

AIDES KEEP LIBRARY RUNNING

The library is a place we go to supplement the things we learn in class. Without the library we would have no place to get books to read and for reports. Thanks goes to Mrs. Brightwell, without her the library couldn't function.

In their spare time these students work in the library helping Mrs. Brightwell prepare the library for the use of the students.

Mrs. Brightwell finds that putting the books back in place is a hard job. She knows that she can handle it though.
