, "I really like history, but I don't like all of the definitions." They participated in the D.A.R.E. program, the spelling bee, and wrote to penpals from other states. Third graders took a trip to Columbia and visited the State House, Governor's Mansion, and the Confederate Museum. The year ended with an exciting trip to Charleston to see the sights they had studied in

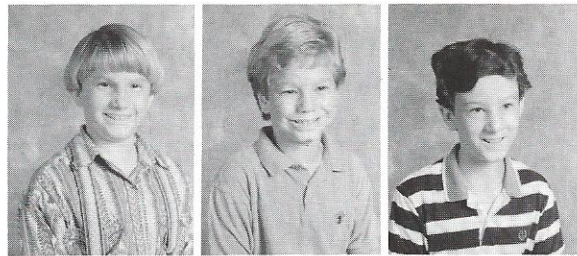

South Carolina History.

This third grade class used their imaginations to make learning fun. The students turned each ordinary day into an adventure. Mrs. Davenport found many creative ways to teach basic elementary subjects. These students left the third grade with the hopes and dreams of, one day, becoming world leaders.

Brantley Strickland and Shane Araneo have lots of fun while watching the pep rally. This year the second grade found out that they could have fun while learning.

Second

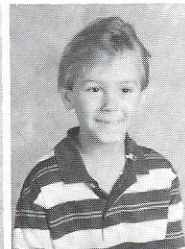

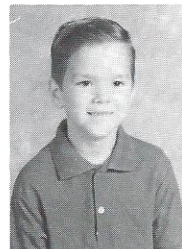

SPECIAL PROJECTS ADD INTEREST

Second grade was a time for developing independence and learning new things. Cursive writing was learned to perfection as well as the beginning of multiplication. One of these students special projects was studying different countries. Each student did a written report on their country and made paper dolls and flags to represent them also. Their Christmas Party was a publishing party. Each student published their own book which was a Christmas story. All of the parents were invited and got autographs from each child. They also found learning about past Presidents fun. Field trips were as exciting time, but it was a downer when they arrived at Charleston Southern University and found that the ballet was cancelled. However, Hardee's proved to be fun.

"I enjoyed staying all day at school for the first time. At first it was scary but I got used to it fast because we got to do a lot of fun things this year like going to P.E. and art. Art was fun because we got to draw pictures of our families and other people that we knew at school and at home."

— **Chad Araneo**

Davy Kiser can't make up his mind about gifts during the Santa's Store. This project sponsored by the PTO is lots of fun for the young students who can choose from a variety of gifts for \$1.00.

First

CLIMBING THE LADDER

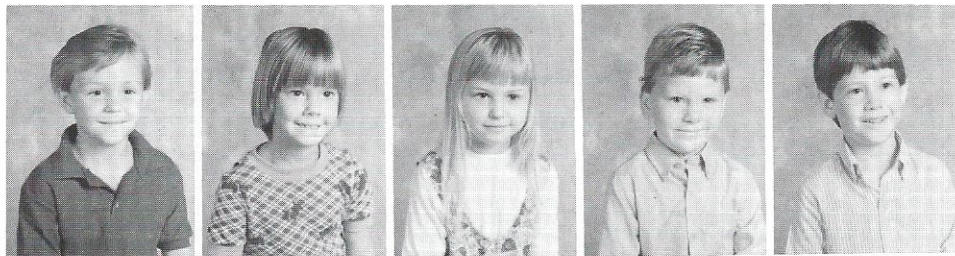

The first grade class was in for some major changes this year. The highlight of being in first grade is learning to read. They started out with sounding out words, then rhyming with songs, and before long they were reading. Everyone agreed it wasn't easy, but once they got the hang of it, there was no stopping these kids. Reading wasn't the only new thing these students were exposed to this year. Art became a big learning experience, as they created,

in proportion, a human face and body. These students were given the opportunity to write their own stories daily. They were allowed to go to the library and check out books to read. These students knew that they were only just beginning to experience school life.

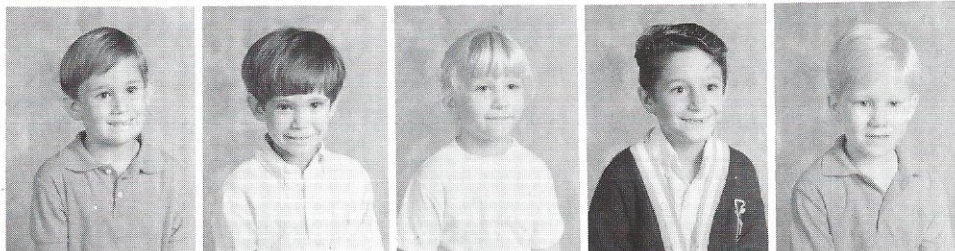

Cubby Huffines takes a break from his math work. The first grade advanced into addition, subtraction, multiplication and division this year.

Kindergarten

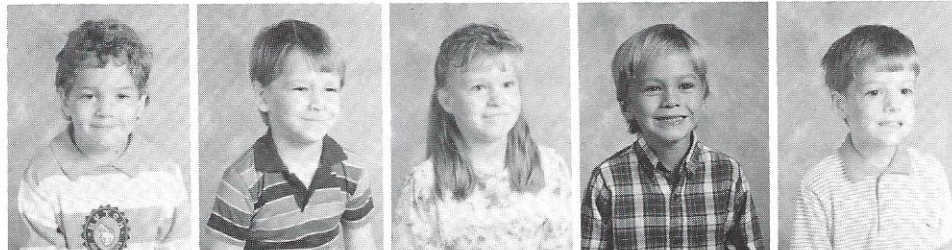

JUST THE BEGINNING

The first day of school for the kindergarten class was both exciting and scary. These students knew that they were beginning the most important year of their lives. They began their first year by learning the alphabet and the sounds that each letter makes, which is the first step in learning how to read and write. They then began to sound out basic words that they used everyday. They had games to play

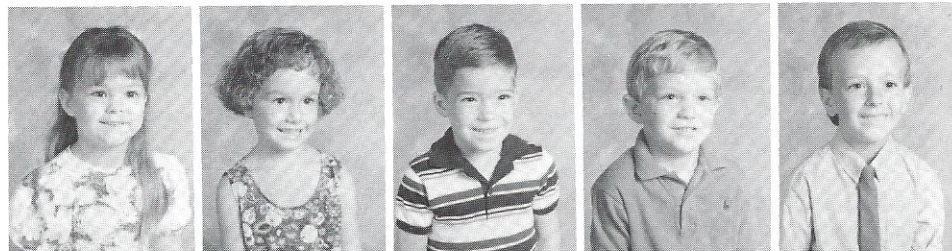

which helped make learning fun. After mastering reading and writing, they began to learn to count, to tell time, and how to count and spend money. The highlights of the kindergarteners days were the activities they participated in every week such as P.E., art, and library. They also enjoyed spanish and computer enrichment. These students were just beginning to climb the ladder of life.

"I enjoy teaching because I have the same hours as my children. I also like to see how the students react after learning something new." — **Carey Speaks**

Mrs. Brightwell sponsors the Storybook Parade to promote reading throughout the lower and middle school. Children enjoy dressing as their favorite character.

Faculty

"COACHES" IN CLASSROOM TRAIN STUDENTS FOR LIFE

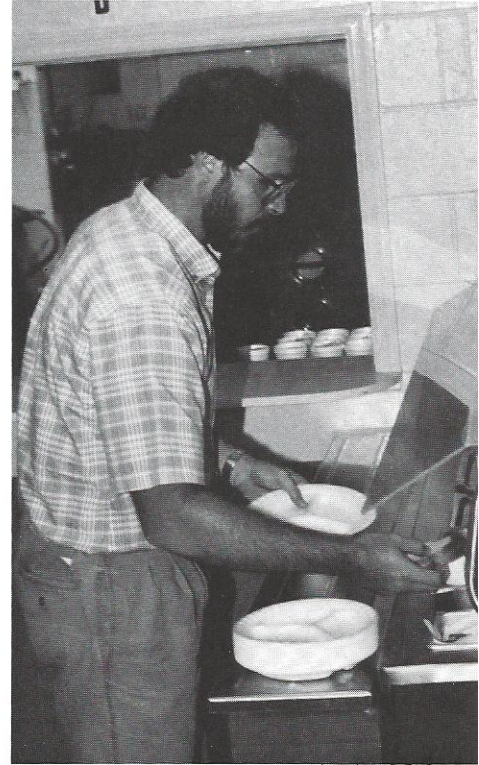

"Teaching here is a wonderful experience. Not only are the faculty members dedicated and well-qualified, but they are also my friends. We laugh, cry, advise and listen to one another and as a result are truly one of the strongest assets CPA has to offer," states Mrs. Janet Buckner, a 2nd grade teacher.

A typical day for a teacher runs the gamut from lunch order, playground duty, parent conferences, and paper grading. Once a month an in-service teachers meeting is held.

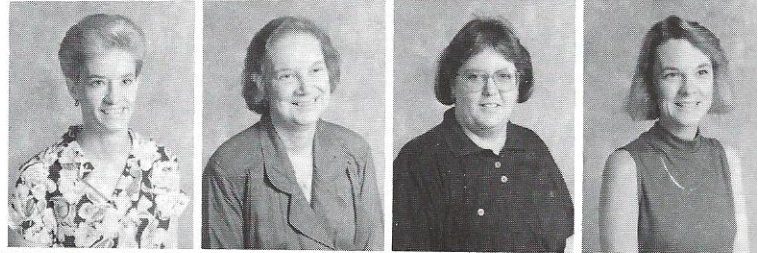

However, teaching has its light side too. The annual Christmas Party was held at Hummingbirds. Prior to Christmas, faculty members assembled in Mrs. Gail Howell's room to make designer sneakers to liven up their holiday wardrobe.

Faculty members and administrators face the challenge of educating our students for life beyond the halls of CPA.

Dr. Stone enjoys this delicious faculty lunch.

THANKS FOR THE MEMORIES

Term paper time! File cabinets overflow and reference books are piled up. Term papers are a dreaded but valued experience for all Seniors.

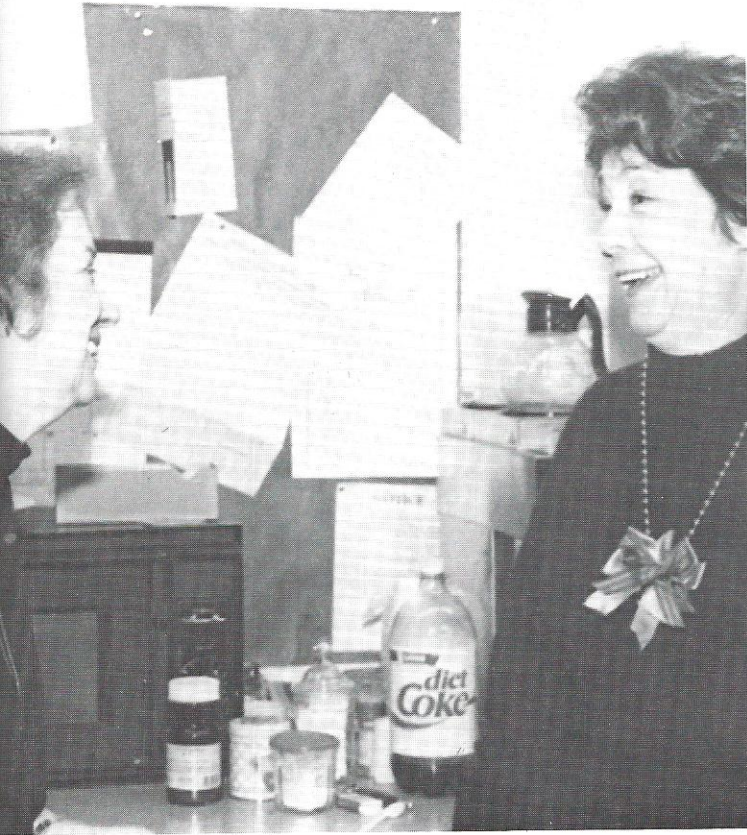

Mrs. Linder has become known as the "Holder of the Diploma". Seniors must pass her rigorous english class to be awarded the coveted sheepskin.

Finding appropriate words for a person who has come to symbolize CPA is not easy. Truthfully, three *Talon* editors, the advisor, and even Peggy Smoak worked on the dedication copy. What Senior won't remember, "Whan that Aprille with his shoures sootë, The droughte of March hat perced to the rootë . . ." Worth remembering also were the weekly vocabulary tests — spell "a lot", or the term papers that were always due the week after Spring Break. Mrs. Betty Linder has welded her skills here for the past 27 years, during which time she has seen 3 of her children and 1 grandchild graduate. Her grandson Will, will "just have to make do" without her guidance. Among faculty members, Mrs. Linder has been bestowed with the nickname, "Little Betty" for obvious reasons. With her wonderful sense of humor she has endured constant, fun-loving harassment from co-workers. The only "Little Betty" left to carry on will be Mrs. Goehring, whom we all feel sorry for because who will be on the receiving end of *All* the short jokes. With fond memories, we will bid one of our own a "happy, healthy, travel-filled retirement."

DEVOTED

Dedicated, patient teachers are not always easy to find. Two members of the CPA family exemplify this quality beyond compare. Mrs. Peggy Smoak and Mrs. Kitty Howell are two of a kind.

"The Mother of History", Mrs. Smoak finds it easy to make her history classes exciting and enjoyable. She teaches World History, U.S. History, Government and Economics. She is also involved with other school activities, mainly the Junior Class. Mrs. Smoak has served as their sponsor for many years, handling fund-raisers, settling disputes among the class and decorating for the prom. Her students consider her "one of the gang" and enjoy spending time with her, in and out of the classroom.

Although she has only been here four years, Kitty Howell has become a valuable asset to the Academy. She enjoys teaching the younger students and being involved with the older ones, through her son, Buck. Mrs. Howell was a librarian before she started teaching and she still loves to read.

Mrs. Smoak is always found with a smile on her face. Her laughter and high spirits keep the faculty on their toes. Mrs. Smoak was found sharing a joke with her backyard neighbor and very good friend, school secretary, Mrs. Nancy Beach.

As the Junior Class sponsor, Mrs. Smoak takes much responsibility handling the fund raisers and the Jr.-Sr. Prom.

Mrs. Howell is always willing to give her time to help students in need. Great teachers like this are hard to find.

Through the years, Mrs. Smoak has earned the respect and admiration from everyone who is involved with her. Her superior teaching ability and outrageous sense of humor make her loved by everyone.

Miss Talon

Lee McConnell

Senior, Lee McConnell, daughter of Earle and Tuck McConnell, served as *Talon* editor-in-chief for two years. Interested in sports, Lee participated on the C.P.A. championship tennis team, basketball team, and cheerleading squad. Lee was selected for the National Honors Society, served as senior class vice-president, assistant sports editor for the *War Hawk*, and was a member of the Science Club.

Miss Junior

Marie DeLoach

Marie DeLoach, daughter of Dr. and Mrs. Buddy DeLoach, enjoys playing tennis and softball.

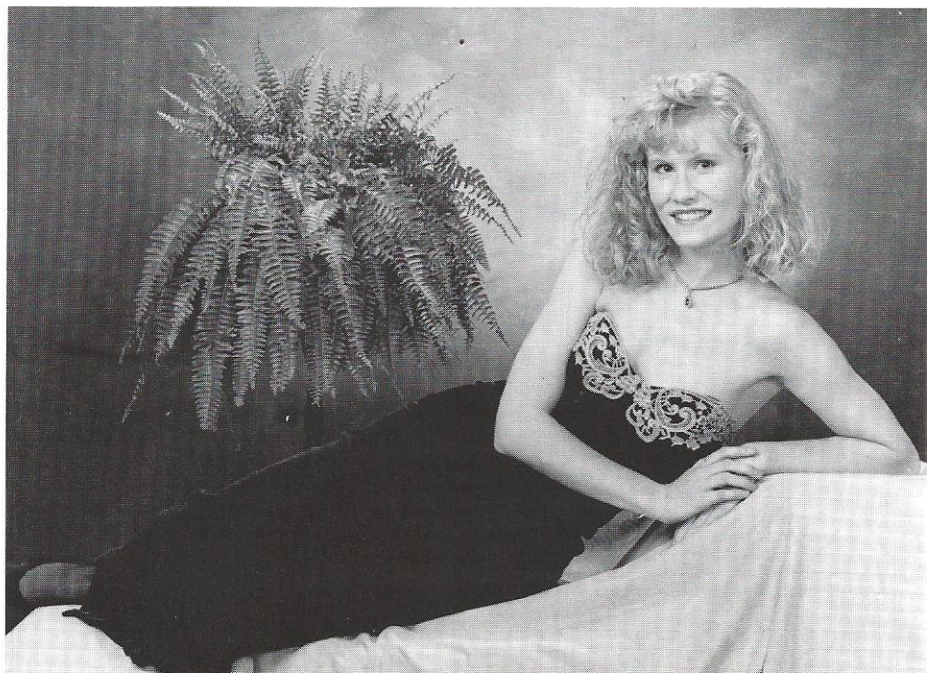

Miss Senior

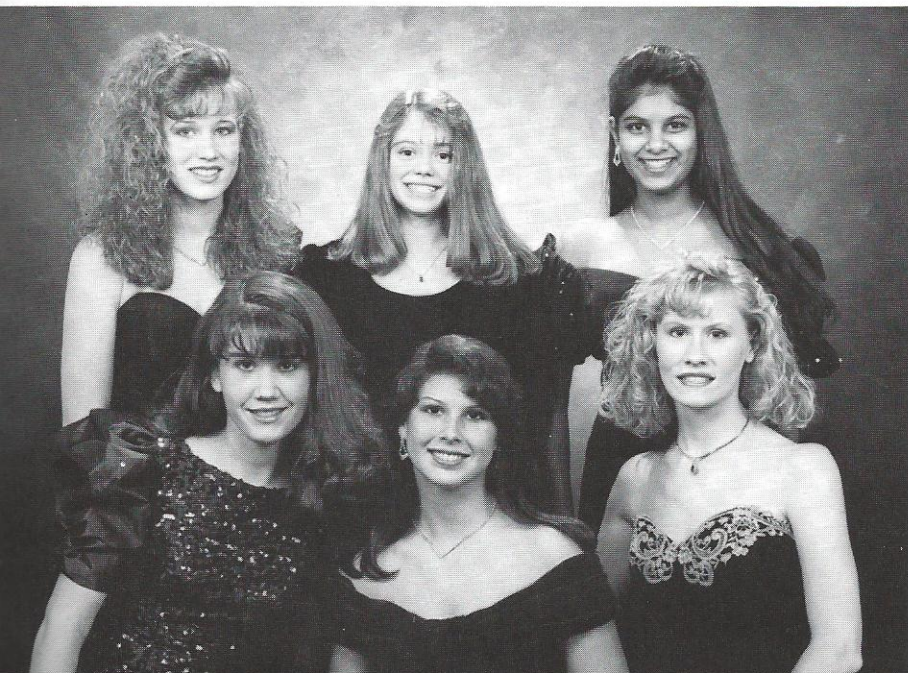

Rebecca Speaks

Rebecca Speaks, daughter of Mr. and Mrs. Howard Speaks, enjoys taking part in school activities and sports.

