

*Earlie,*

*The past eighteen years have gone by so fast. You and your brother have been our pride and joy. You have been such an achiever from four-year old kindergarten (where we thought you were the best colorer in the class) to now.*

*We know you can do whatever you set your mind to, so set your goals high, keep your determination, and remember attitude is everything. You deserve the best; don't settle for anything less. As you face the new challenges of the future, be strong, remember God loves you, and don't forget about Him or us. We love you with all our hearts.*

*Mom and Dad*
