

Non-Academic Subjects Are Popular Among Students

Non-academic subjects were well liked by students. The seventy-nine member chorus presented two programs and received two invitations to sing at other functions. At P. E., 7th and 8th graders enjoyed kickball, football, and bas-

ketball.

Home management girls made a variety of clothes. They also experimented with quick breads.

Typing and bookkeeping prepared students for the world of business.

1. Snipping a thread carefully, Reggie Huber works on an outfit for home management.
2. During music class, Mary Jo Fersner, Holly Zeigler, and Pam Judy practice a song.
3. Straining for the ball, P.E. students compete in crab soccer.
4. Typing students concentrate on a tedious lesson.
