

Chris,

All through your life we've guided you  
We've tried to make your dreams come true  
You've grown into a fine young man  
And filled our lives with happiness as only you can.  
We watched you walk and watched you fall  
You've persevered through it all  
As you've grown into the man you are  
Our love for you shines brighter than any star  
On through life as you make your way  
We'll think of you with love each passing day.

We wish only the best life can bring you and we hope you know we're always here for you.

Congratulations!  
We love you!  
Mom, Dunk, Gregory and Russell
