Twice each year the members of the local chapter of Phi Beta Kappa salute those men of the senior class who have achieved preëminence in scholarship by extending to them invitations to membership. Not more than twelve and one-half per cent of any class may be extended invitations. Phi Beta Kappa is the oldest honorary fraternity in existence, having been established in 1776; and through the years it has upheld the high standards for which it was established. To be selected to membership in this fraternity means that a man has attained a high degree of success in his college work, and Phi Beta Kappa is the best recognition that can be given for this excellence in scholastic endeavors.
