

Brian,

Your family are so proud of you. These moments will never be replaced.

This stepping stone is the beginning of your future accomplishments, like your first steps, your first score on the baseball team, your first date, the day you were able to drive your first car. The many more "first" are going to be many and we believe you will accomplish them just as well as you did in all the others. We Love you and very proud of you.

Love

Mom, Dad, Paul, Sammy, Kristy, Joni, Amanda, Grandma, and most of all this whole page is dedicated to the one that always kept saying to you, "if you do anything in your life, Please Graduate", your Grandpa

Master Chief Roger M. Anderson
