

The 2006-2007 Lady Raiders basketball team started off the season with high expectations with the whole team returning with the exception of one. This included five seniors, two juniors and three sophomore newcomers. The season didn't start off with a win but quickly

got turned around with a victory over Andrew Jackson Academy. Since then Raiders have made some much needed improvements and have boosted their record, constantly improving as the season progresses. -Kaitlin Mauney & Morgan Westbury
