

God gives us all precious gifts. On the day that you were born was my precious gift. Since then you have meant the world to us. You have been a dream come true. I'm so glad that we have become closer as you grew up and we have remained close.

You are the best friend I've ever had. You have always worked hard at everything you've set out to do and have done your best. Continue to do your best and you will go so far in life. Never give up on anything. We are very proud of you.

Congratulations to a very special daughter and we love you. Let the sky be your limits to whatever you decide to do.

Mom and Dad
