

This year our band, under the direction of Mr. Gerald Polk, is in its second year. The progress this group has made in its short life is unbelievable. Their appearance at school activities has contributed enormously to the spirit and fun of each occasion. While the "big" band is marching and performing, the "baby" band is waiting in the wings, ready to add their number to the more experienced group when they become proficient enough. Mr. Polk is proud of his group at J. C. C. A. , and the Academy is equally proud of the band and its director!
