

Too Much Fun!!

Our moment to shine. Dorchester Academy's Class of 2000.

We entered school, because our parents told us to go. We were not sure what to expect, but then again we really did not care. After many years of guidance from our parents and teachers, we have finally reached the day of our graduation. Not only did we learn what we needed to know, we made friends that will always be close to our hearts. Our final year of high school was something to remember. We got to get out of school at 12:00 and walk into the gym with everyone standing up for us. We had many other privileges, but being a Senior also gave us a lot of responsibility. We had to figure out what we want to do after graduation and set an example of excellence for the whole school. Despite the pressure of everyone looking up to us and making good grades, we still managed to enjoy it all. It was Too Much Fun!