ACADEMICS

What does this mean? Carmon Valentine asks her classmates, Daniel Garris and Jon Baggett, what one of the terms mean. Students will often pull together for help.

Making Discoveries

Hands-on experiments answer the imperative questions related to the curious world of science

“

Doing science labs should be like opening a surprise package and finding something you really like. **Mrs. Griffith**

”

“Why?” and “how?” are important words in any science class, whether it be biology, or physics. Science experiments allow students to find the answers to those questions.

“I like working in the lab because you can see for yourself what you hear about in the classroom”, commented sophomore biology student, Tina Patel. Many other Colleton Prep students agree. Students look forward to working in the lab because they have a chance to observe science in action.

There always seemed to be a sense of excitement in the lab. Each time students performed an experiment they learned something new. The biology class dis-

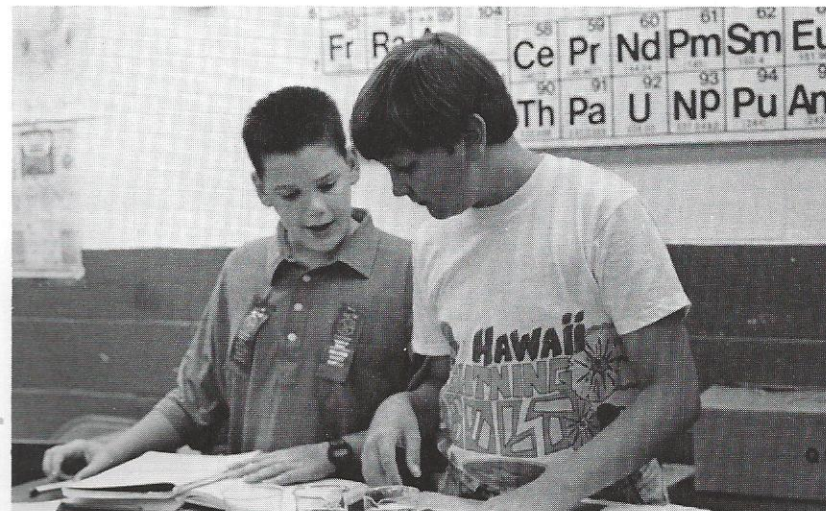

covered how the human body works while physics students made Scud missiles. Lower school classes also performed experiments, such as observing the motion of molecules. Mrs. Howell's fifth grade class discovered how sound waves move by observing the movement of a tuning fork.

Experimentation made learning fun by adding some variety to the science classes. Some students were even willing to stay after school and do experiments!

Comparing notes? Chad Spell and Jonathan Spell discuss a science experiment. By doing experiments, students learn to work together.

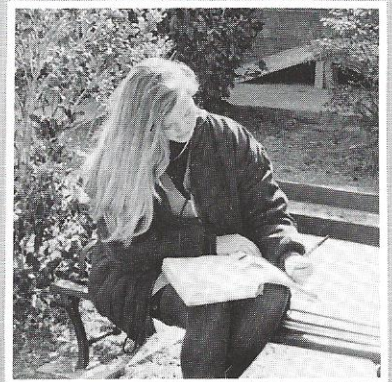

Freshmen Perry Hunt, Wanda Herndon, and Brandon Hiott observe the laws of physical science in action. Experiments allow students to continue learning while breaking the monotony of usual classroom work.

Biodegradable or not? Last year, fifth graders performed an experiment to determine which type of material was biodegradable. They buried plates made of paper, plastic, and styrofoam for fifty days. They then observed which was more decomposed.

Hitting The Books

Q Two tests? Tomorrow? Time to do some major studying! How do Colleton Prep students do it?

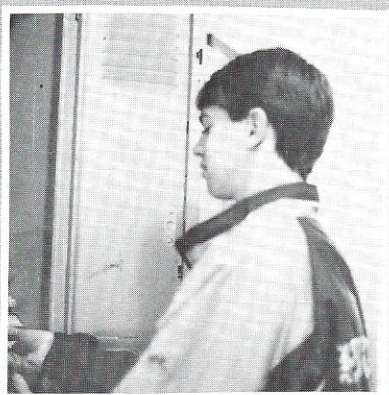

A Whether it's over the phone, during home-room, or in the hall at lunch, CPA students find creative ways to cram before the BIG test.

Don't spill it! Paige Headden and Lance Dennis watch as Holly Davenport carefully pours chemicals for a chemistry experiment. Safety is extremely important in the lab. Students are required to wear goggles and aprons when performing experiments.

Does this fit together? Junior, Jenny Blevins concentrates on putting together an origami figure in Mrs. Bazzle's class. Origami is the Japanese art of folding paper into decorative objects without cutting or gluing.

What's Your **EXCUSE?**

Q It never fails. The bell rings and you search your locker frantically, but no homework is found. What's your excuse?

A The excuses that can be heard, range from "I didn't get home until eleven" to "I left it in the car and my dad sold the car". There is no lack of creativity at CPA. Just ask the teachers!

How many? These kindergartners in Mrs. Howell's class are learning to count using blocks. This method of learning is easier for young children to understand. Since younger children have shorter attention spans, this hands-on approach keeps them excited about learning.

Who Needs It?

Because Everyone Needs Math, Alternative Methods Are Used To Teach Students And Interest Them In Learning

All tied up. Juniors, Marnie Amerson and Dan Dupre try to untangle themselves during an exercise in Mrs. Bazzle's class. Mrs. Bazzle provides fun activities during extra class time to break the routine.

“

Besides being fun, math is something everyone will use, not only in school, but everyday after they graduate. **Randee Ritter**

”

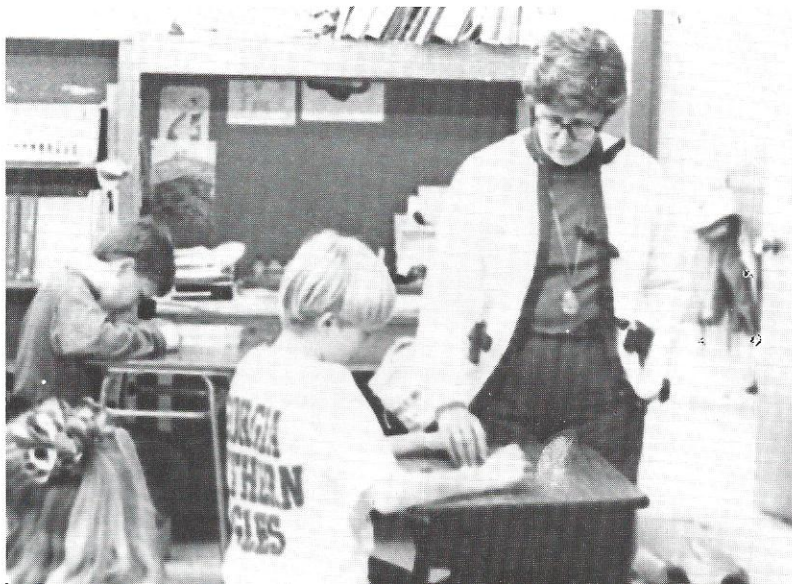

“Will I ever use this?” is a question commonly heard by math teachers. The answer is yes! Math is becoming increasingly more important due to changes in the SAT and increased competition for college acceptance. Students must master basic math skills before entering high school to prepare them for more advanced math and science.

The Saxon math series, now used in kindergarten and grades five through eight, is an incremental development program that uses repetition to help the students learn. New concepts are used along with old concepts and they are

practiced several times. This allows the students to become completely familiar with the concept and they are able to apply it to new problems.

In order to interest their students in math, some teachers let their students do math related puzzles and games. Math is an important part of life and the teachers at CPA are working hard to insure that their students will be prepared.

Mrs. Howell assists Mitch Mitchell, a fifth grader, in doing a math exercise using geometric shapes. Manipulative problems are used to help students learn.

Making The Grade

CPA again earned advanced accreditation from SCISA

“Accreditation means not only that the school is meeting standards, but also that we are committed to improving the quality of our programs. **Mr. Quarles**

”

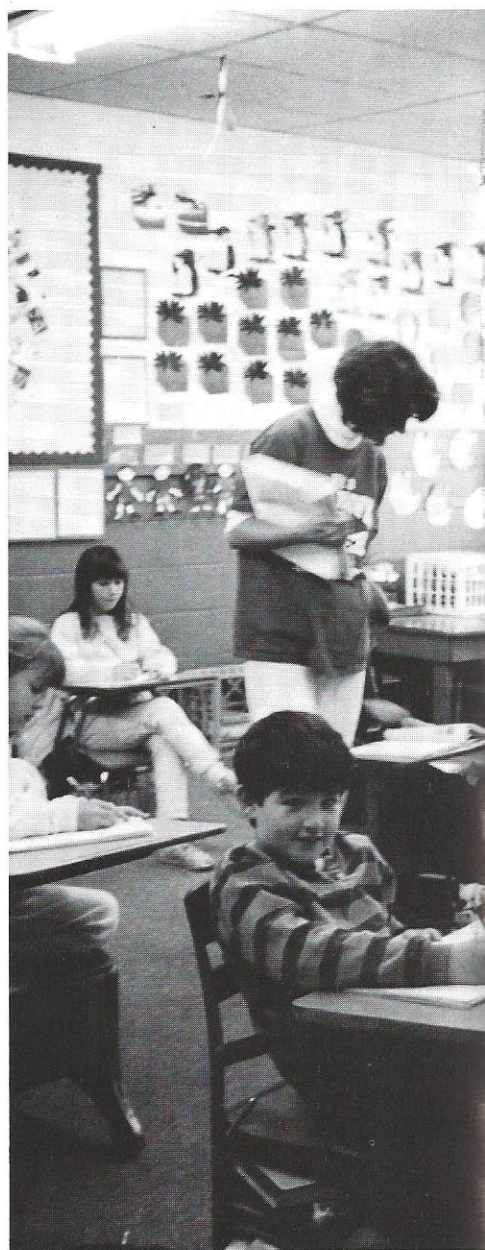

In November, the hard work that the faculty, students, and parents put into Colleton Prep was once again recognized. The school was awarded the level of advanced accreditation from the S.C. Independent School Association. Of the members of SCISA, only about 10 percent achieve this level.

A team of teachers, headmasters, and college professors evaluated the school in all areas, in-

cluding teachers, facilities, administrative policies and student achievement. For two days, the evaluation team observed classes, toured the facilities and even ate food from the school's lunch room. They then met with the student council. The team found that CPA had excellent programs, an innovative curriculum, a strong athletic program, and respect between students and teachers.

Dirty work! Freshmen Patrick Ritter, Ashley Woodward, Jon Bagget, and Perry Hunt clean up the school grounds to prepare for the evaluation.

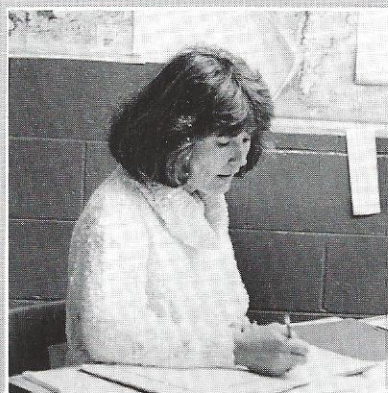

Mrs. Buckner, a second grade teacher, checks her students' work.

Overtime? Mr. Quarles uses a computer to compile information needed for accreditation. Along with the teachers, Mr. Quarles spent many extra hours preparing information for the evaluation.

Piles Of

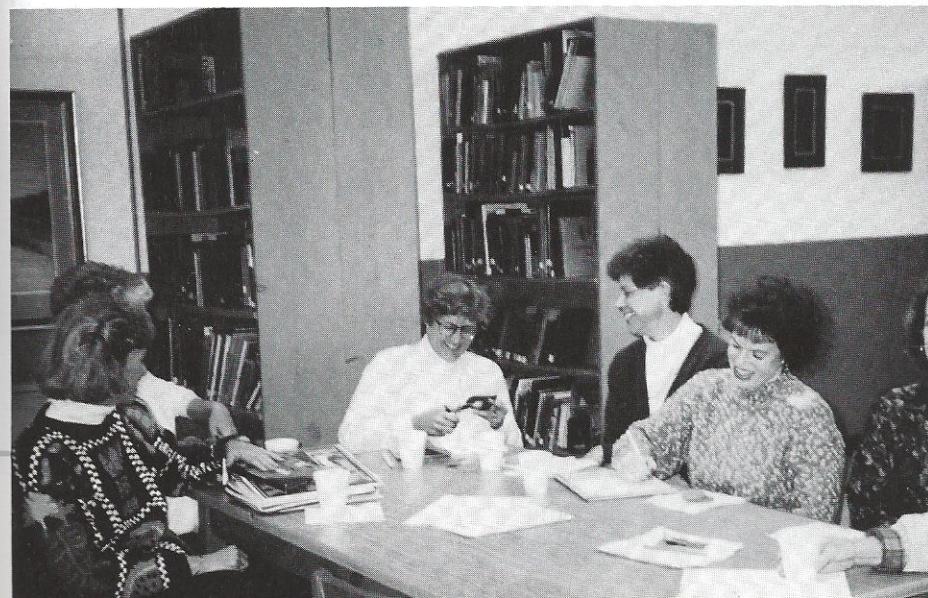

PAPERWORK

Q For the teachers, what was the hardest part of the advanced accreditation process?

A According to Mrs. Folk, "the most difficult part of being accredited was having to make out, for each class, lesson plans for the entire year."

"Working together, is the key to success." During the monthly faculty meeting, these teachers discuss their classes and ways of improving them. One thing the accreditation team notes in their evaluation was the teamwork among teachers.

Life Of A Lefty

Being left-handed can be difficult at times, however, leftys show they can be all right.

“

I like being left-handed because it makes you a little different from everyone else.

Tracy Tittle

”

A southpaw. A lefty. Most people don't think about being left-handed or right-handed. It's not really important. Is it?

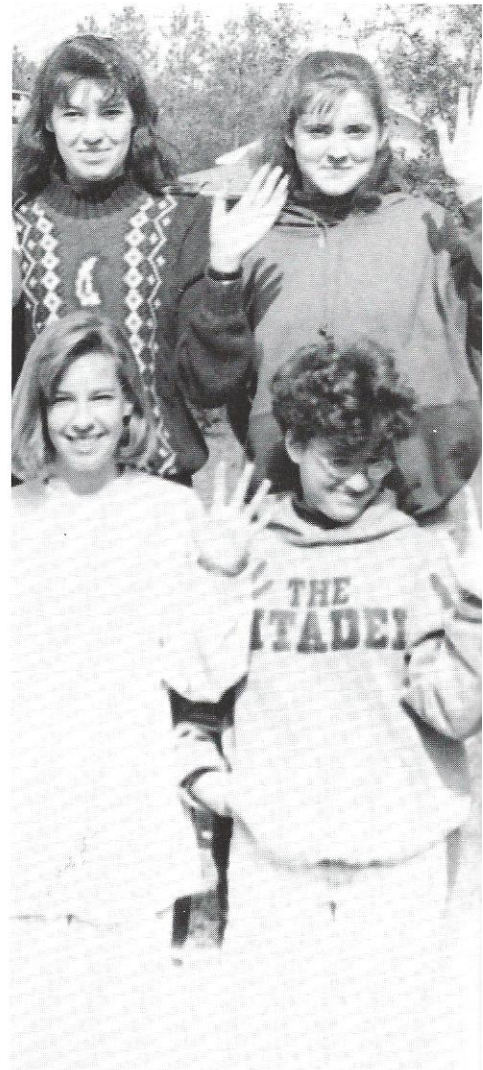

It is to a left-handed person. For them, it's almost impossible to write or cut something without special scissors and notebooks. Left-handed students also find it difficult to write while sitting in the right-handed desks. This is why some high-school students prefer the desks in Mrs. Griffith's room that have a separate desk top and chair.

