

Experiments And Action

The Science Club, sponsored by Miss Boynton and Mr. Hartshorn, started its second year of existence with the election of officers. The officers chosen were Pres. Todd Buddin, Vice-Pres. Joey Ritter, and Sec-/Treas. Carlton Progoski. The Club also made many plans for the upcoming year. Their biggest goal, a trip to Cape Canaveral in Florida, seemed almost impossible. They began raising money by having carwashes, bake sales, cake raffles, rummage sales, and even a bike-athon. The Science Club also planned to give a scholarship to a student pursuing a career in the field of science.
