Original 1st Graders Graduate, Marking 12th Year Of Growth

The Academy had its origin in the dreams of one man. The idea spread and the weaving process began. Threads of aspiration, discouragement, and perseverance began transforming an abstract plan into a tangible reality.

With its fabrication, Wade Hampton became the first private school in Orangeburg. This spring, after twelve years of growth and change, W.H.A. graduated, as seniors, the original first grade class.