Although being left-handed makes life a little less convenient, lefties never complain. They know that they are special and they enjoy being a little different!

Wendy Henderson, a seventh grader who is left-handed, concentrates on an assignment.

Mrs. Tabor writes an example on the board for her class. Mrs. Tabor, a middle school English teacher, is one of the few left-handed teachers at Colleton Prep.

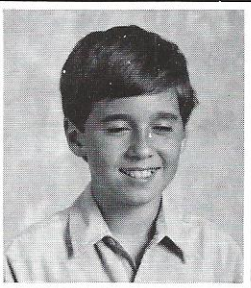

“Left is right,” say lefties Christina Aichele, Courtney Stevenson, Susan Drawdy, and Tracy Tittle. Waving to the camera is only one of the hundreds of things they do with their left hands.

Travel

Traveline

Every year at camp we all grow a lot closer among ourselves and other squads. The Senior girls had a great time but were sad the last day because this would be their last camp together. **Laurie Steele**

Dori Futch was chosen Walterboro's Young Woman of the Year 1992. She went to the state competition in Aiken, S.C. from August 4-10. Dori became well acquainted with other contestants.

For some people summer time means easy living but for students at CPA the summer meant a busy time. The summer remains a special part of the lives of students and last summer was no different. Many students traveled to athletic and leadership camps. Some even traveled to foreign countries. There is no way to say that the students of CPA did not stay busy over the summer. If they did nothing more than go to the beach, all students engaged in the unwinding process that always takes place over the three-month vacation. All students would have to say that this summer was a classic.

WHAT

June

Foreign Pals

The classic idea of visiting a foreign country appealed to many students. A group from the high-school studied for 12 days in Spain. They saw a bull fight, the Royal Palace, and The Prado, a famous museum in Madrid. Seville and Toledo amazed them with rich cathedrals and mausoleums of all Spanish Kings and Queens. **Paige Headden** said, "It was probably the hardest experience in my life, but I've never learned more!" They all agreed the shopping and Sting concert was the best part of the trip.

Miles Can't Separate Friends

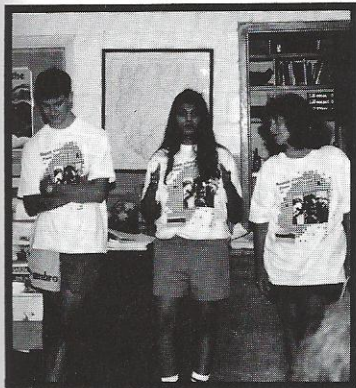

The Varsity and Junior Varsity cheerleaders and their sponsors, **Sandy Tyler** and **Corinne Brittle**, traveled to Columbia College on June 24-27 for camp. The UCA camp sponsored by SCISA taught the girls both important techniques for safety and new ideas and routines for their season. Seven cheerleaders participated in All-Stars. Both squads cheered for camp championship. The JV was awarded a trophy for their pom routine.

A SUMMER!

July

Just Say No!

In July, **Amy Carter, Tina Patel, Travis Folk, and Dargan Rowe** traveled to Coker College for Teen Institute. The camp was for drug and alcohol prevention. They participated in family groups and community time. They also had a team project. The camp helped each student become more educated about drugs and alcohol.

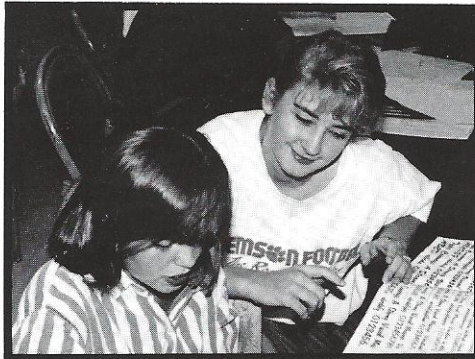

Leading The Way

Marnie Amerson, Holly Davenport, and Dargan Rowe were chosen to attend Leadership 1991. The summer leadership camp was held at Columbia College from July 28-30. They attended great classes on fundraisers, self esteem, motivation, and school spirit.

August

Memories

The yearbook provides us with special memories and good times. **Mrs. Hawes** held a special camp at CPA this summer to help the new staff members. The summer camp was from August 12-15. Each editor and staff member, received information about the upcoming year. Deadlines were set and everyone began the year of hard work.

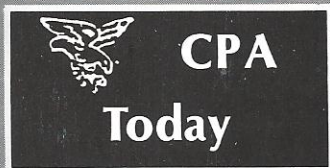

A Change In Tradition

For the first time in several years the Varsity football team traveled to camp this summer. Camp was held at Charleston Southern from August 12-16. They practiced long, hard hours all day preparing for their season. They scrimmaged many different teams. The boys learned new defense and offense routines and new exercises to get in better shape. Manager, **Robby Baggett** said, "It was a lot of hard work but it's worth it."

ACROSS THE SEAS

Foreign countries were busy entertaining CPA students over the summer. Seniors, **Lee McConnell** traveled with her grandmother to Russia. Their first stay was Shannon, Ireland where they saw the Cliffs of Moher, the countryside of Limerick, and ate a medieval dinner. Next, on to Moscow where they visited the Kremlin, the Red Square; and The Gold Armory Museum. They spent several nights in a Russian ship on the Volga River. Leningrad offered them the Hermitage, the winter palace of the czar's, and museums. The military was highly visible. The food was often served with fish. The only soft drink was Pepsi and dessert was ice cream. Lee enjoyed visiting a foreign country; she brought back many souvenirs for her friends such as: Russian eggs, Metiska dolls, and black lacquer boxes.

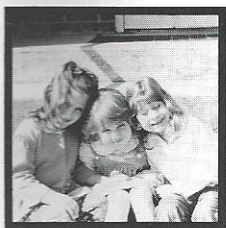

Life

Lifeline

Friendship is one of the most important parts of life. A good friend will always be there for you through the good times and the bad. In times of sadness, you can always depend on your friends to cheer you up.

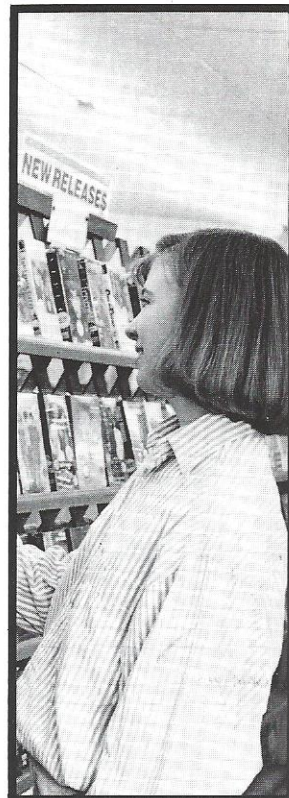

Friendship is like no other relationship on Earth. It is a special bond that people share with one another. A strong friendship is built out of love, trust, and honesty.

Having friends when you're young means having someone to play hide and seek with, to build a fort with, or to play Barbie's. As you become older, friends are people you spend the night with and stay up half the night talking and laughing. As you become a teenager, friends are people you call on the phone, people you tell your deep dark secrets to, and you may even end up dating a friend! Some deep friendships last well past high school or even college. "**May and Billy Goodwin** and I have been friends since high school. We went our separate ways only to renew our friendship." states **Mrs. Smoak**.

SO MANY SELECTIONS

Where to go? What to do? These are questions heard echoing through the halls of CPA on Thursdays as students make plans for the weekend. Parties, dating, and being with friends are always popular pasttimes for any high school student. Even though everyone looks forward to putting their books away for the weekend, Some people enjoy just staying at home and relaxing. Renting movies is a favorite activity for many students even during the school week. They are a cheaper and easier way to both have fun and to relax. There are always a large variety of videos to choose from: horror, western, or comedy. **Holly Griffith** said, "Usually we all get together as a group and watch a good movie."

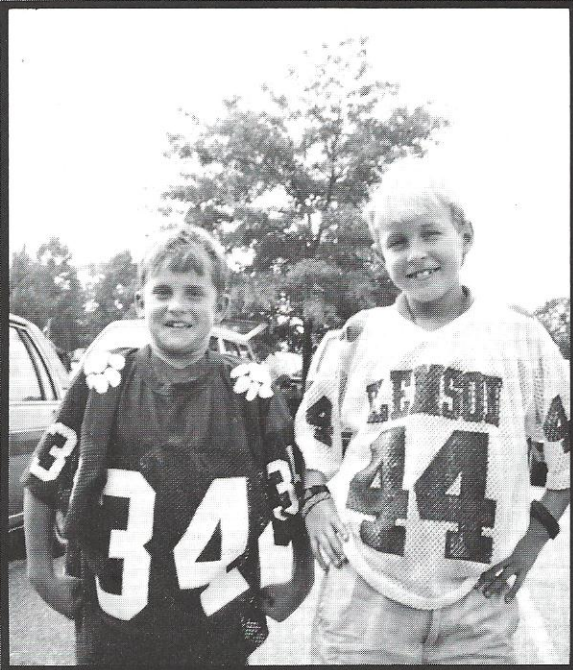

SCOUTS

Lower school students enjoy being involved in Girl Scouts. First they have to become a Brownie, and work up the scale. As a Girl Scout they go on nature walks, take train rides, and earn badges. They meet to discuss new ideas and make new items. They also get to carry the flag during home football games.

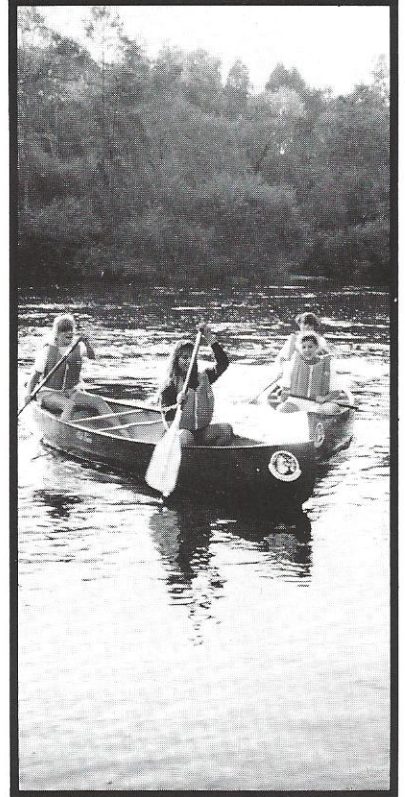

CLEMSON FANS

Tyler White and **Brian O'Quinn** are the world's biggest Clemson Tiger fans. They are all dressed up and ready to pull the Tigers through a tough game.

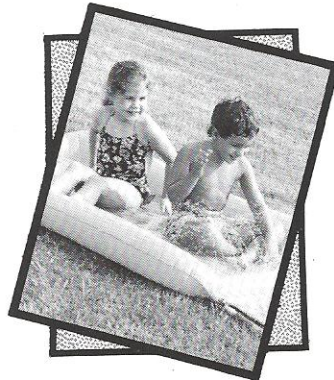

Row Row Row Your Boat

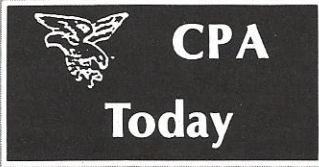

This year a new Science Club was organized by **Mrs. Deirdre Hawes**. This new club excited many students. They have held meetings to discuss upcoming events. They built birdfeeders and set them out to record the results. Also they camped out in Canadys. They canoed down the river and had a great time. Every member has enjoyed participating in new experiences. "My arms were tired afterwards, but the weather, food, and music were great," stated first time canoer, **Tina Patel**.

Check
✓ It
Out

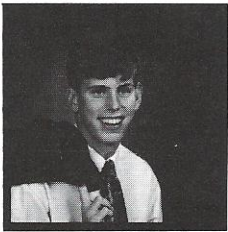

Teenagers are not the only ones to have great summers. Lower school students show their favorite activity of the summer as they play on the slip and slide.

Money

Moneyline

I loved living at Edisto over the summer. I had long hours to work at Texaco but I met lots of different people. The weekends were the best because everyone got together and we had a great time. **Griffin Warren**

This was my first summer at Edisto as a lifeguard. I lived in the barracks with 3 other guys. I worked almost everyday. It was fun but scary when you have to help someone in trouble in the water. **Mike Padgett**

Over the summer, many high students at Colleton Prep looked for work. Finding a summer job is hard work for students with little experience. Most students worked in town at fast food restaurants, the movie theater, or even small jobs around the neighborhood. Some students even moved to Edisto Beach and found jobs. The summer was a perfect time to make extra money and to have fun. Even though most of the high school worked they all agreed that the summer was great with extra cash in their pockets. Many spent their extra money on clothes and movies. While more thrifty students used their money for gas or car expenses. In the words of Dori Futch, "I spent my money on anything my mother wouldn't buy for me."

A New Cinema

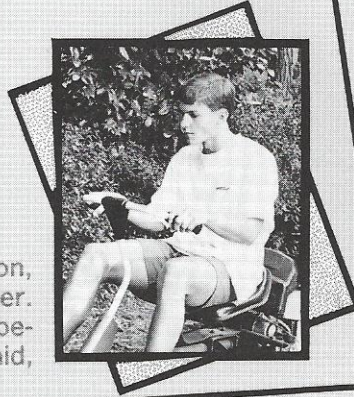

Finally students have a place to go to the movies without having to travel all the way to Charleston. This year a new movie theatre was built in Ivanhoe shopping center. This was a new opportunity for entertainment and many job offers. Senoir, **Donna Stringfield**, was hired to

work in the snack bar. She worked almost every day during the summer and continues to work this school year only on weekends. Donna sells drinks, popcorn, and candy. She says, "It isn't hard work and I get to see all my friends that come in."

For over a year, **Kristie Smith** has been working at Hiott's Pharmacy on Washington Street. The pharmacy is a family owned business operating for many, many years. Kristie enjoys working in the refreshment center. She works every other day after school and on Saturdays. "I have met so many interesting people and learned so many valuable lessons, I will never forget." Kristie serves drinks, sandwiches, and candy. **Holly Davenport** also works at Hiott's. Also, **Landis Williams** is a substitute; she has been trained to fill in whenever she is needed.

Check ✓ It Out

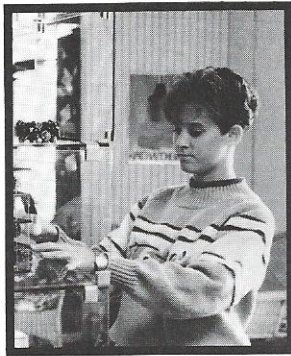

Craig White and **Josh White**, no relation, started their own line of work this summer. They cut grass for neighbors and soon became very popular all over town. Josh said, "It was easy money."

In The Office

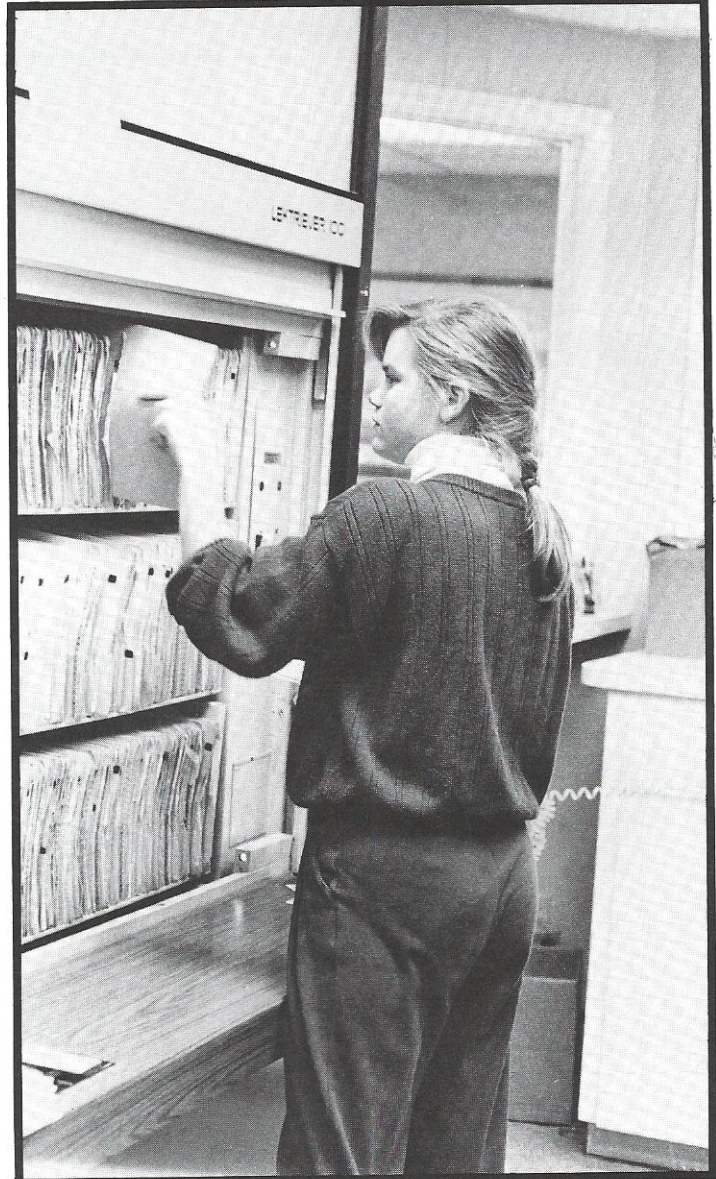

Cope Johnston, a Junior, works side by side with her father, **Dr. Johnston** at **Walterboro Family Medical Center**. She enjoys helping others that are sick.

