

J.V. Football

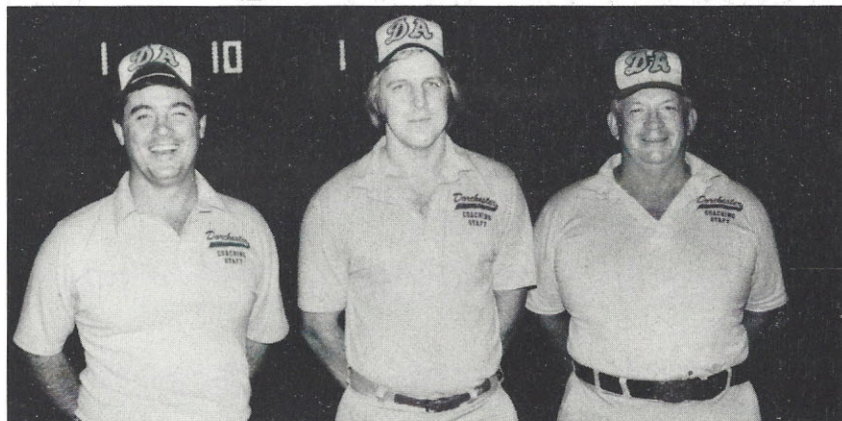

What do you do when you find all your top starting players gone with last year's season? Well, if you're Kitt Dukes you worry a little, switch positions a lot to find the best combination, and add a lot of hard work. The J.V. team worked hard all season. Although the year was not as successful as hoped, with a 1-6 record, the players showed diligence and skill. They never let go of their hopes and they'll come back even stronger in them in the coming years.
