

Changes everywhere...

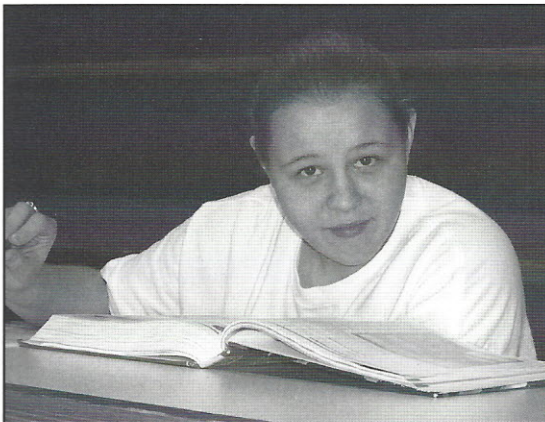

As the year has gone by, there have been many changes throughout the school. New renovations have been made in the restrooms on the high school end. The computer labs were remodeled and received new computers. Also, as the year progressed, the gymnasium received new doors and the school purchased two new mini buses for sports activities and field trips. In addition to all of these improvements, an extra period

was added to include study hall.

Another big event of the year was having the air conditioning installed in the gymnasium. The official "flipping of the switch" was held Friday morning on October 29, 2004.

The 2004-2005 school year saw many changes, all which were needed. The school as a whole has grown, and we are another step closer to becoming a better school.

... lead to improvements

Chrystal Peal looks like she's really enjoying herself in study hall.

Dr. Lanier Shuler and Coach Stanley Gruber do the honor of "flipping the switch."

Eric Fralix, Benjamin Franks, Joey Clark, and Cody Way look like they are up to something.

Kaitlin Mauney is hard at work in the renovated computer lab.