FOOD!!

Seniors, **Shelley White** and **Rebecca Speaks** work at **Merle Norman Cosmetics** which is owned by **Sara White**. Shelley and Rebecca alternate their hours every week in order to work separate shifts. Mainly, they sell make-up. During the summer their primary job was sterilizing the tanning beds. The store offers a variety of any shade of lipstick, blush, or eye shadow. Also, they sell jewelry and accessories. Merle Norman has two tanning booths inside the shop for customers for a monthly rate. Rebecca states, "I've always loved coordinating makeup — so this job was perfect."

Shopping?

Detra Stanfill, also a Senior, started work over the summer at **Belk Hudson** as a cashier. She works every day after school coordinating clothes. She loves her job but enjoys getting time off so she can spend time with her boyfriend.

“

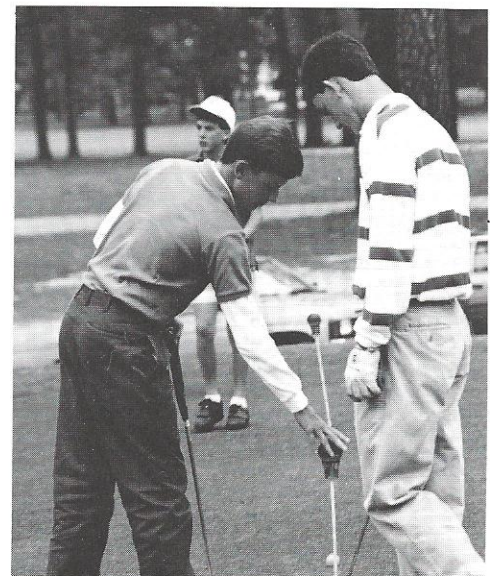

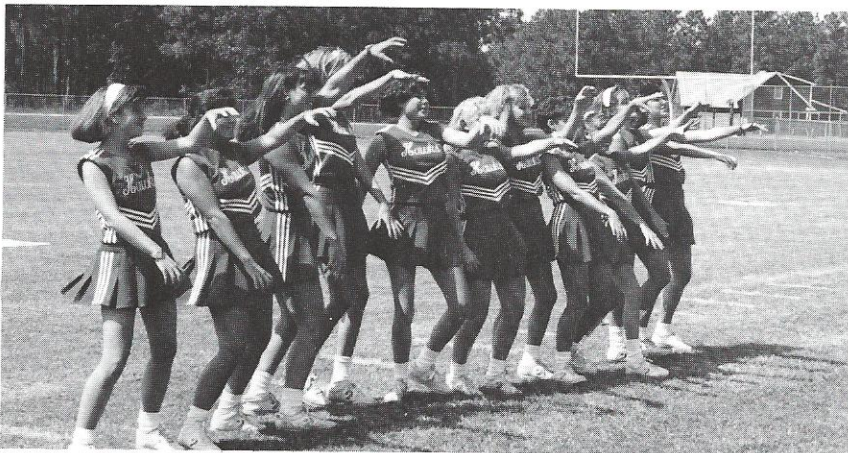

The greatest thing about our tennis team is that we pull together and support each other. Winning STATE was the BEST, I only wish I had one more year to play.

D

Spring Tradition Of Baseball Continues

iamond Days

As spring lazily rolled around again, the students at CPA were busy studying for those tough last semester exams and dreaming of the upcoming summer which was close at hand. Putting aside these feelings of spring fever, a group of dedicated boys spent every afternoon at grueling practices, perfecting their catching, running, and batting skills. These long, hot hours of hard work paid off when the team proudly walked away with a victorious season.

The Hawks opened the sea-

On the mound, senior, Michael Smith prepares to pitch yet another game for the Warhawks. Hard practices everyday after school have proven to pay off in his pitching and playing abilities.

son with an enormous defeat over Dorchester Academy, 20-2. The team was badly upset by Orangeburg Prep. twice during the season. The Warhawks closed the season with eight wins and seven losses. The team was placed as runner-up in the regular season.

At the 1991 Athletic Banquet, Michael Smith was named Most Valuable Player. Rodney Murdaugh was awarded "Best Glove" while Jason Jones earned the best batting average.

Coach George Brittle quickly describes the best strategy the team should use to defeat the Dorchester Academy Raiders. Teamwork and togetherness played an important role in the strength of the Hawks. The friendships between the boys, on and off the field, make it easier to work together as one strong, unified team. Although individual skill is instrumental, combined effort pulls the Warhawks through.

Senior, Wesley Jones steadily focuses on the next pitch. Baseball is a very intense sport which combines talent, skill, and concentration. A player must have perfect timing in order to meet the ball with the bat, especially considering the great speed of the pitch. Also, the players on the field must have ability to judge the depth and speed of the ball coming toward them in order to make a perfect catch.

Varsity Baseball Team — (Front Row L-R) Wesley Jones, Rodney Murdaugh, Shannon Pellum, Owen Brittle, Lance Dennis, Archie Murdaugh, Mike Padgett (Back Row L-R) Thomas Brittle, Coach George Brittle, Andy Blevins, Jason Jones, Buck Howell, Asher Howell, Michael Smith, and Coach Mike Green.

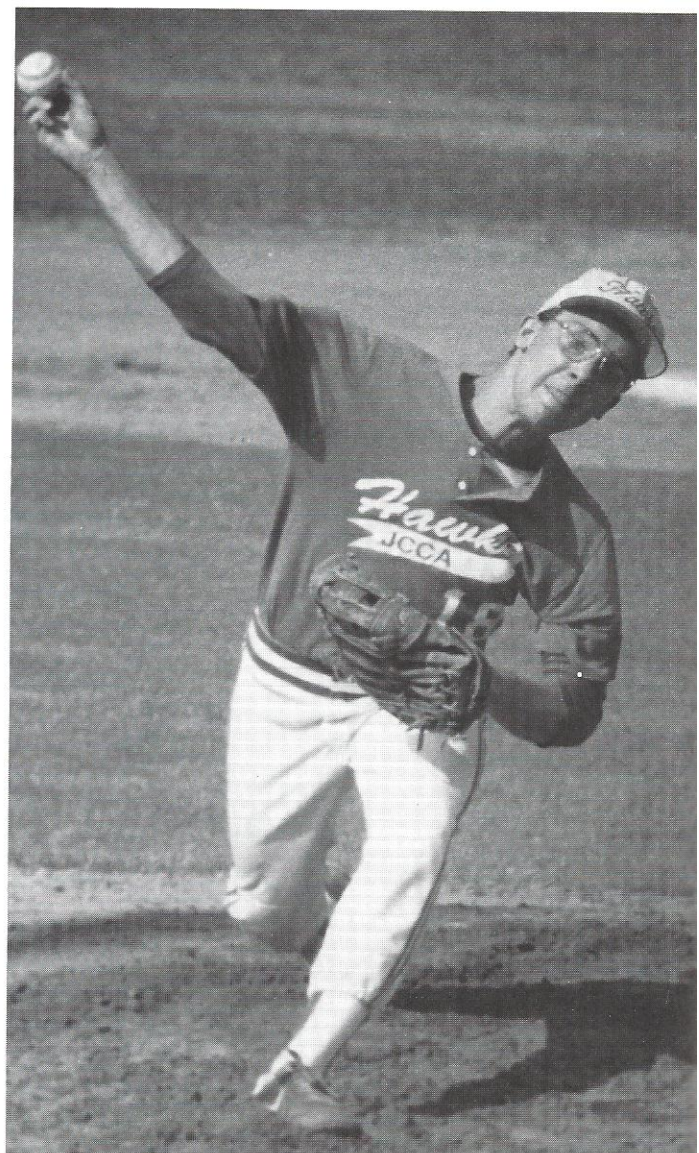

Senior, Rodney Murdaugh, on first base, intensely awaits the opposing team's fast-moving hit. Second baseman, Lance Dennis, gets ready to back him up, if necessary. Working together like this helps the team to get another easy out. The Hawks have a great sense of teamwork.

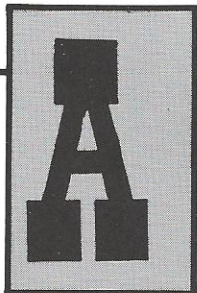

Kneeling L-R — Frankie Kellam, Joe McConnell, Jamie Floyd, Gene Alderman, Perry Hunt, Chad Rowe; standing — Owen Brittle, Coach George Brittle, Troy Deloach, Jason Strickland, Ashley Woodward, and Coach Mike Green; not pictured — Garner Regenovich, Wes Pye, Shaw Regenovich, William Southard, and Kin Kinsey.

Second baseman, Lance Dennis, prepares to throw the ball to home plate to stop the Rebels from scoring. Hand-eye coordination plays a major part in the success of a baseball team, and Coach Brittle makes sure the players perfect their skills during practice.

Michael Smith hurls the ball toward the plate as the anxious batter prepares to strike out again. Michael's pitching skills proved to be an asset to the Warhawk team. As a graduating senior, Smith will be greatly missed and will be a teammate, hard to replace.

Changes Bring A Good Season

Fresh Start

The 1991 Lady Warhawks, with a 6-8 record, had a tough but good season. The team practiced every afternoon, hoping to perfect their batting and catching skills. These long hours did not only produce a strong softball team but also a family was formed. The girls helped and supported one another through wins and losses. This caring attitude was seen especially during the game against First Baptist. Laurie Steele, a junior, broke her wrist badly. The Lady Hawks, who were losing 0-12, vowed to win the game for their injured teammate. The determined girls came back

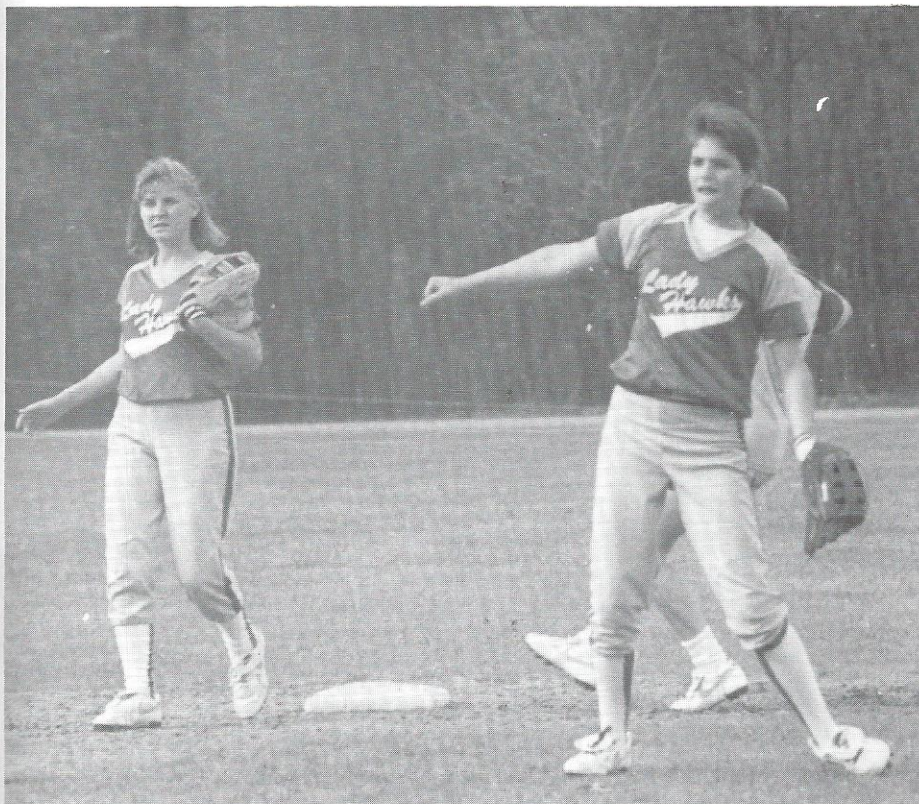

Running to first base, Stephanie Padgett, eighth grader, thinks ahead in hope of making it home for yet another score for the Lady Hawks. Speed to run bases is important to the team.

to win 17-16.

The Warhawks were led by Coach Corinne Brittle. As a new coach, she learned a lot from the girls as they learned a lot from her.

The year proved to be a learning experience for the whole softball team. This year's team was young and somewhat inexperienced although the girls proved that youth was not a handicap. Because there were no senior team members, the Lady Hawks will return together again for an even better season.

Laurie Steele, junior, and Amber Bishop, freshman, hustle off the field after completing another three outs against the First Baptist Hurricanes. Energy and the ability to try and try again is what got the Lady Warhawks through the season. Pep talks and words of encouragement between innings boosts the girls' confidence and makes them want to strive even harder. This buzz of excitement and zeal for winning is present at every game. The players want to win for each other.

As Dargan Rowe, sophomore, goes up to bat, she is encouraged by her teammates, who look on hoping to score. Donna Stringfield, junior, Jennifer Carter, junior, and Lindsay Davenport, seventh grader, cheer for Dargan while waiting for their turn at bat. The softball team's spirit helps them try harder to win as well as boosts confidence.

Amber Bishop pushes all other thoughts out of her head and concentrates only on the ball. Softball is not the only extra-curricular activity that these girls partake in. They all seem to find time to juggle softball in with their jobs, school work, friends, and boyfriends.

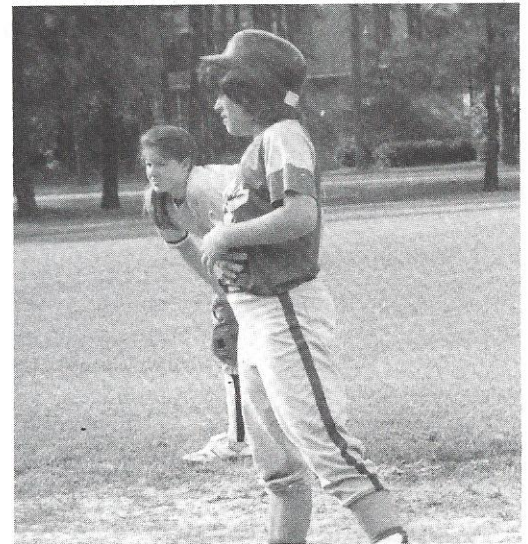

Donna Stringfield, junior, sets up for the pitch as former softball coach, Jim Harmon, looks on. The team also looks on and pulls for Donna to hit a homerun and allow the Lady Hawks to score again.

Safe! Tiffanie Lee quickly scrambles to first base before her opponent has time to recover the ball and tag her out. The fans cheer her on, they love seeing exciting, close calls such as these.

Sitting L-R — Christina Ferguson, Donna Stringfield, Angela Hale, Collette Bailey; kneeling — Dargan Rowe, Lindsay Davenport, Jennifer Carter, Laurie Steele, Stephanie Padgett; standing — Susan Drawdy, Amber Bishop, Tiffanie Lee, Jennifer Jones, Tracy Tittle, and Coach Corinne Brittle.

Standing on second base, preparing for the hit, eighth grader, Stephanie Padgett anxiously awaits runner to third. She eventually ran home and scored helping the Lady Hawks defeat First Baptist 17-16.

Tracy Tittle reaches out as far as possible to catch the ball and tags her opponent out. Angela Hale quickly runs in to help. These talented players are only freshmen and have several more years to play.

S

Headed To State

etting A Record

The 1990-91 Varsity Golf team concluded a winning season with a record of 10-6-1. Long practices in the hot sun sometimes seemed to be a waste, but the skills gained by the team members proved to be worth their while. At the State Golf Tournament, the team earned fourth place, while Ginger Speaks placed second and Shelley White placed fourth in the girls' individual rankings.

Coached by Danny Parnell, the team's determination and dedication showed great ability and success.

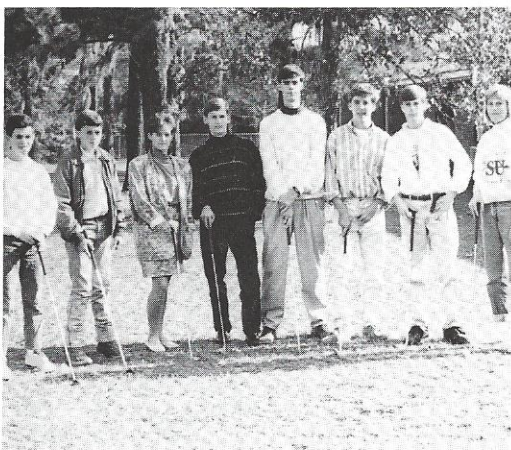

Warning: Golf can be hazardous to your health. It looks like this "friendly" fellow at Dogwood Hills Country Club has been disturbed! You better watch where you walk!

1991 State Tennis Champs! The words sounded like music to the ears of the Colleton Prep students and fans. It meant even more to the seven dedicated girls who brought the team to victory.

The tennis team, coached by Bobby Nelson, made it to the state play-offs after a fabulous season. Although many of the girls were young, they proved that they were not inexperienced. Demanding practices everyday gave them the skills and strength that they needed to take CPA to the top.

After Kimberly Smith's victory, she shakes the hand of her opponent and congratulates her on a match well played. The War Hawk team members know that good sportsmanship is the name of the game.

After the tennis team's victory over Thornwell during the semi-finals, they advanced to the state play-offs and won state. Garnett Johnston played the longest match of the season (lasting 3½ hours.)

