

The keeper of the Moon and Stars
gave us a little girl.

We had one but needed two,
in order to complete our world.

He presented one so full of life
with determination and flair

With a heart open and wide,
She loved with deepest care.

Unique in every way,
She sets her standards high.

The keeper of the Moon and Stars
has kept you in His care,

To bring you to where you are
and keeps you through your fears.

So as you dream of Moon and
Stars

and set forth to make your way,
keep your eyes upon the Son
that created night and day.

We are proud of our special star!

Love,
Daddy and Momma
