There's No Stopping Us

The Junior-Varsity Boys acquired a new coach this 1985-86 season. Coach "Doc" Lewis came to guide the young Hawks to many victories during the season. Under the hustling defense and sharp-shooting offense, the J.V. Hawks proved to be the dominating team of the conference. The young men played together to post win after win. Defensively the Hawks were quick on their feet, but offensively the shooting was tremendously professional. Although all of the school didn't have J.V. teams, the ones that did wished they didn't because of the determination of our team proved tough to beat.

We look forward to having another great season next year because the experience of the talented athletes is now great. Congratulations to the J.V. boys for a job well done!

A starting Freshman, Mike Hiott jumps high for the rebound. Mike often provided the extra points needed to win a game.