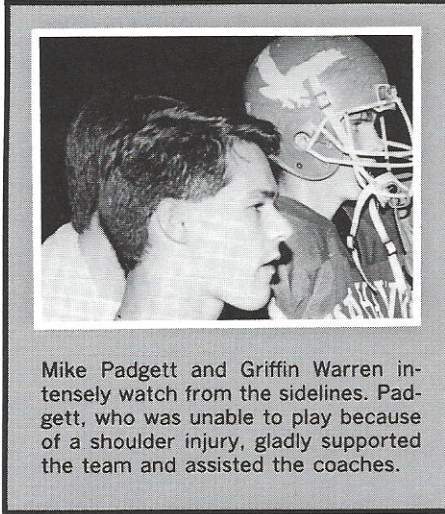

Give It All You Got

ARD-HITTING

What could be better than an exciting football game on a cool, crisp Friday night? Nothing, as long as the Hawks are playing!

The 1991 Varsity Hawks, coached by George Brittle, along with Danny Parnell and Mike Green, did not have a winning season, but the games were intense and many were close calls. With the loss of ten graduated seniors, the younger boys had big shoes to fill. Their hard work paid off when many of the lower classmen found themselves in starting posi-

Mike Padgett and Griffin Warren intensely watch from the sidelines. Padgett, who was unable to play because of a shoulder injury, gladly supported the team and assisted the coaches.

tions. The experience gained by these boys will benefit the team for years to come.

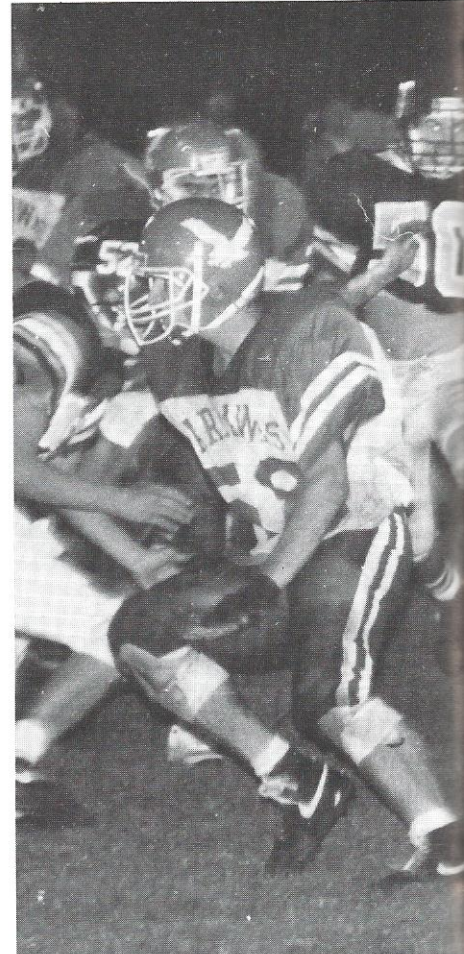

With a record of 2-8, the Hawks had a tough season. They were victorious only over Jeff Davis and at Homecoming against Country Day. The rest of the season was disappointing for the team. Many key players were unable to participate in the last few games because of sickness and injury.

The Hawks appreciated the help of managers Robbie Baggett and Archie Murdaugh and statistician Walter Fralix.

Craig White, junior, uses his famous fancy footwork to dart through a hole that he has spotted in the defensive line. Extensive running drills during practice gave the Hawks the speed and agility needed to perform these tricky moves.

Marshall Morehead, Lance Dennis, and Jason Bryan block their opponents to help Craig White head straight to the endzone for another touchdown. The whole team is responsible for scoring, not just the player who makes the touchdown or the one who throws the great pass.

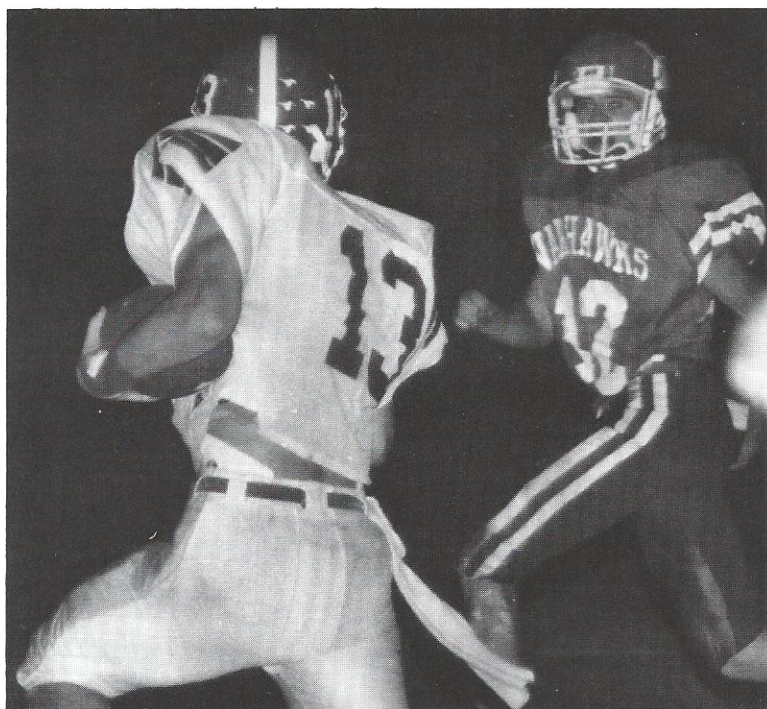

Jason Strickland, sophomore, receives a pass and breaks through the defensive line of Jefferson Davis. The offensive blockers play an important role in this play by opening up the middle for Jason to run the ball through. This gain of yardage along with other good plays led to several touchdowns which won the game against Jefferson Davis with a terrific score of 28 for the Warhawks, and 0 for Jefferson Davis.

For the Record

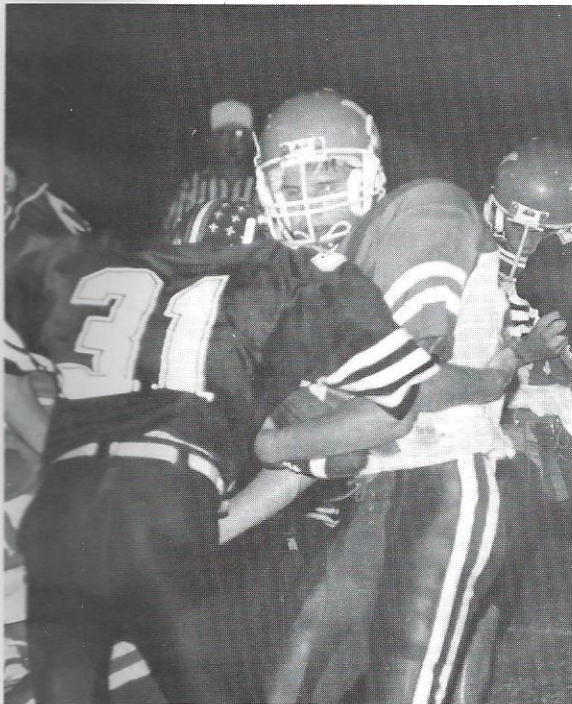

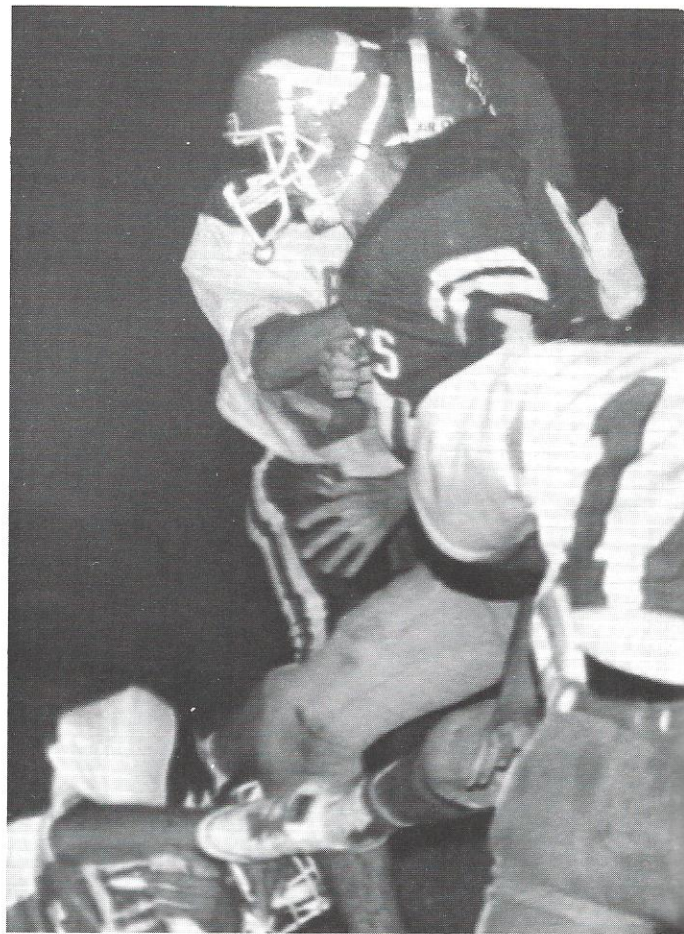

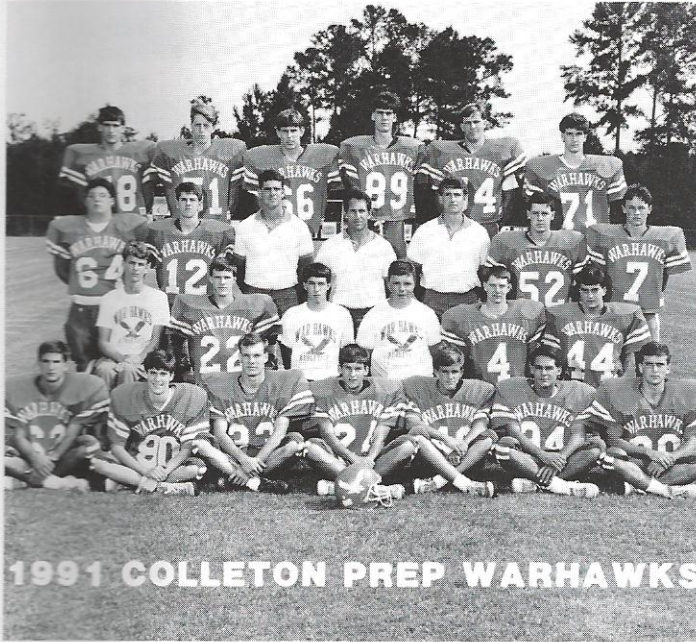

OPPONENT	WE	THEY

Sea Island	12	14

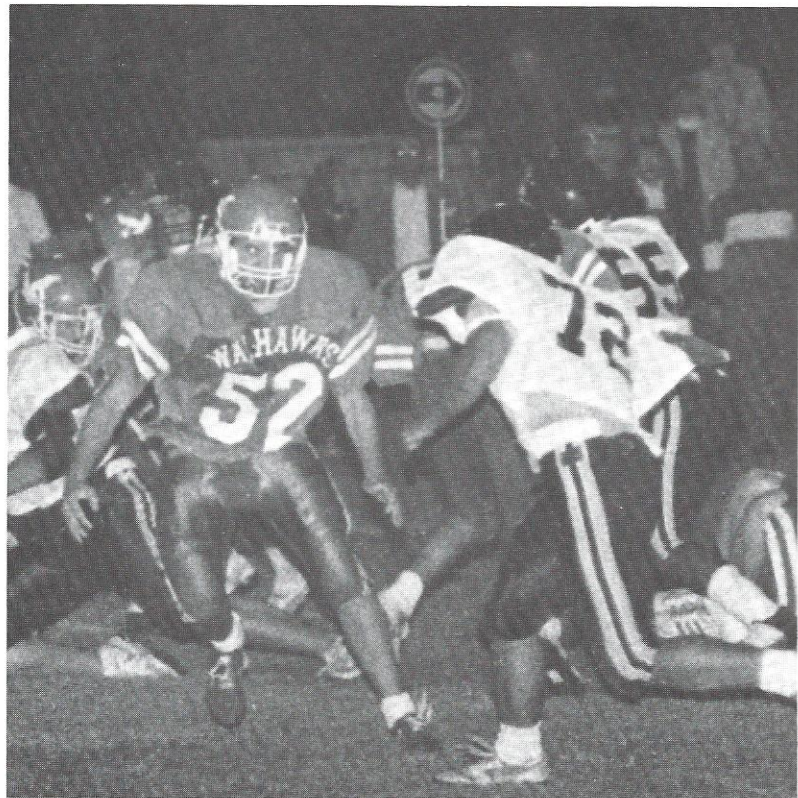

Shaw Regenovich, sophomore, totally concentrates on his opponent and the ball, in order to regain possession for the Hawks. The players must be aware of where they are supposed to be, who is behind him, and which play is being performed. Only through actual experience on the field are these skills mastered.

The aggressive Warhawk offensive back sprints down the field, not caring how many Raiders he tramples in order to score! The Hawks' desire to win and their pride for their school make the games exciting.

1991 Varsity Hawks: Row 1 (L-R) Pat Padgett, Clay Folk, Andy Blevins, Craig White, Bert Sweat, Mike Padgett, Daniel Strickland; Row 2 (L-R) Walter Fralix, Lance Dennis, Robby Baggett, Archie Murdaugh, Jason Jones, Jason Strickland, Row 3 (L-R) Trey Asbelle, Shaw Regenovich, Coach Green, Coach Brittle, Coach Parnell, William Southard, Wes Pye, Row 4 (L-R) Marshall Morehead, Jason Bryan, Griffin Warren, Josh White, Buck Howell, Travis Folk

Lance Dennis, searches for a way out of his opponent's trap. The Warhawks had a very tough season with the loss of ten graduates seniors, but the season was one of rebuilding.

William Southard gets eye contact with his opponent from Victory Christian before he makes the tackle. Now the ball carrier is free to run toward the endzone and make a touchdown for the Warhawks. The boys on the team learned how to work well together.

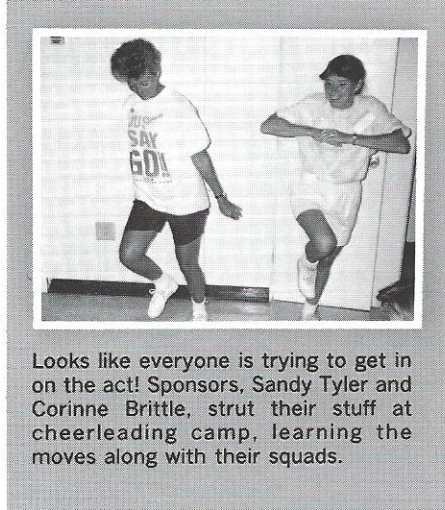

B

High Spirit And Hard Work

BEHIND A SMILING FACE

Spirited, loyal, energetic, dedicated ... Who do these words remind you of? The 1991 Varsity Cheerleaders, of course!!

This enthusiastic bunch, sponsored by Sandy Tyler, worked very hard. Even before the school year started, the girls spent hours creating an original dance to perform at the Football Jamboree. They spent a week at Columbia College attending camp, where they learned many chants, cheers, and dances. They practiced stunts and techniques which are crucial to the cheerleaders' safety.

Looks like everyone is trying to get in on the act! Sponsors, Sandy Tyler and Corinne Brittle, strut their stuff at cheerleading camp, learning the moves along with their squads.

The squad spent a lot of time painting posters and decorating the gym to welcome the opposing teams. Their hospitality and good sportsmanship earned them the respect of other schools.

Captain Kristie Smith, along with Co-Captain Holly Davenport, led the squad and made sure that there were no mistakes. Practice was always necessary before the squad was ready to perform with perfect rhythm and timing.

Laurie Steele listens with great curiosity as a group of cheerleaders discuss the latest gossip. Painting signs and posters gives the girls time out from the demanding practices to relax and talk.

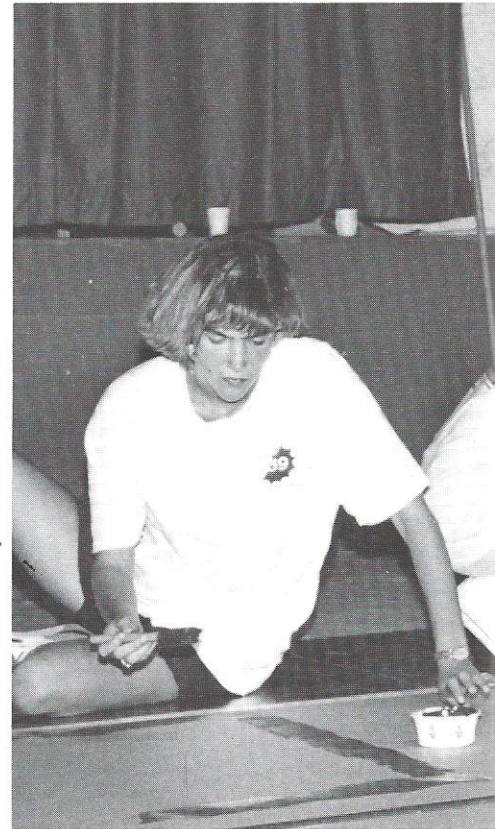

Laurie Steele, Landis Williams, Lee McConnell, Shelley White, and Kristie Smith pose together one last time at cheerleading camp. As seniors, these girls think back on all the fun times spent together as a squad.

Landis Williams, Kristie Smith, Harper Kinsey, and Laurie Steele work to make their poster perfect. The cheerleaders use a lot of their spare time doing special things to promote excitement and spirit.

Have Paige Headden and Holly Davenport jumped back in time? It looks that way, but actually, they are just participating in a spirit day during Homecoming Week. Hippie Day was a favorite among CPA's "flower children".

