

Being at the top is not all fun and games. Becoming a Senior means hard work, dedication, determination, and of course, early dismissal, the Senior trip, fundraisers, and graduation. Pressure, responsibility, and challenges are what await them to prepare them for the future. Seniors must act as role models to underclassmen, while striving to have fun. One major expectation is to make this the most memorable year ever, while putting forth much effort to be successful academically and athletically. Friendships, memories, good times and bad will remain in their hearts forever. As they walk down the halls of Dorchester Academy, they realize it is one less day to be spent there. As one road ends, they make their way to another. Their hopes and dreams can now become reality if they choose wisely. Success is an important contemplation on their minds as the dream of graduation now becomes real.
