

Preschoolers Master Basic Math And The Alphabet In Preparation For Higher Learning

Preschool teachers worked busily this year preparing kindergarteners for the first grade. They diligently instructed them in the number system, writing, and phonetics. Thinking up and carrying out plans for making various forms of artwork involved a great deal of their time. They provided speakers and films. They enjoyed romping with the children at recess on the swings and the jungle gym.

MRS. TEEN McCULLOUGH: Head Teacher.

MRS. SERENA BAUGH: Head Teacher.