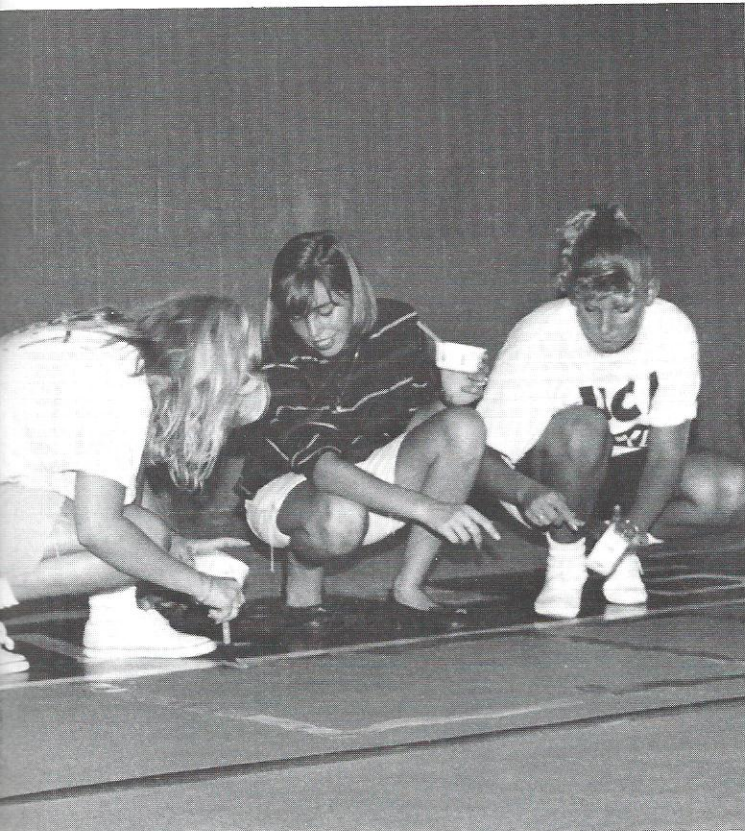

Landis Williams dresses up like Robby Baggett in a funny skit during a pep rally. At pep rallies, students show that they really care about their team and school. The cheerleaders work very hard to make these pep rallies successful.

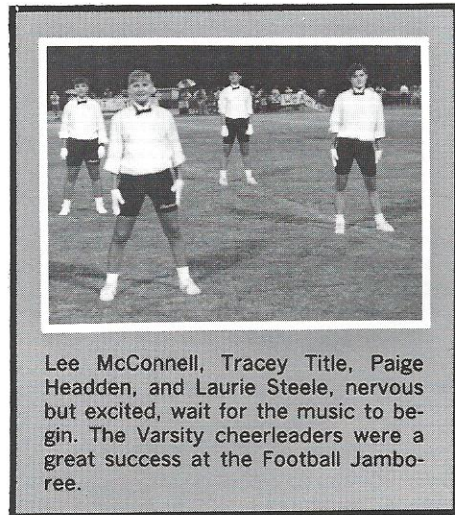

1991 Varsity Cheerleaders: Standing (L-R) Tracy Tittle, Holly Davenport, Landis Williams, Lee McConnell, Susan Drawdy, Laurie Steele; Kneeling (L-R) Harper Kinsey, Paige Headden, Kristie Smith, Holly Griffith.

The precise motions and perfect timing prove that CPA cheerleaders have talent and coordination. But, the most important thing is lots and lots of practice! Many hours of hard work are required before the squad is actually ready to perform.

Lee McConnell, Tracey Title, Paige Headden, and Laurie Steele, nervous but excited, wait for the music to begin. The Varsity cheerleaders were a great success at the Football Jamboree.

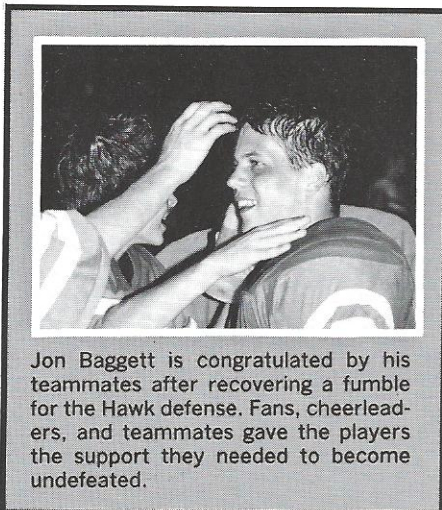

W

A Season Worth Remembering

ON IT ALL

The 1991 J.V. Football team had a spectacular season. They boasted a record of 5-0, making this year one of the best. Hard practices everyday, summer football camp, and almost no free time led to many exciting games. The team was much more than just football players — they were a group of young men out to make their school, coaches, and parents proud of their accomplishments. Full of pride and determination, the teams' urge to win always brought them to victory.

Thanks to Head Coach, Mike

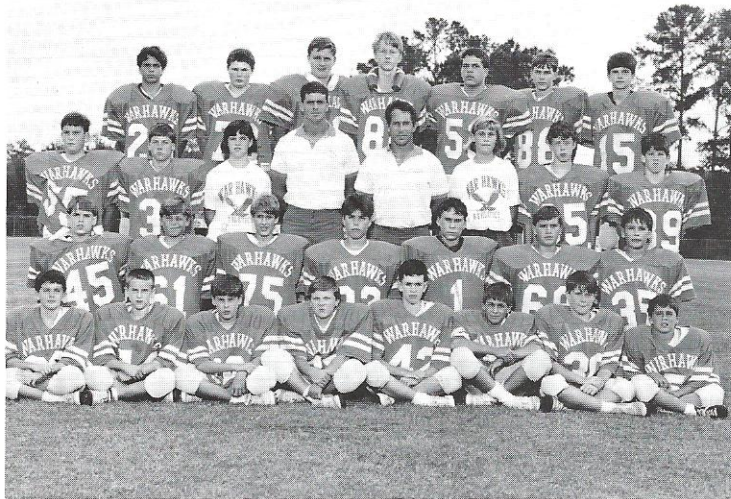

Jon Baggett is congratulated by his teammates after recovering a fumble for the Hawk defense. Fans, cheerleaders, and teammates gave the players the support they needed to become undefeated.

Green, the young team was taught not only the fundamentals of the game, but also the fine points. Complicated and flawless plays made the team what they were this year.

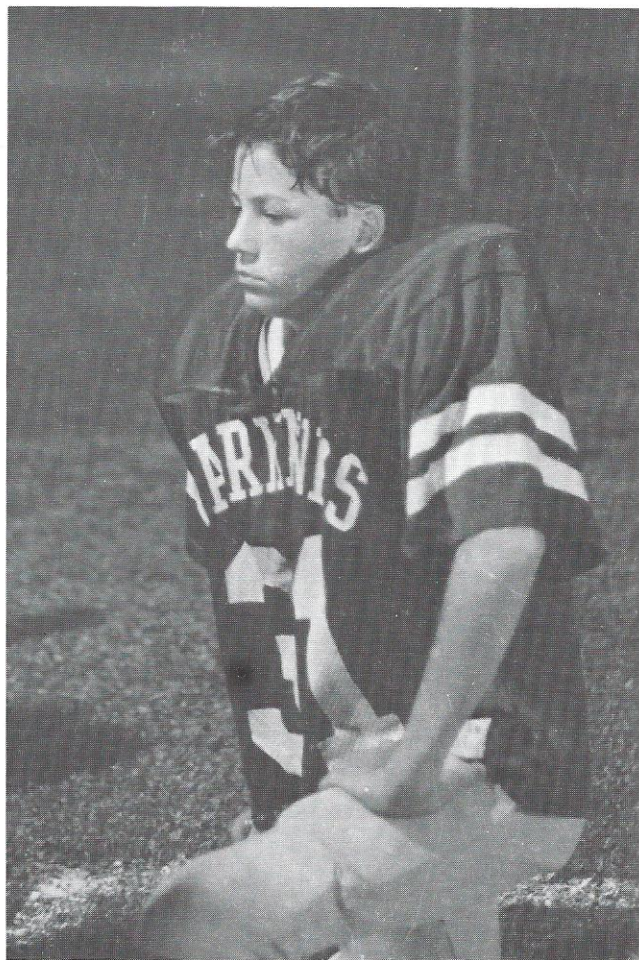

The Warhawks experienced almost no disappointment or pain during their triumphant season until Hunter White, a seventh grader, broke his arm during the game against Patrick Henry.

The pure energy and spirit within this talented group of Warhawks were the key factors in making the season one to always remember.

1991 J.V. Hawks: Row 1 (L-R) Lance Wilson, Marc Amerson, Hunter White, Frankie Kellam, Michael Stone, Kin Kinsey, John Henderson, Mark Hamilton; Row 2 (L-R) Matthew Bryan, Bill Carter, Marty Watkins, Will Haynes, Brandon Hiott, Jarred Sumner, Eric Sumner; Row 3 (L-R) Michael Crosby, Al Terry, Lindsay Davenport (M), Coach Green, Coach Brittle, Ginger Speaks (M), Henry Sauls, Joe McConnell; Row 4 (L-R) Perry Hunt, Danny Hodge, Ashley Woodard, Patrick Ritter, Jon Baggett, Gary Herndon, Garner Regenovich.

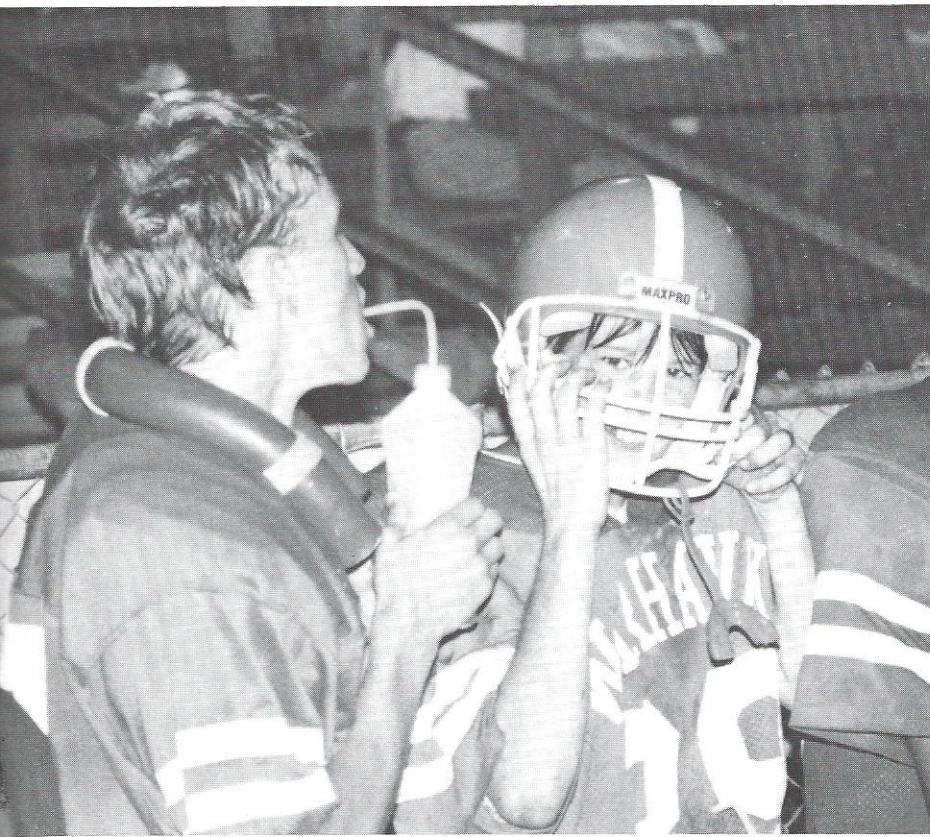

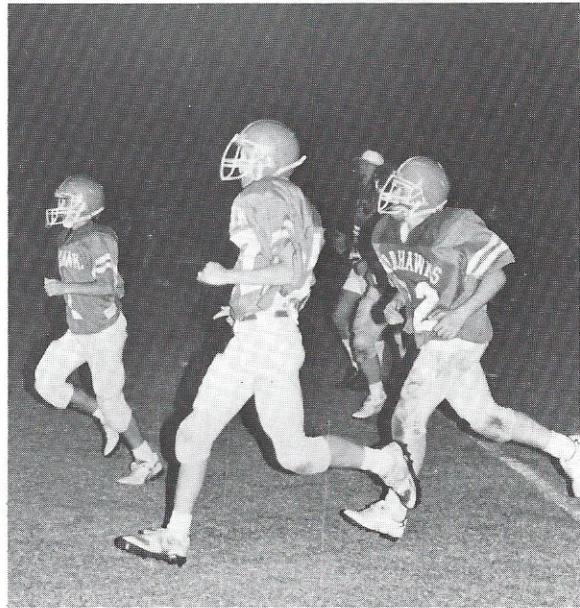

During halftime, Al Terry thinks about how well the team performed. He also concentrates on what he can do during the second half to improve. He remembers the strategies and moves taught at practice and knows the team executed them well. After all, practice makes perfect!

Coach Brittle congratulates his team on a great half while Danny Hodges and Gary Herndon listen intently. He also tells them what they can do to improve. These pep talks fire the team up and prepare them for the rest of the game.

Brandon Hiott, Patrick Ritter, and Danny Hodge run to the sidelines for a quick time-out as the third quarter ends. Even though the Warhawks are in the lead, they know that they cannot quit trying. This young group of boys never gave up if they were winning or losing.

Joe McConnell smiles, proud of his performance, while Patrick Ritter tries to cool down before he goes back into the game. Joe, an eighth grader, played fullback. As the boys get older, and gain strength from their workouts in the weight room their ability level increases accordingly.

G

Not Just Fun And Games

GO ALL OUT

The Junior Varsity Cheerleaders of 1991-92 had a special quality that people could not actually see. But, if they just opened their ears and listened, they would know. The J.V. girls may have looked small, but their voices were very big! The sounds of encouraging cheers were always heard as fans stopped to take notice. The squad performed the moves with great accuracy and skill. Many hours were spent preparing for each game and pep rally, but the girls know that it was all worth it.

Danielle Dantzler and Cara Valentine perform their dance during halftime. The cheerleaders played an important role in supporting the football team through an undefeated season.

When they congratulated their team after a victorious game, the cheerleaders felt as if they had played an important part in winning.

The squad was a great help to the Varsity Cheerleaders. The two groups often joined forces to present better pep rallies. At the Varsity football games, the girls sold programs and painted faces.

Not only were the cheerleaders a great help to the Varsity teams, but also to their own. They were always there to add the intensity and fervor to pull their team through.

The 1991 J.V. Cheerleaders: Standing (L-R) Kemp Marks, Ashleigh Padgett, Kimberly Smith, Corinne Brittle (sponsor), Leigh Anne Bennett and Cara Valentine. Kneeling (L-R) Laurel Anne Oswald, Carmon Valentine, Amy Godley, Danielle Dantzler, Stephanie Padgett and Angie Sweat.

Kimberly Smith, freshman, Amy Godley, freshman, and Ashleigh Padgett, eighth, strike a pose in their room at cheerleading camp held at Columbia College. Camp went well for the girls; they won an award for their performance in the dance competition.

Danielle Dantzer, Amy Godley and Angie Sweat have their turn at painting posters and sharing the latest gossip. Cheerleading builds strong friendships between the girls that will last throughout high school and beyond.

Amy Godley, Leigh Anne Bennett, Laurel Anne Oswald, Kemp Marks and Angie Sweat perform a halftime cheer on the new gym floor during a basketball game. Does it feel any different girls?

Carmon Valentine leads the Wee Hawks in a cheer during a pep rally. The J.V. Cheerleaders taught younger students cheers and chants so that the group could cheer during halftimes.

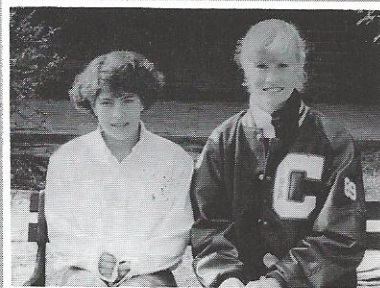

B

Set To Win

UMP, SET, SPIKE!

Bump, set, spike!! These key moves were carefully perfected by the members of the 1991 Varsity Volleyball Team. Only in its second season, the team struggled through another tough year. Although their record of 5-12 did not give them the credit they deserved, the girls worked diligently to make the season one of learning and building. Many of the team's starting players were young girls who have a few more years to play, improve, and excel.

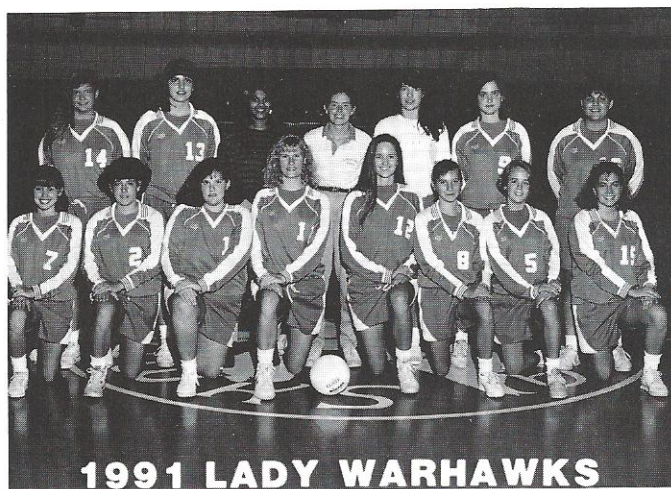

The two games that the

This year two volleyball players were chosen as All-Star players. Rebecca Speaks received the honor of being a Senior Player, and Stephanie Padgett was chosen as an Under Classman All-Star.

