

To Danielle, Our First Grandchild

From the time you were born and first looked at us with those vivid eyes, you have held us captive in the palm of your hands. When you were a baby, we spent every Sunday night and Monday together. When you were a youth, you lived in Harleyville near us and spent lots of time at our house and at the shop. When you grew into your teens, we spent Friday nights and Saturdays together eating ice cream and working at the shop.

We've had countless shopping trips, beach vacations, Junior Miss trips, Brosnan Forest vacations, holiday gatherings, and many other special events that have bonded us as few grandparents and grandchildren ever bond.

Through the years you have made us so proud - at beauty pageants, plays, and dance events, as a clown, a "bride," a flower girl, a softball player, a cheerleader, a volleyball player, and especially as a basketball player. You have been a wonderful big sister and a great role model for many young people. And to top it all off you are an honor student - a LIFE scholar! We thank God that you are a young woman of high morals and standards and that we can claim YOU as our own.

You have a great future ahead of you, Danielle. Hold fast to your dreams and always remember that we are here for you..

Love,
Kama & Granddaddy
