

# The Way We Were

The past years at John C. Calhoun have been fun-filled and exciting times. Everyone remembers the first day of school, field trips, class projects, raising money, class rings, Jr.-Sr., SAT and many other fun experiences. Now that we have gotten to know each other through the years, we have developed long-lasting friendships. Everyone agreed that they could not have made it without special friends. We remember the experiences that happened at John C. Calhoun Academy, The way we were.