Hawks won were against Patrick Henry. Since PHA was the only team in their conference, the Warhawks were named Conference Champs in the regular season. They advanced to the state play-offs, where they placed fourth. This was a very big step for the team. They were able to experience the game at a much higher level under greater pressure and competition.

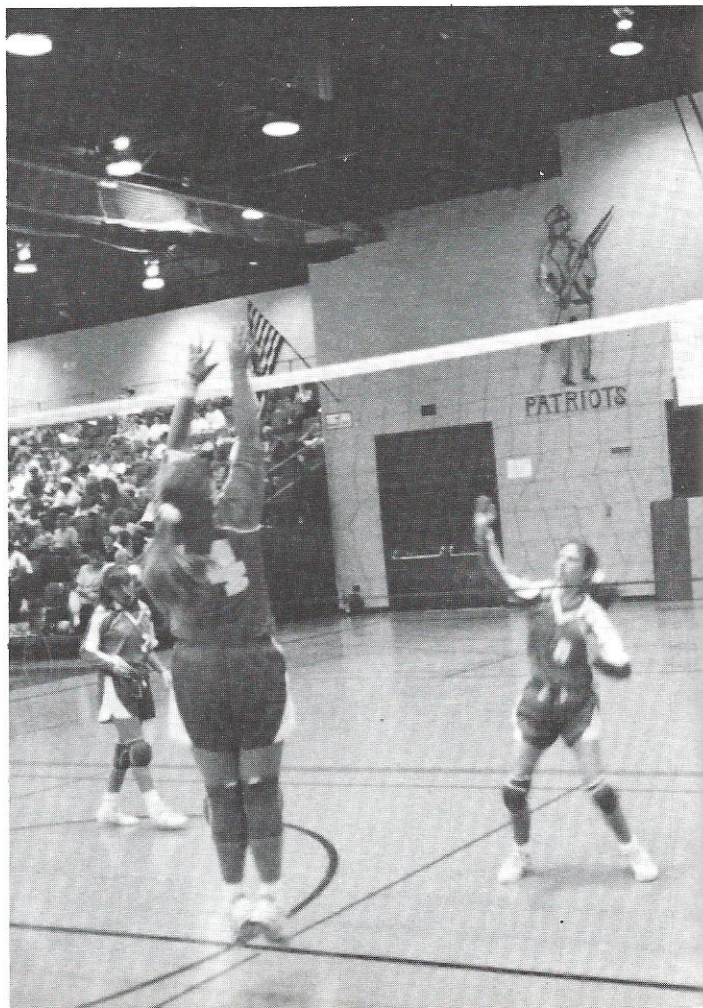

The Warhawks showed much improvement over last year. Coached by Corrine Brittle, the girls proved to everyone that a lot of teamwork and dedication can go a long way.

1991 LADY WARHAWKS

The 1991 Lady Warhawks: Standing (L-R) Dawn Burros, Jessica Street, Tina Patel (stats), Coach Corinne Brittle, Susan Drawdy (stats), Tracy Tittle, Virginia Greenwell; Kneeling (L-R) Harper Kinsey, Stephanie Padgett, Amy Carter, Rebecca Speaks, Randee Ritter, Carmon Valentine, Laurel Anne Oswald, Donna Stringfield.

Harper Kinsey sets the ball to Carmon Valentine, who then spikes the ball as Dawn Burros goes up for the block. This pre-game warm-up helps the players remember to "Bump, Set, Spike!" For offense, a good set and a strong spike are essential for scoring, while on defense, the height of a jump is important for blocking the spike of the opponent.

Rebecca Speaks and Stephanie Padgett concentrate on the ball while Virginia Greenwell, Harper Kinsey, and Laurel Anne Oswald prepare to back them up. Learning to work together can be tough.

Carmon Valentine, freshman, Jessica Street, sophomore, and Randee Ritter, junior, watch the match, cheering for their teammates. The encouragement of fans and teammates during the volleyball matches gave the players great confidence in themselves. This boost of spirit paid off in several matches, when the team was really counting on the support of the players and fans to keep them going.

Problems Don't Limit Talent

ECHNICAL DIFFICULTIES

The 1991-92 Varsity Hawks had a season full of ups and downs. They began with a small team which was constantly decreased because of injuries and sickness. Shaw Regenovich broke his hand during a scrimmage before the actual season had even begun. Marshall Morehead and Mike Regenovich received injuries to their ankles during games. With only seven players on the team, one player's absence made a big difference in the outcome of the game, considering the limited amount of substitutes.

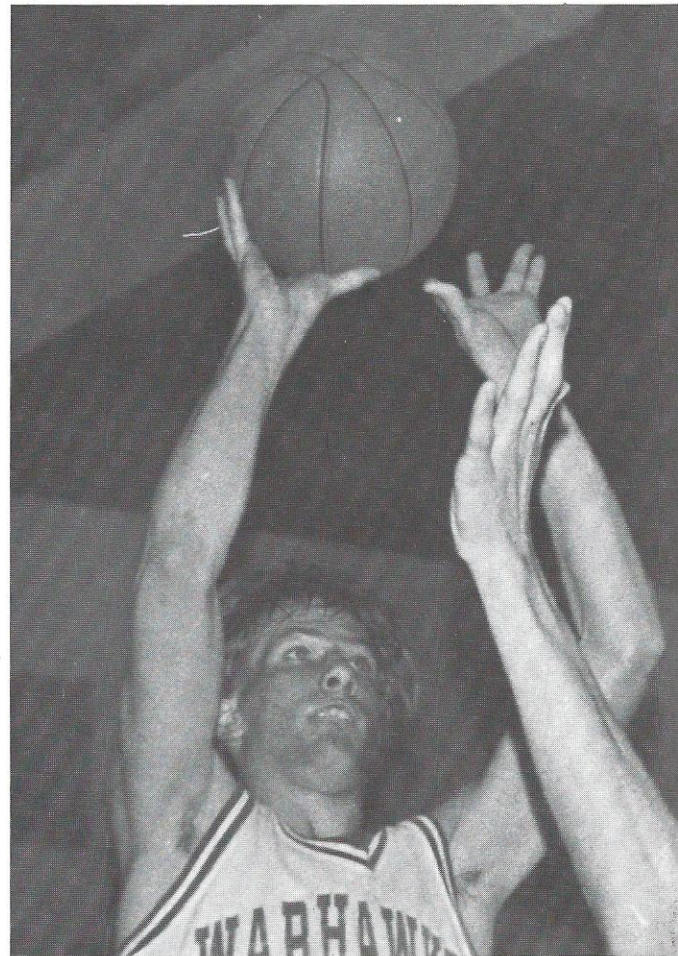

Josh White prepares to block his opponent as Wes Pye comes in to help. Wes was just one of the J.V. players who occasionally stepped in to help when the varsity ranks were thin due to illness or injury.

On the other hand, the Hawks had a lot of talent and determination. They played well and walked away with many well deserved wins. Shaw Regenovich, a sophomore, enjoyed his first year on the varsity team after playing on the J.V. team the previous year. Marshall Morehead, a newcomer to Colleton Prep, showed much potential as he won an MVP award at the Pinewood Invitational. The older boys added the valuable experience. As a whole, the team was solid as they strived through a tough but rewarding season.

Shaw Regenovich, a sophomore, quickly releases the ball for an outside two point shot. Shaw's quickness and jumping and shooting ability were a great asset to the Varsity team. This was Shaw's first year on varsity and he proved himself game after game.

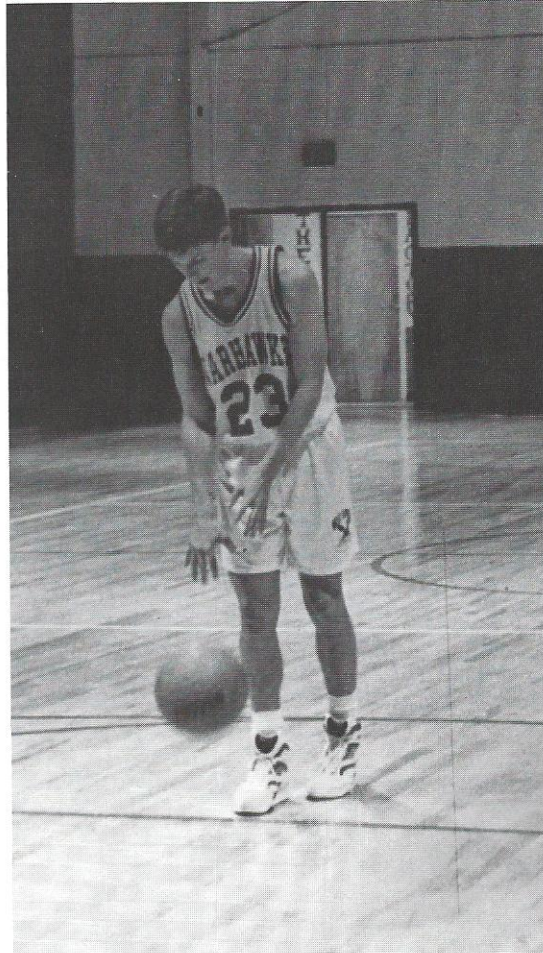

Even after a tough third quarter, Buck Howell stays alive and fights because he knows that the Hawks always have a chance to win. Although the Hawks struggled through a long, tough season, they did rather well in the Conference rankings.

Josh White reaches high over the heads of the Rebel opponents in order to easily lay the ball over the rim. Height played a crucial factor in the scoring and rebounding departments, along with talent and a lot of long, hot practices.

Marshall Morehead, Sophomore, impresses CPA with his aggressiveness and ability as a new comer to Walterboro and to the War Hawk team. Marshall, who transferred from Wardlaw Academy, enjoyed a rather successful season with the Hawks.

Craig White slowly dribbles the ball in preparation for the shot which could make or break the Hawks. The pressure builds with the rival opposition along with the high expectations from the fans, cheerleaders and teammates. Craig totally concentrates on the task before him and puts the ball in the basket.

The referee's whistle blows as a foul is called against the Rebels. Mike Regenovich does not enjoy getting smacked in the head but he likes the fact that he gets free shots.

1991-92 Varsity Hawks: standing (L-R) Coach Mike Green, Shaw Regenovich, Buck Howell, Josh White, Marshall Morehead, Mike Regenovich, Garry Hunt.

Shaw Regenovich feels like he is flying as he jumps high into the air to score two more points for the Hawks. Shaw had an excellent season as a first year varsity player.

Girls Have High Hopes For Season

AIMING HIGH

The 1991-92 Girls Varsity Basketball team worked very hard this year to get things moving in the right direction. They faced tough opponents, but their hustle and determination often brought them to victory.

Long, strenuous practices gave the girls the skill that they needed to strive past their opponents. The team had a great advantage when it came to blocking and rebounding. The height of Rebecca Speaks, Landis Williams, and Lee McConnell proved to be an important factor in their defense. They were able to steal the ball and

Susan Drawdy and Marie Amerson wildly celebrate their fantastic victory against Patrick Henry with the rest of their ecstatic team. The game was exciting for everyone and the win was well deserved.

pass it easily as the other team members who took it down the court to make the shot.

With the loss of only two graduated seniors, the majority of the girls were experienced and had proven themselves on the court in years past. There were many girls who moved up from J.V. this year and showed much potential. Some of them even held starting positions.

The Hawks' desire to win and their ability to work together led them through a good season.

Rebecca Speaks, Landis Williams, Marnie Amerson and Holly Griffith got into position as the opposing team begins to move down the court. The girls know how to work well together on the court as well as off. They participate in many of the same activities besides basketball.

Rebecca Speaks, senior, uses her ability and height to reach above and beyond to score for the War Hawks. Many of the players credited their success to height as they found it easy to reach up and pull down rebounds in order to get possession of the ball.

I Tracy Tittle passes the ball to Holly Griffith to begin the next play. Both girls, only sophomores, frequently start the games.

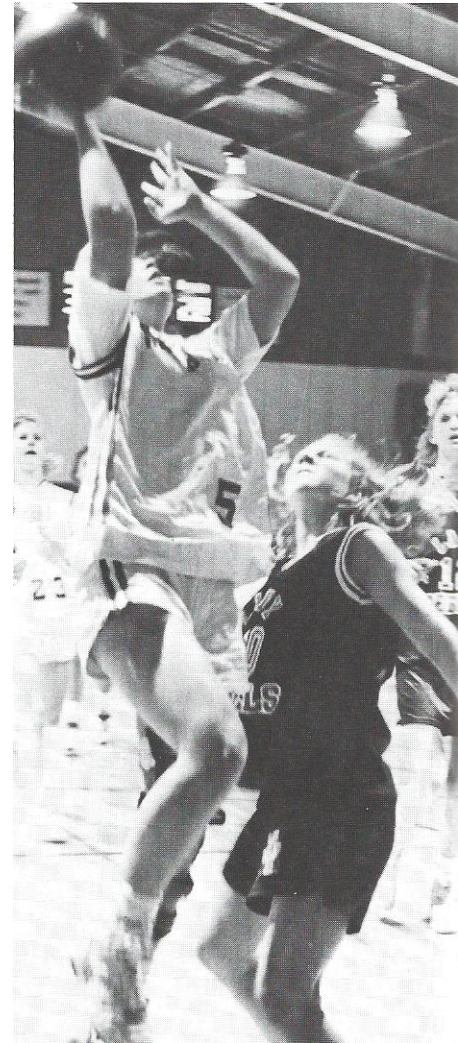

Lee McConnell, senior, passes the ball to the nearest open teammate. Lee is very careful to protect her knee from another injury. The brace worn during games and other sports never slows Lee down.

Rebecca, where on earth did you get that bruise? Could she have gotten it in the game which was won just moments before? Melissa Hinton, Anne Clamp, Rebecca Speaks, Marie Amerson and Landis Williams smile proudly to let everyone know that they are #1! These joyous faces prove that practice pays off.

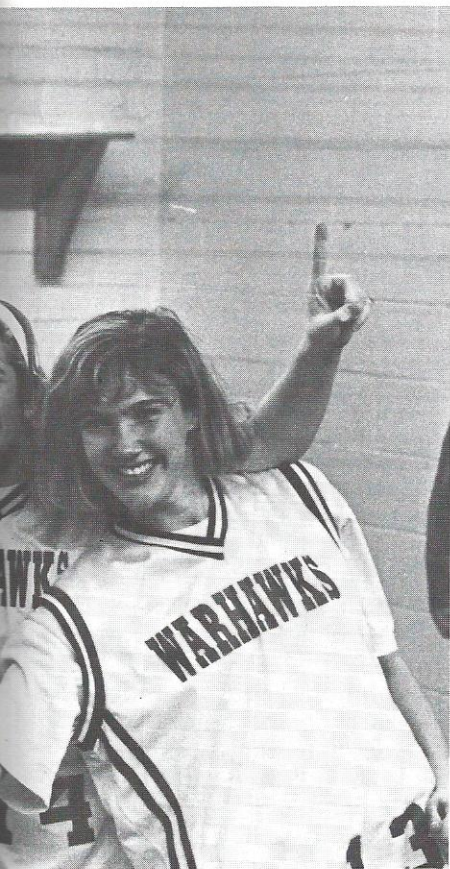

Lee McConnell reaches the basket practically unopposed as she scores for the Hawks. The girls use their speed and coordination well.

Tracy Tittle steadily focuses on her opponent, who headed straight toward her. Although it is sometimes very difficult to block out the crowd and the noise, each player must totally concentrate on the ball.

Rebecca Speaks, senior, squeezes in between two Rebels in order to get the rebounded ball in Hawk possession. Rebecca, who has been a great asset to War Hawks for many years, enjoyed a successful final season.

T

Nothing But The Best

THE SKY'S THE LIMIT

Pure energy and spirit were always felt by each player, cheerleader, and fan at the J.V. boys' basketball games. The Hawks did not have a lot of size, but they had all the quickness and talent they needed in order to have a fabulous season. Even with the loss of key players who moved up to varsity, the boys worked together as a team to prove what they were made of. The addition of new players gave the coach a broad choice of players to fill the different positions.

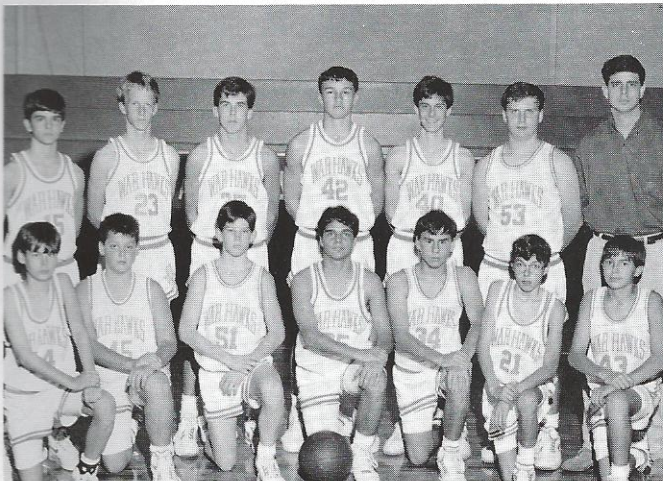

Some of the boys were given the chance to play with the

Lee Stringfield, a beginner for the JV Hawks carefully blocks the pass of his opponent without fouling. All those annoying but necessary drills at practice do help in the long run.

