

Science Fair

Our Science Fair was held on March 5 and 6, 1969. All students in grades six through twelve were required to hand in a project.

Winners in the Junior Division were: First: a tie between Alice Rogers, a project on insects; and Karen Price, the anatomy of the ear; Second: Mike Mitchell, fish anatomy; Third: Susan McClellan, phases of the moon.

Senior Division winners were: First: Fred Kemmerlin, display of chick embryology; Second: Edward and Karen Rogers, a project describing latent learning in mice; Third: Sarah Fick, study of blood type heredity; Fourth: a tie between Kay Murdaugh, model of DNA molecule and Martha Dodd, anatomy of a frog.

Fred, Edward, Alice, Karen Rogers, and Karen Price took their projects to Charleston for the Regional Science Fair. Fred won second place in the Biology division, the Air Force Award, and the Army Award.
