

Crystal,
So God made little girls---what a miracle. We prayed and he heard our prayers. He blessed us with someone special like you on a cold February morning in 1979.

My! The time has flown, and now you have grown up to be a beautiful young lady! I will always remember when you were "two" and the dentist said to you, "where did you get those beautiful blue eyes," and you said, "God gave them to me." Snowbird, remember to use you special talents in life that God has given to you. Strive always to do your best. Have Faith in Him because Faith can move mountains, and with Faith you can reach your goals.

So in closing this graduation message---remember you will always be loved by us!

Mom and Dad