Varsity against Lord Berkley because many of the Varsity Hawks were out with illness. A great deal of the game was played by J.V. players only. Not only did these young men play competitively against a team that was much older, but they beat the team by fifty points.

Determination and a love for the game drove the team through a victorious season. The J.V. Hawks liked the feeling of being on top and knew that no one could bring them down. Being Tournament Champions is a feeling these players won't soon forget.

1991 JV Hawks: standing (L-R) Garner Regenovich, Patrick Ritter, Brandon Sauls, Wes Pye, Clay Folk, Ashley Woodard, Coach Mike Green; kneeling: (L-R) Hunter White, Chad Spell, Joe McConnell, Perry Hunt, Brandon Hiott, Lee Stringfield, Kin Kinsey.

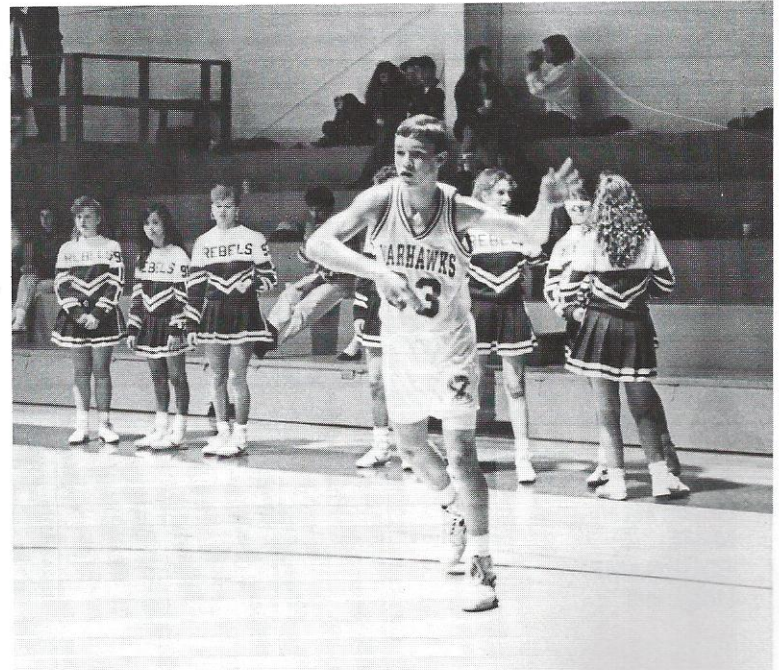

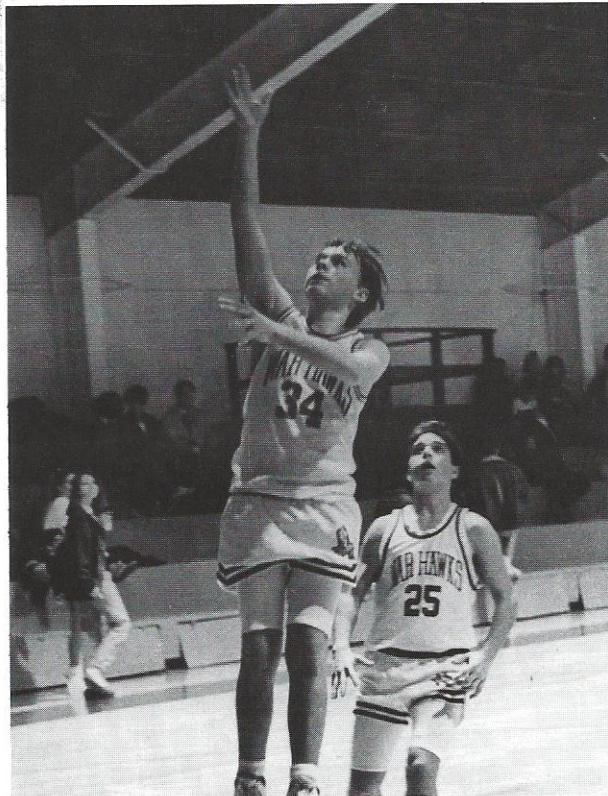

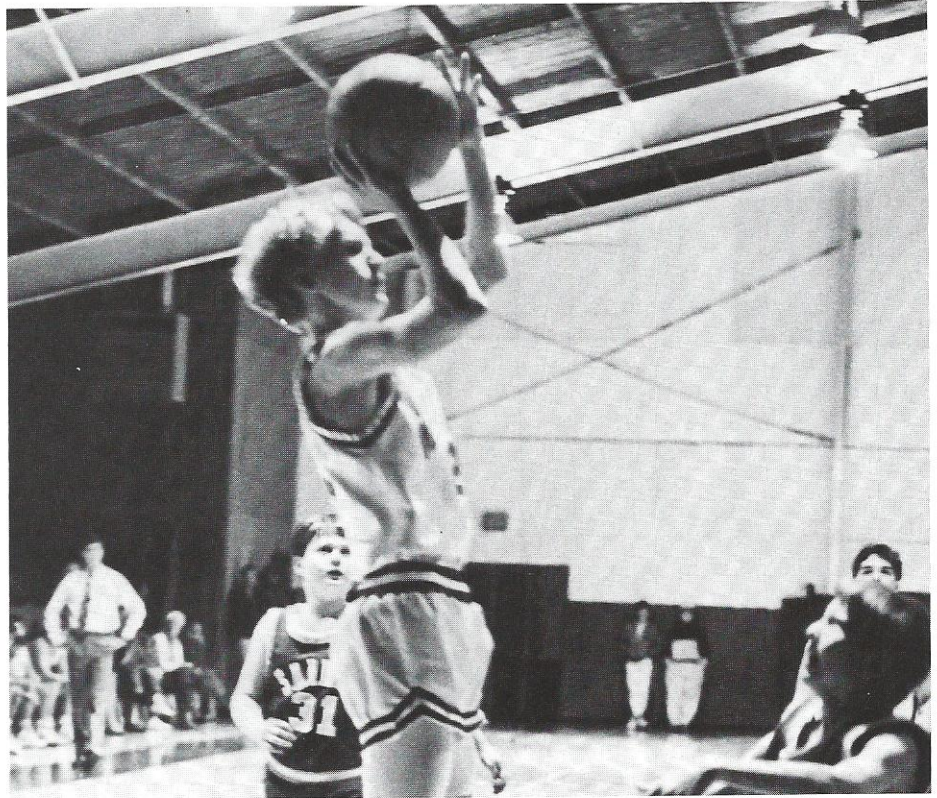

Brandon Sauls shoots the ball over the heads of his opponents while Patrick Ritter sets up for the rebound. The Hawks felt a strong sense of teamwork and this greatly influenced their performance. The season not only taught them to work together but also to be responsible.

Patrick Ritter, a freshman, has height on his side. Being able to shoot the ball above the heads and out of reach of the opponent is a real advantage. Playing basketball is a time consuming effort, but one that proves invaluable in building team skills and endurance.

Wes Pye, freshman, carefully spots the ball in the air. Wes stepped in to help during a Varsity game and showed much aggressiveness and talent while up against a bigger and more mature group. Wes feels confident that he is almost ready to play against the big boys all the time as he will soon move up to varsity.

Brandon Hiott easily sends the ball over the rim and through the basket as Perry Hunt stands by to help. When the Hawks were on a roll the boys could not miss. Luckily the boys hit these hot streaks often and this led them to a winning season.

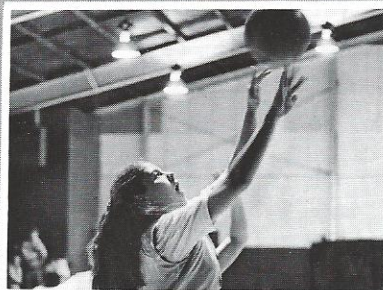

S

Hard Work Pays Off

SET UP TO WIN

Isn't the purpose of a J.V. team just to learn the basics and for the players to prepare themselves for when they move up to Varsity? Shouldn't they play just for the fun of it? NOT!! The 1991-92 J.V. girls didn't just have a great time, but they also had a season full of challenging games with many exciting victories.

These fresh, young players proved that years of experience were not essential for a winning season. Hard work and enthusiasm were the key strengths of the War Hawks,

Laura Kinard, a seventh grader, watches the ball as it leaves her fingertips. Coach Parnell believes in letting the younger players gain experience on the court. This builds self-confidence and a strong team.

even though many of the girls showed much natural ability as they easily glided down the court to score.

The Lady Hawks began a long winning streak which lasted into the latter part of the season. Their undefeated record was broken after an upset against Calhoun Academy, a game which was lost only by a single point.

Overall, the Lady Hawks had a fabulous season. These talented girls proved to everyone that they are the best and will continue the winning tradition for years to come.

During a well deserved time out, Coach Parnell congratulates the girls on a well played quarter. Even though short, these breaks give the girls an opportunity to rest their tired muscles as the coach goes over plays.

Stephanie Padgett, freshman, moves easily past her opponent to make the winning basket of the tied game. Stephanie proved to be an asset for the team this year as she lead the Hawks in assists and was a top scorer. Luckily for the Hawks, she has three more years to play at CPA and to help carry on the winning tradition.

Ginger Speaks quickly begins to move as Lindsay Davenport blocks her opponent. Ginger led the Hawks in Rebounds as Lindsay put the team ahead as a top scorer. These two are not only teammates, but best friends on and off the court.

1991 JV Lady Hawks: Sitting (L-R) Melanie Hoats, Christy Fagnoli; kneeling (L-R) Jennifer Housand, Stephanie Padgett, Cara Valentine, Lindsay Davenport, Kaci Nelson, Carmon Valentine, Laurel Anne Oswald; standing (L-R) Coach Danny Parnell, Wanda Herndon, Ginger Speaks, Tiffanie Lee, Laura Kinard, Stephanie Bailey, Asst. Coach Lewis Tittle.

Like the 1990-1991 Talon, Grand Opening, the 1991-1992 Talon was published by Jostens Printing and Publishing Plant in Clarksville, TN. We have the same representative, Jack Young, who helps us with the Talon. The size of the copy in the book has not changed; body copy is 10 point; caption copy is 8 point. Last year's annual had 80 pound glossy paper; we increased the weight to 100 pound for this year. Our type style is News Gothic (style 27) and all headlines are individually made by the section editor. The Simply the BEST cover is Litho Art with silver foil (381), Royal Blue (287) and Black (397). The trim size is 7¾ x 10½ with 169 pages. The 1st

deadline was 10/14/91; the last was 2/10/92. We sold 280 yearbooks at \$25.00 each.

THANK YOU: **Mr. Gallman** for taking the Senior Superlative and Class Beauty pictures. Also to **Jack** for his time in helping us with the annual. My special thanks to the **Talon Staff** for a job well done. And to **Mrs. Hawes** for all her help and understanding, especially on those late work nights!!!!

KRISTY GODLEY

SCN DROPS CHARGES AGAINST STUDENTS.

At South Carolina National Bank, we don't believe it's a crime to be invested with more intelligence than money.

That's why we created our Bargain Checking Account.

It's the checking account for people who don't want service charges. But who do want unlimited check writing privileges.

In fact, Bargain Checking goes one better than that. Because also included is a

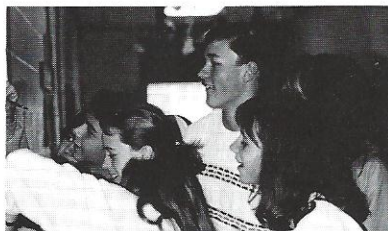

free ATM card that you can use free at over 125 TouchMatic Banking locations all over South Carolina. Including those at our beaches. Plus you can use the card in thousands of Relay™ and Cirrus™ machines across the country.

So don't get caught paying unnecessary service charges. Instead, get Bargain Checking from South Carolina National. Where your statements won't be held against you.

FLEX BANKING

Hampton, SC

Where A Great Tradition
Doesn't Stand Still

Tired of paddling? Mrs. Hawes, science club sponsor, takes a break while her partner catches her "sleeping on the job" with a camera. The club is a new addition to the school that has proved to be a big "splash."

Have we traveled back in time? These 9th graders think they have. Carmon Valentine shows off her Roman outfit while her classmates try to figure out how to "start" the chariot in order to begin the races!

Simply the
BEST

*One last look at
the **BEST** of CPA*

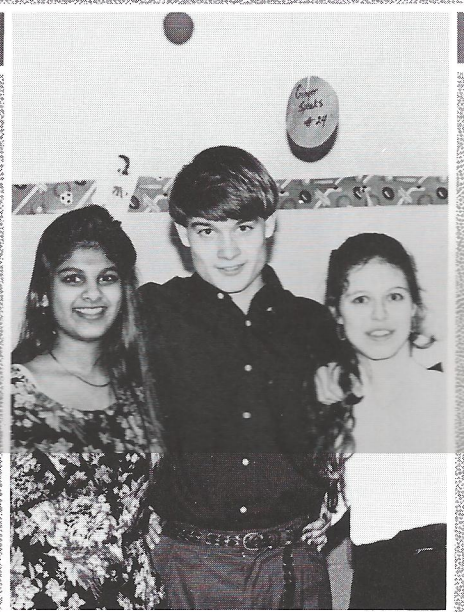

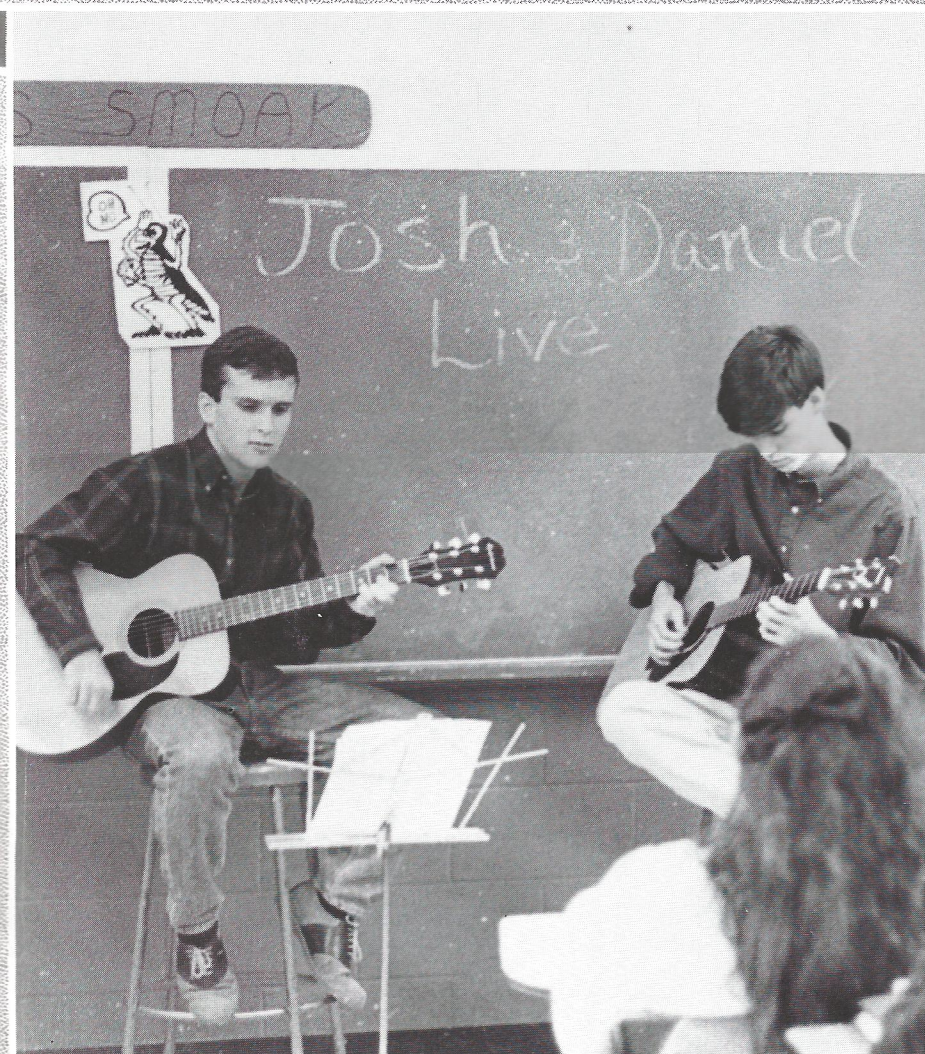

Simply the BEST speller! Becky Mixson won the Regional State Spelling Bee. She credits her teachers, Mrs. Fischer, Mrs. Bolt, Mrs. Howell and Mrs. Davenport for her success in spelling. The teachers use "phonics" to teach spelling.

Ahhh, slow dancing. Hunter White and Angie Sweat sway to the slow music at a dance the YAB sponsored on January 31, 1992. Only the 6th, 7th and 8th grades were invited to dance the night away.

Hold that motion. The J.V. cheerleaders provide half-time entertainment at J.V. basketball games. Cheerleading doesn't stop with the football season, they also cheer on their basketball teams.

Could this be a friendship for life? Dances always bring people closer as we see here. Tina Patel, Troy DeLoach and Kristy Godley take a rest from dancing to get to know each other better.

Are these the music stars of the future? Well, CPA isn't exactly MTV, but it gives Daniel Strickland and Josh White, seniors, a chance to perform in front of a crowd.

Simply the
BEST

During a home football game against Dorchester Academy, sixth grader John Henderson expresses the victorious season with one powerful gesture. The JV football team went undefeated throughout the season and continued on to become the AA Conference Champions. The 1991 JV football record is one of the **BEST** ever held at CPA.
