

# Projectionists Club

Well-produced movies add visual piquancy to the scintillating lectures of the Southwest faculty. This entertaining method of education is all brought about by the Southwest's own projectionists under the direction of Mr. Schlinkmann. Membership in the club is open to boys of any term, who have extra study halls and who are interested in doing this type of work for the school.

Besides movies, the capable members of this club show slides, filmstrips, and are adept in the use of our opaque projector. This takes a big job away from the harried faculty, and gives the projectionists valuable experience. But most of all, the projection club members benefit the students, by enabling them to profit from the proved instructional opportunities of audio-visual education.

Are you sure that's threaded right?

Sponsor: Mr. Schlinkmann

Row One: Legamaro, Yaeger, R. Ebinger, N. Barr, A. Meyers, J. Reiss, R. Hall, J. Eggers.
