Where Support Comes From...

It is said that having supporters truly defines a person or group. Throughout our past year participating in the making of our 2004-2005 annual, the annual staff can justly say that Dorchester Academy's supporters are the backbone for the production of the yearbook. Without the cooperation of local businesses and parents, our entire yearbook would not have been possible. Expressing our sincere thanks to each of our sponsors, we confirm their encouragement through our yearbook "Ads."
