

Second Graders Revive Hula Hoop Fad

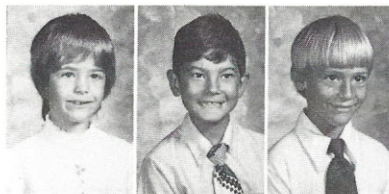

Hula hoops were the latest rage with second graders. Recess provided time to perfect their technique. New math books added the metric system to their curriculum.

In science, making volcanoes and growing seeds highlighted the year. Bulletin boards decorated by the students illustrated seasonal activities.

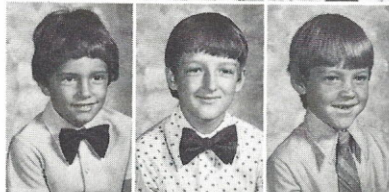

1. During the weekly spelling lessons, second graders improve their vocabulary.
2. With scissors and glue, Mrs. Lake's 2nd graders work on arts and crafts.
